New World Christine DeVine, 2016-05-06 With cheaper publishing costs and the explosion of periodical publishing the influence of New World travel narratives was greater during the nineteenth century than ever before as they offered an understanding not only of America through British eyes but also a lens through which nineteenth century Britain could view itself. Despite the differences in purpose and method the writers and artists discussed in *Nineteenth Century British Travelers in the New World* from Fanny Wright arriving in America in 1818 to the return of Henry James in 1904 and including Charles Dickens, Frances Trollope, Isabella Bird, Fanny Kemble, Harriet Martineau and Robert Louis Stevenson among others as well as artists such as Eyre Crowe all contributed to the continued building of America as a construct for audiences at home. These travelers' stories and images thus presented an idea of America over which Britons could crow about their own supposed sophistication and a democratic model through which to posit their own future, all of which suggests the importance of transatlantic travel writing and the idea of America to nineteenth century Britain. Borderline Citizens

Kathryn Gleadle, 2009-09-24 This is the most comprehensive analysis to date of women's involvement in British political culture in the first half of the 19th century. Innovative in its attention to both urban and rural experiences of politics, the volume also challenges many assumptions about contemporary politics, including fresh insights into the Reform Act of 1832.

Talking Proper Lynda Mugglestone, 2003 *Talking Proper* is a history of the rise and fall of the English accent as a badge of cultural, social and class identity. Lynda Mugglestone traces the origins of the phenomenon in late eighteenth century London, follows its history through the nineteenth and twentieth centuries and charts its downfall during the era of New Labour. This is a witty, readable account of a fascinating subject, liberally spiced with quotations from English speech and writing over the past 250 years. The Majestic Nature of the North Steven A. Walton, Michael J. Armstrong, 2019-02-14

Thomas Kelah Wharton's travel diaries provide an intimate glimpse into the society of early nineteenth century America. As a young immigrant from England, the eldest son of a wealthy merchant who fell on hard times, Wharton (1814-1862) navigated the complex world of New York and the Hudson River Valley in the early 1830s, and his diaries reveal a vibrant cultural and social scene. Wharton's details of encounters with the Hudson River School painter Thomas Cole, the author Washington Irving, Sylvanus Thayer, superintendent of the US Military Academy at West Point, the Greek Revival architect Martin E. Thompson and many others enliven his story. Skipping two decades to 1853, Wharton, now an established professional living in New Orleans, brought his young family from New Orleans to Boston. The trip to and from Boston illuminates the joys and hazards of traveling aboard steamboats and trains and touches on the tensions growing between North and South. The diary entries show an inquisitive, observant mind at work, a gifted pen and ink artist. The inclusion of Wharton's faithful drawings provides rare and wonderful views of an America from a very unique and personal perspective. Women's Romantic Theatre and Drama Lilla Maria Crisafulli, Keir Elam, 2010 Bringing together leading British, North American and Italian critics, this collection makes a crucial intervention in the reclamation of women's theatrical activities during the Romantic period. As they

examine key figures like Elizabeth Inchbald Joanna Baillie Elizabeth Vestris and Jane Scott the contributors take up topics such as women's history plays ethics and sexuality the politics of drama and performance and the role of women as managers and producers

God and the Atlantic Thomas Albert Howard, 2011-01-20 The first major work of cultural and intellectual history devoted to the subject of the transatlantic religious divide Using nineteenth and early twentieth century commentary on the subject Howard helps us understand why Americans have maintained much friendlier ties with traditional forms of religion than their European counterparts

The Lure of Babylon Michael E. Schiefelbein, 2001 This book explores the effect of Catholicism on the imagination and the fiction of Protestant novelists in England during the decades surrounding Catholic Emancipation 1829 and the reestablishment of the Roman Catholic Church in England 1850 This book examines anti Catholicism in popular and respected novelists such as Scott and Dickens showing the secret attraction to Catholicism of staunch anti Catholic Protestants
