Cities and Nature in the American West Char Miller, 2010-09-28 In less than a century the American West has transformed from a predominantly rural region to one where most people live in metropolitan centers *Cities and Nature in the American West* offers provocative analyses of this transformation Each essay explores the intersection of environmental urban and western history providing a deeper

understanding of the complex processes by which the urban West has shaped and been shaped by its sustaining environment. The book also considers how the West's urban development has altered the human experience and perception of nature from the administration and marketing of national parks to the consumer roots of popular environmentalism, the politics of land and water use and the challenges of environmental inequities. A number of essays address the cultural role of wilderness, nature and such activities as camping. Others examine the increasingly pervasive power of the West's urban areas and urbanites to redefine the very foundations and future of the American West.

Maestro James O. Gump, 2021-07. Wine insiders called André Tchelistcheff the winemaker's winemaker, the wine doctor and simply maestro. After Prohibition brought Napa Valley and its wine industry to the brink of catastrophe, Tchelistcheff (1901-94) proved essential in its revitalization. Tchelistcheff's unique background—a sickly child, a Russian migrant forced from his homeland during the Bolshevik Revolution, a White Army lieutenant who fought in the Crimea, a physical laborer in a Bulgarian coal mine, a Czechoslovakian-trained agronomist and a French-schooled viticulturist and enologist—prepared him for a remarkable winemaking career. He spent thirty-five years in Napa Valley's Beaulieu Vineyard and nearly two post-retirement decades doing freelance consulting work for more than thirty wineries. His early struggles forged his principal character traits, which he passed on to an entire generation of winemakers. His students, including some of the most accomplished winemakers of the post-Prohibition period, marveled over their mentor's sense of authority, profound insight, humble presence and abundant wisdom. This inspiring account of Tchelistcheff's life includes interviews with friends, family and mentees, which reveal how one man used his passion and knowledge to help save a community on the edge of disaster. In **Maestro**, James O. Gump preserves the memory of a fascinating individual and one of the most influential winemakers of the modern era.

Sideways in Neverland William Etling, 2005-07. The Neverland Valley Welcome sign depicts a little boy bending over to talk to a troll. Peter Pan was playing at the packed eighty-seat, 7,000-square-foot theatre. Popcorn and drinks were dished up gratis to the mobs at the concession stand. On screen, Captain Hook had ten wide-eyed children bound and gagged about to be fed to the crocodile. Nearby, amid the rides, a band was taking a break. Beat It thumped loudly from hidden speakers. A circus-like tent houses the bumper cars where jubilant lads' faces flushed with excitement rammed each other with enthusiasm. I freely admitted there was no doubt that allegations of child molestation had hurt Jackson in this community. Where wouldn't such charges resonate? Sodom and Gomorrah. What do Michael Jackson's neighbors really think of him, or the other famous residents of the rural California wine country made famous by *Sideways*? Just two hours from Los Angeles, the honorable Old West lives on with cowboys and Indians, a Danish village, stars, surfers, Michael Jackson and more. William Etling has the soul of an explorer and the wit of a jester. Lucky for us, he also has a pen. Michelle Schlegel's *The Collected Santa Ynez Notebook* of a Santa Barbara News Press writer, Etling's delightful bi-weekly editorial dishes on all things Santa Ynez Valley, an area of tiny towns near Santa Barbara, Calif. This compilation of almost three years of work covers a wide variety of topics, including community events, regional

history locals both famous Michael Jackson anyone and not so and the author's personal life The column's buoyant tone and warm voice make for a charming read I still love the beach If I had a tail I'd wag it when I'm near the water As a teenager Etling moved to the area with his family and it's clear that he has adored the area ever since More than just a love letter to his hometown however Sideways provides affecting reading for all Etling is all over the board from what happens when a small town kid goes to war to the peril of navigating a highway crossed frequently by deer to a Hollywood invasion when suddenly everyone's an extra on the set of Seabiscuit Fruitful subject matter a likable host and evocative writing make for an enjoyable guide to this nook of California Kirkus Discoveries *City Dreams, Country Schemes* Kathleen A. Brosnan, Amy L. Scott, 2013-10-11 The American West from the beginning of Euro American settlement has been shaped by diverse ideas about how to utilize physical space and natural environments to create cohesive sometimes exclusive community identities When westerners developed their towns they constructed spaces and cultural identities that reflected alternative understandings of modern urbanity The essays in *City Dreams Country Schemes* utilize an interdisciplinary approach to explore the ways that westerners conceptualized built and inhabited urban suburban and exurban spaces in the twentieth century The contributors examine such topics as the attractions of open space and rural gentrification in shaping urban development the role of tourism in developing national parks historical sites and California's Napa Valley and the roles of public art gender and ethnicity in shaping urban centers *City Dreams Country Schemes* reveals the values and expectations that have shaped the West and the lives of the people who inhabit it **Values in Landscape Architecture and Environmental Design** M. Elen Deming, 2015-11-09 The successful realization of diversity resilience usefulness profitability or beauty in landscape design requires a firm understanding of the stakeholders' values This collection which incorporates a wide variety of geographic locations and cultural perspectives reinforces the necessity for clear and articulate comprehension of the many factors that guide the design process As the contributors to this collection reveal dominant and emerging social political philosophical and economic concerns perpetually assert themselves in designed landscapes from manifestations of class consciousness in Napa Valley vineyards to recurring themes and conflicts in American commemorative culture as seen in designs for national memorials One essay demonstrates the lasting impact of the doctrine of Manifest Destiny on the culture and spaces of the Midwest while another considers the shifting historical narratives that led to the de-domestication and subsequent re-wilding of the Oostvaardersplassen in the Netherlands These eleven essays help foster the ability to conduct a balanced analysis of various value systems and produce a lucid visualization of the necessary tradeoffs Offering an array of case studies and theoretical arguments *Values in Landscape Architecture and Environmental Design* encourages professionals and educators to bring self-awareness precision and accountability to their consideration of landscape designs *Wine Politics* Tyler Colman, 2010-11-10 Kudos to Tyler Colman for this illuminating look at wine's fascinating backstory This excellent overview of how important politics is to the taste of the wine in your glass

is a new kind of wine book essential for every wine lover's bookshelf Elin McCoy author of *The Emperor of Wine* The Rise of Robert M Parker Jr and the Reign of American Taste In shrewdly examining how politics influences the production distribution and consumption of wine on both sides of the Atlantic Tyler Colman has written a much needed and long overdue book *Wine Politics* won't necessarily make you a better taster but it will unquestionably make you a more enlightened drinker Mike Steinberger wine columnist for Slate magazine

Napa at Last Light James Conaway, 2018-03-06 The New York Times bestselling author of *Napa* tells the captivating story of how the Napa Valley region transformed into an extraordinary engine of commerce glamour and an outsized version of the American dream and how it could be lost in a strong plea for responsible stewardship of the land Kirkus Reviews Not so long ago wine was an exclusively European product Now it is thoroughly American emblematic of Napa Valley an area idealized as the epicenter of great wines and foods and a cultural tourist destination But James Conaway's candid book tells the other side of the romanticized story *Napa at Last Light* reveals the often shadowy side of the latter days of Napa Valley marked by complex personal relationships immense profits passionate beliefs and sometimes desperate struggles to prevail In the balance hang fortunes and personal relationships made through hard work and manipulation of laws people and institutions Napa's who grew up trusting in the beneficence of the vintner class now confront the multinational corporations who have stealthily subsumed the old family landmarks and abandoned the once glorious conviction that agriculture is the best use of the land Hailed as the definitive Napa writer Conaway has spent decades covering the region *Napa at Last Light* showcases the greed enviable profits legacy and tradition that still collide in this compelling story The area is still full of dreamers but of opposing sorts those longing for a harmonious society based upon the vine and self-styled overlords yearning for wealth and the special acclaim only fine wine can bring Bets are still out on what the future holds This is a stunning and sad look at how an idyllic community became a victim of its own success fascinating and well researched Publishers Weekly starred review

Tangled Vines Frances Dinkelspiel, 2005-09-23 On October 12 2005 a massive fire broke out in the Wines Central wine warehouse in Vallejo California Within hours the flames had destroyed 4.5 million bottles of California's finest wine worth more than 250 million making it the largest destruction of wine in history The fire had been deliberately set by a passionate oenophile named Mark Anderson a skilled con man and thief with storage space at the warehouse who needed to cover his tracks With a propane torch and a bucket of gasoline

soaked rags Anderson annihilated entire California vineyard libraries as well as bottles of some of the most sought after wines in the world Among the priceless bottles destroyed were 175 bottles of Port and Angelica from one of the oldest vineyards in California made by Frances Dinkelspiel's great great grandfather Isaias Hellman in 1875 Sadly Mark Anderson was not the first to harm the industry The history of the California wine trade dating back to the 19th Century is a story of vineyards with dark and bloody pasts tales of rich men strangling monopolies the brutal enslavement of vineyard workers and murder Five of the wine trade murders were associated with Isaias Hellman's vineyard in Rancho Cucamonga beginning with the killing of John Rains who owned the land at the time He was shot several times dragged from a wagon and left off the main road for the coyotes to feed on In her new book Frances Dinkelspiel looks beneath the casually elegant veneer of California's wine regions to find the obsession greed and violence lying in wait Few people sipping a fine California Cabernet can even guess at the Tangled Vines where its life began

The Evolution of Luxury Ian Malcolm Taplin, 2019-09-11 This book offers a unique analysis of how our definitions of luxury have changed over the ages and with that the role and actions of both suppliers and buyers of luxury products It traces the way luxury was seen as avarice and emblematic of morally corrosive behavior in past societies to being viewed in more virtuous terms as the inevitable outcome of structural changes that legitimize the acquisition and display of wealth It examines the origins of the shift from criticism to acceptance and traces these changes to fundamentally different notions of what constitutes the basis for social order Whereas pre industrial hierarchies cloaked inequality in various secular and sacred guises to mitigate its presence capitalism justified and reified inequality as a measure of individual success and initiative through interdependent market behavior The result of this transformation is that status markers have become aspirational tools as hierarchies became porous and self identity less ascriptive Correspondingly as demand for luxury became legitimized the supply side underwent dramatic changes Such changes are explored fully in the sectors of fashion art and wine As demand for high priced and scarce goods in each of these sectors has increased in each case key actors have manipulated markets to purposefully either consolidate their pre eminence or manufacture the requisite scarcity that affords them canonical status The demand for and supply of luxury goods is now global consumers seeking validation and affirmation of their status whilst producers engineer scarcity Luxury is seen not only as good it is virtuous its demand possibly insatiable and extremely profitable
