El mono relojero Constancio C. Vigil, 1959 *El mono relojero* Constancio C. Vigil, Raúl Stévano, 1967 *El mono relojero y otros cuentos* Constancio C. Vigil, 1941 Children's Culture and Citizenship in Argentina Lauren Rea, 2023-11-08

Argentina's Billiken was the world's longest running children's magazine publishing 5144 issues over one hundred years. It educated and entertained generations of schoolchildren and came to occupy a central role in Argentine cultural life. This volume offers the first academic history of the whole lifespan of Billiken as a print magazine through to its transition into a digital brand. As an editorial project founded at the time of the massification of print culture, Billiken was in the business of creating future citizens. From its transnational and literary beginnings, Billiken quickly became organised around the school year, offering valuable extra-curricular material aligned to the patriotic drivers of state schooling. Billiken told the story of the Argentine nation cyclically and repeatedly, gaining such momentum that it became part of the nation's story itself. This volume adopts a multi-disciplinary approach to take account of the many different facets of Billiken's content, born from a combination of ideological, commercial, political and cultural drivers. This history of Billiken examines the changes, contradictions and continuities in the magazine over time as it responded to political events, adapted to new commercial realities and made use of technological advances. It explores how Billiken magazine not only reflected society but shaped it through its influence on childhoods, children's culture and education, and provides an alternative window onto the history and politics of a tumultuous hundred years for Argentina.

Twice the First Giannalberto Bendazzi, 2017-11-06

Giannalberto Bendazzi brings to light some of the lost relics of animation history with his new book *Twice the First*. Quirino Cristiani and the Animated Feature Film. Unlike other works, however, Bendazzi focuses on the growth of animation in non-western countries. This book particularly emphasizes the contributions of Quirino Cristiani and how his work influenced other animators. Bendazzi provides in-depth coverage about Cristiani's life both professionally and personally. *Twice the First* takes the reader on an exciting journey through the historical development of animation through the eyes of Quirino Cristiani.

Key Features: A look back at the modest beginnings of feature film animation. An exciting account of some facts never before revealed in the history and development of animated film. Among the fascinating information the reader can learn from this book is that not all the action in cinematography took place in North America and Western Europe. This book provides an important service in documenting the early period of animation and filling in the gaps in the history of the development of animation.
