Faster The Acceleration Of Just About Everything:

Faster James Gleick, 1999 Synchronize your watches We have reached the epoch of the nanosecond This is the heyday of speed If one quality defines our modern technocratic age it is acceleration We are making haste Our computers our movies our sex lives our prayers they all run faster now than ever before And the more we fill our lives with time saving devices and time saving strategies the more rushed we feel In **Faster** James Gleick explores nothing less than the human condition at the turn of the millennium He shines a light of enterprising and analytical reporting as well as sly wit on the newest paradoxes of time His journey takes us through the bunkers and trenches of a war we barely knew we were fighting to the atomic clocks of the Directorate of Time to the waiting rooms that focus our impatience to the film production studios that test the high speed limits of our perception to the air traffic command centers that give time pressure new meaning We have become a quick reflexed multitasking channel flipping fast forwarding species We don't completely understand it and we're not altogether happy about it **Faster** is a mirror held up to our times and a mordant reminder of why some things take time **Faster**

James Gleick, 2000 **CrazyBusy** Edward M. Hallowell, M.D., 2007-12-18 Are you too busy Are you always running behind Is your calendar loaded with more than you can possibly accomplish Is it driving you crazy You're not alone **CrazyBusy** the modern phenomenon of brain overload is a national epidemic Without intending it or understanding how it happened we've plunged ourselves into a mad rush of activity expecting our brains to keep track of more than they comfortably or effectively can In fact as Attention Deficit Disorder expert and bestselling author Edward M Hallowell M D argues in this groundbreaking new book this brain overload has reached the point where our entire society is suffering from culturally induced ADD **CrazyBusy** is not just a by product of high speed globalized modern life it has become its defining feature BlackBerries cell phones and e mail 24/7 Longer work days escalating demands and higher expectations at home It all adds up to a state of constant frenzy that is sapping us of creativity humanity mental well being and the ability to focus on what truly matters But as Dr Hallowell argues being crazybusy can also be an opportunity Just as ADD can if properly managed become a source of ingenuity and inspiration so the impulse to be busy can be turned to our advantage once we get in touch with our needs and take charge of how we really want to spend our time Through quick exercises perfect for busy people focused advice on everything from lifestyle to time management and examples chosen from his extensive clinical experience Hallowell goes step by step through the process of unsnarling frantic lives With **CrazyBusy** we can teach ourselves to move from the F state frenzied flailing fearful forgetful furious to the C state cool calm clear consistent curious courteous Dr Hallowell has helped more than a million readers free themselves of the distractions and compulsions of ADD Now in **CrazyBusy** he offers the same sound sane and accessible guidance for anyone suffering from the harried pace of modern life If you find yourself pulled into a million different directions here at last is the opportunity to stop being busy start being happy and still get things done *Contemporary Authors New Revision Series* Pamela Dear, 2001-07 In response to the

Time, Consumption and the Coordination of Everyday Life Dale Southerton, 2020-08-17 Time pressure speed and the desire for instant consumption pervade accounts of contemporary lives Why is it that people feel pressed for time in what ways have societies changed to create this condition and with what implications This book examines critical contentions in the field of time and society ranging from the emergence and dominance of clock time and time discipline the time pressures associated with consumer culture through to technological innovation and the acceleration of everyday lives Through extensive analysis of empirical studies of the changing ways in which people organise and experience home work leisure consumption and personal relationships time pressure is shown to be a problem of the coordination and synchronization of activities Appreciation of temporal rhythms formed and reproduced through the organisation and performance of social practices is necessary to tackle the challenges of coordination and offers new avenues for analysing social issues such as sustainable consumption health and well being This book is essential reading for all of those interested in social change consumption and time including researchers and students from across the social sciences

Unfettered Hope Marva J. Dawn, 2003-01-01 Dawn identifies the social and cultural issues and attitudes that contribute to despair and lack of hope in the world and provides a way for Christians to identify appropriate primary concerns around which they should live their lives

The Impact of ICT on Quality of Working Life Christian Korunka, Peter Hoonakker, 2014-04-25 This book discusses the impact and effects of Information and Communication Technologies ICT on quality of working life of employees It describes the changes and the acceleration of processes caused by the widespread use of ICT in a broad range of working areas and in different national contexts It explores the important role ICT has come to play in nearly all work places in developed societies and the impact it is starting to have on work places in developing countries The book brings together experts from the fields of ICT and quality of working life and from a variety of backgrounds and disciplines including sociology psychology industrial engineering and macro ergonomics It discusses the range of current positive and negative effects as well as the possible increase of both kinds of effects in the future The final chapter of the book integrates the diverse perspectives of the authors and gives recommendations on how to increase the possible positive outcomes and to diminish negative effects of ICT in an accelerated society

Designing the City of Reason Ali Madanipour, 2007-04-11 With a practical approach to theory Designing the City of Reason offers new perspectives on how differing belief systems and philosophical approaches impact on city design and development exploring how this has changed before during and after the impact of modernism in all its

rationalism Looking at the connections between abstract ideas and material realities this book provides a social and historical account of ideas which have emerged out of the particular concerns and cultural contexts and which inform the ways we live By considering the changing foundations for belief and action and their impact on urban form it follows the history and development of city design in close conjunction with the growth of rationalist philosophy Building on these foundations it goes on to focus on the implications of this for urban development exploring how public infrastructures of meaning are constructed and articulated through the dimensions of time space meaning value and action With its wide ranging subject matter and distinctive blend of theory and practice this book furthers the scope and range of urban design by asking new questions about the cities we live in and the values and symbols which we assign to them *Authentic Faith* Gary Thomas, 2009-07-27 The faith God calls us to is far more than glowing positivism that shields us from life's struggles It is one that guides us into a deepening intimacy with the God who sustains us in the broad sweep of life Bestselling author Gary Thomas helps us sharpen our spiritual vision and fortify our commitment to Christ by examining ten disciplines God uses to forge a fire tested faith A biblical view of these disciplines can safeguard us from disillusionment when not if difficulties surface in our lives Sharing scriptural insights the wisdom of Christians through the centuries and cogent personal observations Thomas explores the disciplines of selflessness waiting suffering persecution social mercy forgiveness mourning contentment sacrifice hope and fear As Thomas reminds us faith is about something other than a smooth ride through this fallen world Rather authentic faith is shaped tempered and purified in the flames of struggle This eye opening look at what it means to be a true disciple of Jesus will encourage you bolster your faith and help you rise above shallow attachments to fix your heart on things of eternal worth Beyond Paradise Jack Clayton Swearingen, 2007-03-01 Technology is shaping our culture and controlling our lives for better or for worse Often technology's benefits far outweigh its negative impacts and technological advances can seem boundless But the scientific technological worldview tends to override other value systems Indeed this technological way of thinking has influenced many contemporary ideas beliefs values habits and ways of communicating Furthermore in addition to technology's well known environmental impacts social aesthetic and spiritual consequences are now emerging How can we balance positive physical effects of technology with other ambiguous or negative impacts Some of the decisions we face have no precedent from which to draw wisdom For this reason the resources of Scripture and the Christian tradition must be brought to bear on technological questions How is technology used and abused today Does technological progress lead to human progress How can Scripture help us both individually and collectively to manage technology's impact in proactive ways Swearingen uncovers a comprehensive scriptural mandate for managing technology On his way to a theology of technology he evaluates which advances are moving society in directions consistent with God's purposes Beyond Paradise Technology and the Kingdom of God aims to provide practical means for assessing technology's influence and for steering technology and its effects toward biblical ends A

Humanities Approach to the Psychology of Personhood Jeff Sugarman, Jack Martin, 2020-02-26 In this set of insightful essays the concept of the psychological humanities is defined and explored A clear rationale is provided for its necessity in the study and understanding of the individual and identity in a discipline that is occupied largely by empirical studies that report aggregated data and its analysis Contributors to this volume are leading scholars in theoretical psychology who believe that psychology must be about persons and their lives In these essays they draw from a variety of disciplines that include art literature life writing and history to make a case for the psychological humanities A final chapter provides a critical commentary on the value of the psychological humanities The chapter argues that psychology must draw on the knowledge and practices of the humanities as well as the sciences and social sciences in order to attain a greater understanding of personhood This book is aimed at upper level undergraduate and postgraduate students and scholars of psychology particularly theoretical psychology philosophy of the mind and those from a humanities background interested in exploring the concept of the psychological humanities

Media, Politics and the Network Society Robert Hassan, 2004-03-16 What is the network society What effects does it have upon media culture and politics What are the competing forces in the network society and how are they reshaping the world The rise of the network society the suffusion of much of the economy culture and society with digital interconnectivity is a development of immense significance In this innovative book Robert Hassan unpacks the dynamics of this new information order and shows how they have affected both the way media and politics are played and how these are set to reshape and reorder our world Using many of the current ideas in media theory cultural studies and the politics of the newly evolving networked civil society Hassan argues that the network society is steeped with contradictions and in a state of deep flux This is a key text for undergraduate students in media studies politics cultural studies and sociology and will be of interest to anyone who wishes to understand the network society and play a part in shaping it

The Human Organization of Time Allen C. Bluedorn, 2002 Particularly valuable to those involved in the management and organizational sciences since much material from those fields informs the discussion this book considers several answers to the question of the true nature of time It demonstrates that humanity creates a variety of times and the times affect the experiences of life as times vary so does life

Doctor Theory's ABCs: Scientific Entertainment enterprises , **The Infinite Holographic Quantum Physical Universe!** J.E. Andersen, 2023-06-05 My name is J E Andersen and it is not my name you should hang yourself in but my new 5 dimensional universal holographic quantum physics model This story starts up in 1976 when I had an incredible out of body experience opened my eyes to the paranormal side lying universe and began exploring this experience This led me to the right universal physics model the physics model that I describe in my books It was soon discovered that the 3 dimensional physics model would not be able to hold all the way In 1986 I started a brand new hologram model which later turned out to reveal just the right active universe

which is 5 dimensional in the active universal engine room We can only see experience and detect the actual substance coming out of the very innermost field of this field system the Higgs fields The Higgs fields are located inside the atoms but atoms can also be empty i.e. without the Higgs fields and then we are inside the famous stealth technology the invisibility technology Remember that it is atoms that are the building blocks of the universe It is precisely this stealth technology that comes out of this 5 dimensional very active holographic quantum physics which is the next big breakthrough in all types of research today The fact that the universe is no longer just physical leaves behind a universe that is totally 100% holographic and which is powered 100% by an active 5 dimensional quantum physics There are no physical particles in this universe only this holographic matter that can actually disappear and come back again and now we have revealed stealth technology Stealth technology is about the relationship between the atoms and the inner Higgs fields The atoms can actually operate completely empty and now this object can no longer be seen due to the lack of Higgs substance This is more than interesting this also very exciting and completely new to you because this is the truth about the creation of the universe expansion the unifying mass inside all gravitational fields which turn into pressure cookers and develop moons into planets planets into gas planets gas planets into stars and the stars burn up the physical liquid plasma transforming this plasma into the totally invisible starlight and thus becomes a black hole It is the gravitational fields that create shape and develop absolutely everything that is visible in this universe Read my books about technology and physics *The Postnormal Times Reader*

Ziauddin Sardar, 2019-01-01 IIIT Books In Brief Series is a valuable collection of the Institute's key publications written in condensed form to give readers a core understanding of the main contents of the original Postnormal times are best defined as an in between period where old orthodoxies are dying new ones have yet to be born and very few things seem to make sense or as Ezio Mauro puts it we are hanging between the no longer and the not yet and thus we are necessarily unstable nothing around us is fixed not even our direction of travel The postnormal times theory attempts to make sense of a rapidly changing world where uncertainty is the dominant theme and ignorance has become a valuable community The Postnormal Times Reader is a pioneering anthology of writings on the contradictory complex and chaotic nature of our era It covers the origins theory and methods of postnormal times and examines a host of issues ranging from climate change governance Middle East to religion and science from the perspective of postnormal times By mapping some of the key local and global issues of our transitional age the Reader suggests a way of navigating our turbulent futures **Social Acceleration**

Hartmut Rosa, 2013-06-11 Hartmut Rosa advances an account of the temporal structure of society from the perspective of critical theory He identifies three categories of change in the tempo of modern social life technological acceleration evident in transportation communication and production the acceleration of social change reflected in cultural knowledge social institutions and personal relationships and acceleration in the pace of life which happens despite the expectation that technological change should increase an individual's free time According to Rosa both the structural and cultural aspects of

our institutions and practices are marked by the shrinking of the present a decreasing time period during which expectations based on past experience reliably match the future When this phenomenon combines with technological acceleration and the increasing pace of life time seems to flow ever faster making our relationships to each other and the world fluid and problematic It is as if we are standing on slipping slopes a steep social terrain that is itself in motion and in turn demands faster lives and technology As Rosa deftly shows this self reinforcing feedback loop fundamentally determines the character of modern life *Collected Works of Bernard Lonergan* Bernard J. F. Lonergan, Frederick E. Crowe, Robert M. Doran, 1988-01-01 entirety to contemporary readers Book Jacket
