Revolutionary Subjects Jamie H. Trnka, 2015-03-10 *Revolutionary Subjects* explores the literary and cultural significance of Cold War solidarities and offers insight into a substantial and under analyzed body of German literature concerned with Latin American thought and action. It shows how literary interest in Latin America was vital for understanding oppositional agency and engaged literature in East and West Germany where authors developed aesthetic solidarities that anticipated conceptual reorganizations of the world connoted by the transnational or the global. Through a combination of close readings, contextual analysis and careful theoretical work, *Revolutionary Subjects* traces the historicity and contingency of aesthetic practices as well as the geocultural grounds against which they unfolded in case studies of Volker Braun, F. C. Delius, Hans Magnus Enzensberger and Heiner Müller. The book's cultural and comparative approach offers an antidote to imprecise engagements with the transnational historicizing critical impulses that accompany the production of disciplinary boundaries. It paves the way for more reflexive debate on the content and method of German Studies as part of a broader landscape of world literature, comparative literature and Latin American Studies.

Collective Creativity Gerhard Fischer, Florian Vassen, 2011 *Collective Creativity* combines complex and ambivalent concepts. While creativity is currently experiencing an inflationary boom in popularity, the term collective appeared until recently rather controversial due to its ideological implications in twentieth century politics. In a world defined by global cultural practice, the notion of collectivity has gained new relevance. This publication discusses a number of concepts of creativity and shows that in opposition to the traditional ideal of the individual as creative genius, cultural theorists today emphasize the collaborative nature of creativity; they show that creativity makes alterity, discontinuity and difference attractive. Not the Romantic Originalgenie but rather the agents of the creative economy appear as the new avant garde of aesthetic innovation: teams, groups and collectives in business and science, in art and digital media, who work together in networking clusters to develop innovative products and processes. In this book, scholars in the social sciences and in cultural and media studies in literature, theatre and visual arts present for the first time a comprehensive inter- and transdisciplinary account of collective creativity in its multifaceted applications. They investigate the intersections of artistic, scientific and cultural practice where the individual and the collective merge, come together or confront each other.

Realisms of the Avant-Garde Moritz Baßler, Benedikt Hjartarson, Ursula Frohne, David Ayers, Sascha Bru, 2020-09-21 The historical avant gardes defined themselves largely in terms of their relationship to various versions of realism At first glance modernism primarily seems to take a counter position against realism yet a closer investigation reveals that these relations are more complex This book is dedicated to the links between realism modernism and the avant garde in their international context from the late 19th century up to the present day

Aliens - Uneingebürgerte, 1994 *Nature, Technology and Cultural Change in Twentieth-Century German Literature* A. Goodbody, 2007-10-24 This book traces shifting attitudes towards science and technology nature and the environment in Twentieth century Germany It approaches them through discussion of a range of literary texts and explores the philosophical influences on them and their political contexts and asks what part novels and plays have played in environmental debate

Contemporary Jewish Writing Andrea Reiter, 2013-11-12 This book examines Jewish writers and intellectuals in Austria analyzing filmic and electronic media alongside more traditional publication formats over the last 25 years Beginning with the Waldheim affair and the rhetorical response by the three most prominent members of the survivor generation Leon Zelman Simon Wiesenthal and Bruno Kreisky author Andrea Reiter sets a complicated standard for who is Jewish and what constitutes a Jewish response She reformulates the concepts of religious and secular Jewish cultural expression cutting across gender and Holocaust studies The work proceeds to questions of enacting or performing identity especially Jewish identity in the Austrian setting looking at how these Jewish writers and filmmakers in Austria perform their Jewishness not only in their public appearances and engagements but also in their works By engaging with novels poems and films this volume challenges the dominant claim that Jewish culture in Central Europe is almost exclusively borne by non Jews and consumed by non Jewish audiences establishing a new counter discourse against resurging anti-Semitism in the media

Sound Commitments Robert Adlington, 2009-02-19 Many avant garde musicians were intensely involved in the cultural upheavals of the 1960s and often sought to reflect this in their music However aesthetic experiment was not always easily reconciled with social progressiveness This volume examines this distinctive form of engagement across a range of genres and geographical locations

The End of Literature, Hegel, and the Contemporary Novel Francesco Campana, 2019-11-28 This book explores the concept of the end of literature through the lens of Hegel's philosophy of art In his version of Hegel's end of art thesis Arthur Danto claimed that contemporary art has abandoned its distinctive sensitive and emotive features to become increasingly reflective Contemporary art has become a question of philosophical reflection on itself and on the world thus producing an epochal change in art history The core idea of this book is that this thesis applies quite well to all forms of art except one namely literature literature resists its end Unlike other arts which have experienced significant fractures in the contemporary world Campana proposes that literature has always known how to renew itself in order to retain its distinguishing features so much so that in a way it has always come to terms with its own end Analysing the distinct character of literature this book proposes a new and original interpretation of the end of art thesis showing how it can be used as a key conceptual framework to understand the contemporary novel

Hans Magnus Enzensberger Alasdair King, 2007 The writings of Hans Magnus Enzensberger are a provocative commentary on the post 1945 period in Germany Poet and essayist of international standing and frequent contributor to political and cultural debates his work has accompanied the development of the Federal Republic from the 1950s to German unification and after This study makes explicit the links between Enzensberger's literary imagination and the cultural and political history of Germany and offers a close reading of both Enzensberger's poetry and his seminal essays on politics and culture proposing that they be considered as part of a single artistic project The book argues that Enzensberger's significance lies in his sustained exploration of the relationship between literary and cultural practices and political democracy in Germany It offers detailed analyses of Enzensberger's poetry and considers his essays on the consciousness industry and on the constituents of a theory of the media in the context of the political development of the Federal Republic in the half century following 1945 Post World War 2 essays on cinema and television on tourism consumption and migration and on digital media and the future of literature are also considered and analysed Enzensberger's work is situated as part of an ongoing critical debate between him and key intellectual figures such as Theodor W Adorno Walter Benjamin Siegfried Kracauer Jurgen Habermas Jean Baudrillard and Michel Foucault
