Far Flung Lines Studies In Imperial Defence In Honour Of Donald Mackenzie Schurman:

Far-flung Lines Donald Mackenzie Schurman,1997 These studies show how the British Empire used its maritime supremacy to construct and maintain a worldwide defence for its imperial interests They rebut the idea that British defence policy in the late 19th and early 20th centuries was primarily concerned with the balance of power in Europe Britain's Anti-submarine Capability 1919-1939 George Franklin,2004-08-02 Britain s Anti Submarine Capability 1919 1939is the first unified study of the development of Britain s anti submarine capability between the armistice in 1919 and the onset of the second world German submarine attack on Britain s maritime trade in 1939 Well researched and yet accessibly written this book challenges the widespread belief that the Royal Navy failed to anticipate the threat of the U boat in the Second World War **Chinese Grand Strategy and Maritime Power** Thomas M. Kane,2016-05-06 This challenging new book argues that the People s Republic of China is pursuing a long term strategy to extend its national power by sea **The Royal Navy and the Capital Ship in the Interwar Period** Joseph Moretz,2012-12-06 Joseph Moretz s innovative work focuses on what battleships actually did in the inter war years and what its designed war role in fact was In doing so the book tells us much about British naval policy and planning of the time Drawing heavily on official Admiralty records and private papers of leading officers the author examines the navy s operational experience and the evolution of its tactical doctrine during the interwar period He argues that operational experience combined with assumptions about the nature of a future naval war were more important in keeping the battleship afloat than conservatism in Navy *Naval Strategy and Operations in Narrow Seas* Milan N. Vego,2004-11-23 Many books and articles have been written on wars in narrow seas However none deals in any comprehensive manner with the problems of strategy and conduct of naval operations The aim of this book is to explain in some detail the characteristics of a war fought in narrow seas and to compare and contrast strategy and major operations in narrow seas and naval warfare in the open ocean Anti-Submarine Warfare in World War I John Abbatiello,2006-05-02 Investigating the employment of British aircraft against German submarines during the final years of the First World War this new book places anti submarine campaigns from the air in the wider history of the First World War The Royal Naval Air Service invested heavily in aircraft of all types aeroplanes seaplanes airships and kite balloons in order to counter the German U boats Under the Royal Air Force the air campaign against U boats continued uninterrupted Aircraft bombed German U boat bases in Flanders conducted area and hunting patrols around the coasts of Britain and escorted merchant convoys to safety Despite the fact that aircraft acting alone destroyed only one U boat during the war the overall contribution of naval aviation to foiling U boat attacks was significant Only five merchant vessels succumbed to submarine attack when convoyed by a combined air and surface escort during World War I This book examines aircraft and weapons technology aircrew training and the aircraft production issues that shaped this campaign Then a close examination of anti submarine operations bombing patrols and escort yields a significantly different judgment from existing interpretations of

these operations This study is the first to take an objective look at the writing and publication of the naval and air official histories as they told the story of naval aviation during the Great War The author also examines the German view of aircraft effectiveness through German actions prisoner interrogations official histories and memoirs to provide a comparative judgment The conclusion closes with a brief narrative of post war air anti submarine developments and a summary of findings Overall the author concludes that despite the challenges of organization training and production the employment of aircraft against U boats was largely successful during the Great War This book will be of interest to historians of naval and air power history as well as students of World War I and military history in general **Operational Warfare at Sea** Milan Vego,2008-10-27 This new volume provides a comprehensive analysis of both the theory and practice of operational warfare at sea The book is unique in using diverse sources and examples to present a comprehensive topical description and analysis of the key components of operational warfare at sea today It opens with a survey of the emergence of operational warfare at sea since the end of the Napoleonic Wars going on describe and analyze the objectives of naval warfare at the operational level and methods of employment of naval forces for accomplishing these objectives The book explains the specifics of operational functions in a maritime theatre discusses the personality traits and professional education required for successful naval operational commanders and explores naval operational command and control in both peacetime and war closing with predictions for the future of operational warfare at sea This book serves as a primer of how to plan prepare and execute major naval operations and campaigns for naval commanders and their staffs but will also be of interest to advanced students of naval history strategic studies and military history in general German Naval Strategy, 1856-1888 David H. Olivier,2004-08-26 This book is a comparative study of the evolution of the German navy in the second half of the nineteenth century It examines the development of strategy especially commerce raiding in comparison to what other navies were doing in this era of rapid technological change It is not an insular history merely listing ship rosters or specific events it is a history of the German navy in relation to its potential foes It is also a look at a new military institution involved in an inter service rivalry for funds technology and manpower with the prestigious and well established army Dreadnought Gunnery and the Battle of Jutland John Brooks,2004-08-02 This book provides new and revisionist accounts of the Dreyer Pollen controversy and of gunnery at Jutland Educating the Royal Navy Harry W. Dickinson,2007-01-25 This volume provides the first comprehensive history of education and training for officers of the Royal Navy in the eighteenth and nineteenth centuries It covers the development of educational provision from the first 1702 Order in Council appointing schoolmasters to serve in operational warships to the laying of the foundation stone of the present Royal Naval College Dartmouth in 1902 Educating the Royal Navy 1702 1902 includes the establishment of the Royal Navy s first naval academy the commissioning of the officer training ship HMS Britannia and the conduct of education at sea It also covers the birth of higher education in the Service with the opening of the Royal Naval College Greenwich and the provision of technical education and training for a

new category of officer the naval engineer This book will be essential reading for students of naval history and naval education and of much interest to professional military colleges studying the development of naval training

Indian Naval Strategy in the Twenty-first Century James R. Holmes, Andrew C. Winner, Toshi Yoshihara, 2009-04-02 This is the first academic study of India's emerging maritime strategy and offers a systematic analysis of the interplay between Western military thought and Indian maritime traditions By a quirk of historical fate Europe embarked on its Age of Discovery just as the main Asian powers were renouncing the sea ushering in centuries of Western dominance In the 21st century however Asian states are once again resuming a naval focus with both China and India dedicating some of their new found wealth to building powerful navies and coast guards and drawing up maritime strategies to govern the use of these forces The United States like the British Empire before it is attempting to manage these rising sea powers while preserving its maritime primacy This book probes how India looks at the sea what kind of strategy and seagoing forces New Delhi may craft in the coming years and how Indian leaders may use these forces It examines the material dimension but its major premise is that navies represent a physical expression of a society's history philosophical traditions and culture This book then ventures a comprehensive appraisal of Indian maritime strategy This book will be of interest to students of sea power strategic studies Indian politics and Asian Studies in general James R Holmes is an Associate Professor of Strategy at the U S Naval War College and a former U S Navy surface warfare officer Toshi Yoshihara is an Associate Professor in the Strategy and Policy Department at the Naval War College Andrew C Winner is Professor in the Strategic Research Department at the U S Naval War College

Sea Power and the Asia-Pacific Geoffrey Till, Patrick Bratton, 2012-02-07 This volume examines the rise and fall of sea powers in the Asia Pacific region

The Merchant Marine in International Affairs, 1850-1950 Greg Kennedy, 2014-07-10 Merchant navies represent economic and industrial strength This study revises the definition of maritime power through a more comprehensive understanding and appreciation for the roles played by the merchant marine of a nation

Stalin's Ocean-going Fleet: Soviet Jurgen Rohwer, 2017-07-05 In this work two senior naval historians analyze the discussions held in leading Soviet political military and naval circles concerning naval strategy and the decisions taken for warship building programmes They describe the reconstitution of the fleet under difficult conditions from the end of the Civil War up to the mid 1920s leading to a change from classical naval strategy to a Jeune école model in the first two Five Year Plans including efforts to obtain foreign assistance in the design of warships and submarines Their aim is to explain the reasons for the sudden change in 1935 to begin building a big ocean going fleet After a period of co operation with Germany from 1939-41 the plans came to a halt when Hitler attacked the Soviet Union in 1941 Finally this work covers the reopening of the naval planning processes in 1944 and 1945 and the discussions of the naval leadership with Stalin the party and government officials about the direction of the new building programmes as the Cold War began

Seapower Geoffrey Till, 2004 At the beginning of the 21st century much has remained the same in naval terms but much has changed Geoffrey

Till's study is an exploration of how change will impact upon the world's navies. The Merchant Marine in International Affairs, 1850-1950 S W Field, K G Swift, 2014-02-25 Providing an understanding of what is meant by quality and its unique position in a manufacturing environment to improve competitive business performance this text defines all the fundamental ingredients required to introduce an improvement in quality Concise and easy to read the theory is backed up by numerous industrial experiences illustrating the practical obstacles when implementing any quality change Focusing on the essentials of quality strategies principles and techniques designing for quality is also discussed and new techniques for assessing the risks and costs of non conformance are introduced The result is an insight to quality engineering that will prove invaluable to engineering students and professionals

Naval Coalition Warfare Bruce A. Elleman, S.C.M. Paine, 2007-08-23 This is the first scholarly book examining naval coalition warfare over the past two centuries from a multi national perspective Containing case studies by some of the foremost naval historians from the US Great Britain and Australia it also examines the impact of international law on coalitions Together these collected essays comprise a comprehensive examination of the most important naval coalitions of the nineteenth and twentieth centuries Chapters are arranged chronologically beginning with the Napoleonic Wars and ending with the second Gulf War and each makes use of new research and methodologies to address the creation of the coalition its actions and its short and long term repercussions The editors draw contemporary lessons from the book's historical case studies These findings are used to discuss the likelihood and character of future naval coalition for example the likelihood and possible outcome of an anti PRC coalition in defence of Taiwan Naval Coalition Warfare will be of great interest to students of naval history strategic studies international history and international relations in general

Technology and Naval Combat in the Twentieth Century and Beyond Phillips Payson O'Brien, 2001 This work examines how the navies of Great Britain the USA Germany Japan the Soviet Union France and Italy confronted the various technological changes posed during different periods in the 20th century

Naval Modernisation in South-East Asia Geoffrey Till, Jane Chan, 2013-08-15 This edited volume analyses the naval arms race in South East Asia and reviews the content purposes and consequences of the naval policies and development of the main countries of the region The rise of naval capability in the countries of the Asia Pacific Region is increasingly recognised as a major indicator of the rise of Asia and its increasing importance in the world's political economic and strategic future Most coverage focusses solely on the navies of the big four the US China India and Japan however the region's other navies though much smaller are significant too Given the current focus on the South China Sea and the Obama administration's pivot to Asia naval development in South East Asia is of particular relevance This book first identifies the issues involved in defence acquisition in this area It then goes on to establish some templates of naval modernisation as a means of assessing the policies of individual countries in the region by looking at the naval policies of the big four Finally the general issue of naval modernisation in South East Asia is illustrated through a more detailed examination of some of the major issues common to all countries of the area These

include the defence industrial perspective specific examinations of submarine and surface ship acquisition processes and a review of the balance to be struck between naval and coastguard forces in the area This book will be of much interest to students of naval power maritime security South East Asian politics strategic studies and IR in general **Churchill on the Far East in the Second World War** C. Wilson, 2014-08-05 Cat Wilson brings together two strands of historical scholarship Churchill s work as a historian and the history of WWII in the Far East Examining Churchill s portrayal of the British Empire s war against Japan as set down in his memoirs it ascertains whether he mythologised wartime Anglo American relations to present a special relationship
