Fantasy, Fashion, and Affection Jay A. Gertzman, 1986 Robert Herrick 1591 1674 achieved fame only in the nineteenth Disgust in Early Modern century The book features approximately fifty reproductions of illustrations of Hesperides English Literature Natalie K. Eschenbaum, Barbara Correll, 2016-04-20 What is the role of disgust or revulsion in early modern English literature How did early modern English subjects experience revulsion and how did writers represent it in poetry plays and prose What does it mean when literature instructs delights and disgusts This collection of essays looks at the treatment of disgust in texts by Spenser Shakespeare Donne Jonson Herrick and others to demonstrate how disgust perhaps more than other affects gives us a more complex understanding of early modern culture Dealing with descriptions of coagulated eye drainage stinky leeks and blood filled fleas among other sensational things the essays focus on three kinds of disgusting encounters sexual cultural and textual Early modern English writers used disgust to explore sexual mores describe encounters with foreign cultures and manipulate their readers responses. The essays in this collection show how writers deployed disgust to draw and sometimes to upset the boundaries that had previously defined acceptable and unacceptable behaviors people and literatures Together they present the compelling argument that a critical understanding of early modern cultural perspectives requires careful attention to disgust Religious Imaginaries Karen Dieleman, 2012-10-02 Explores liturgical practice as formative for how three Victorian women poets imagined the world and their place in it and consequently for how they developed their creative and critical religious poetics. This new study rethinks several assumptions in the field that Victorian women's faith commitments tended to limit creativity that the contours of church experiences matter little for understanding religious poetry and that gender is more significant than liturgy in shaping women s religious poetry Exploring the import of bodily experience for spiritual emotional and cognitive forms of knowing Karen Dieleman explains and clarifies the deep orientations of different strands of nineteenth century Christianity such as Congregationalism s high regard for verbal proclamation Anglicanism s and Anglo Catholicism s valuation of manifestation and revivalist Roman Catholicism's recuperation of an affective aesthetic Looking specifically at Elizabeth Barrett Browning Christina Rossetti and Adelaide Procter as astute participants in their chosen strands of Christianity Dieleman reveals the subtle textures of these women's religious poetry the different voices genres and aesthetics they create in response to their worship experiences Part recuperation part reinterpretation Dieleman's readings highlight each poet's innovative religious poetics Dieleman devotes two chapters to each of the three poets the first chapter in each pair delineates the poet's denominational practices and commitments the second reads the corresponding poetry Religious Imaginaries has appeal for scholars of Victorian literary criticism and scholars of Victorian religion supporting its theoretical paradigm by digging deeply into primary sources associated with the actual churches in which the poets worshipped detailing not only the liturgical practices but also the architectural environments that influenced the worshipper's formation By going far beyond
