Fashion In The Age Of The Black Prince A Study Of The Years 1340 1365:

Fashion in the Age of the Black Prince Stella Mary Newton, 1999 A close study of clothes worn by aristocratic families and their households at the time of the Black Prince and of Chaucer showing Europe wide influences 1340 to 1363 were years remarkable for dramatic developments in fashion and for extravagant spending on costume foreshadowing the later luxury of Richard II's court Stella Mary Newton broke new ground with this detailed study which discusses fourteenth century costume in detail She draws on surviving accounts from the Royal courts the evidence of chronicles and poetry often from unpublished manuscripts and representations in painting sculpture and manuscript illumination Her exploration of aspects of chivalry particularly the choice of mottoes and devices worn at tournaments and of the exchange of gifts of clothing between reigning monarchs offers new insights into the social history of the times and she has much to say that is relevant to the study of illuminated manuscripts of the fourteenth century STELLA MARY NEWTON's lifelong interest in costume has been the mainspring of her work from early days as a stage and costume designer including designing the costumes for the first production of T S Eliot's *Murder in the Cathedral* to her later work at the National Gallery advising on the implications of costume for the purpose of dating and at the Courtauld Institute where she set up the department for the study of the history of dress

Stella Mary Fashion in the Age of the Black Prince Stella Mary Newton, Wieland Schmied, 1980

The Black Prince David Green, 2011-10-24 One of the most charismatic and enigmatic personalities of the High Middle Ages Edward the Black Prince commanded an English division at the battle of Crecy at just 16 years old But despite his battlefield exploits romantic reputation and popularity among the people Edward has become notorious as a proponent of scorched earth campaigns or chevauchee These expeditions amounted to little more than the licensed plunder of undefended towns and the murder of non combatants The premature death of Edward saw his infant son ascend to the throne and led eventually to the fratricidal chaos of the Wars of the Roses and the emergence of the Tudor dynasty In this startling reappraisal of the prince's life David Green assesses his actions in their historical context and examines what might have been had Edward the Black Prince become King Edward IV

Middle English Biblical Poetry Cathy Hume, 2021 A new analysis of the neglected genre of medieval Biblical poetry Medieval England had a thriving culture of rewriting the Bible in art drama and literature in Latin French and English Middle English biblical poetry was

central to this culture and although these poems have suffered from critical neglect sometimes dismissed as mere paraphrase they are rich innovative and politically engaged Read in the same gentry and noble households as secular romance biblical poems borrow and adapt romance plots and motifs present romance inflected exotic settings and share similar concerns reputation order family and marriage This book explores six poems from the thirteenth and fourteenth centuries that retell episodes from the Old Testament the ballad like Iacob and Iosep two lives of Adam and Eve an alliterative version of the Susanna story the Pistel of Susan and the Gawain poet s Patience and Cleanness Each chapter identifies new sources and influences for the poems including from biblical glosses and manuscript illustration The book also investigates the poems relationships with contemporary cultures of literature and religion including with secular romance and offers new readings of each poem and its cultural functions showing how they bridge the chasm between medieval Christian England and the Jews and pagans of the pre Christian Mediterranean world It also considers reading contexts arguing that the poems and their manuscripts offer hints about the social class and gender of their household audiences

Sweet and Clean? Susan North, 2020-03-26 Sweet and Clean challenges the widely held beliefs on bathing and cleanliness in the past For over thirty years the work of the French historian George Vigarello has been hugely influential on early modern European social history describing an aversion to water and bathing and the use of linen underwear as the sole cleaning agent for the body However these concepts do not apply to early modern England Sweet and Clean analyses etiquette and medical literature revealing repeated recommendations to wash or bathe in order to clean the skin Clean linen was essential for propriety but advice from medical experts was contradictory Many doctors were convinced that it prevented the spread of contagious diseases but others recommended flannel for undergarments and a few thought changing a fever patient s linens was dangerous The methodology of material culture helps determine if and how this advice was practiced Evidence from inventories household accounts and manuals and surviving linen garments tracks underwear through its life cycle of production making wearing laundering and final recycling Although the material culture of washing bodies is much sparser other sources such as the Old Bailey records paint a more accurate picture of cleanliness in early modern England than has been previously described The contrasting analyses of linen and bodies reveal what histories material culture best serves Finally what of the diseases plague

smallpox and typhus that cleanliness of body and clothes were thought to prevent Did following early modern medical advice protect people from these illnesses

White before whiteness in the late Middle Ages Wan-Chuan Kao, 2024-01-09 This groundbreaking book analyses premodern whiteness as operations of fragility precarity and racialicity across bodily and nonsomatic figurations It argues that while whiteness participates in the history of racialisation in the late medieval West it does not denote skin tone alone The before of whiteness presupposing essence and teleology is less a retro futuristic temporisation one that simultaneously looks backward and faces forward than a discursive figuration of how white becomes whiteness Fragility delineates the limits of ruling ideologies in performances of mourning as self defence against perceived threats to subjectivity and desire precarity registers the ruptures within normative values by foregrounding the unmarked

vulnerability of the body politic and the violence of cultural aestheticisation and racialicity attends to the politics of recognition and the technologies of enfleshment at the systemic edge of life and nonlife Oxford Handbook of Medieval Central Europe Nada Zečević, Daniel Ziemann, 2022 A unique comparative presentation of a region that is often considered forgotten this handbook provides a variety of expertly informed perspectives on life and society in medieval Central Europe and its dynamic interactions across the continent

Anne of Bohemia Kristen L. Geaman, 2022-04-19 This volume examines the life of Anne of Bohemia the first queen of Richard II 1377 1399 and situates her within the context of medieval queenship by arguing that Anne ably fulfilled the political role of the queen consort through her intercession patronage and piety Much previous scholarship on Anne has focused on her relationship with famous poets such as Geoffrey Chaucer but from analyzing government documents it becomes clear that Anne used her wealth and status to enact power Through financial religious and cultural patronage Anne rewarded supporters and servants and influenced court life The examination of sources such as a letter from Anne to her half brother and an apothecary bill that contains some fertility medicines suggests that the queen both desired and tried to have children As such the volume questions the public imagination of Anne and shows that in this example although she died childless Anne and Richard attempted to have children throughout their marriage With the inclusion of tables listing Anne's acts of intercession and her land holdings and land grants *Anne of Bohemia* is a useful tool for students and scholars interested in queenship studies medieval women's history and the history of the English monarchy

Richard II Anthony Goodman, James Gillespie, 2003 In this reassessment of Richard II an outstanding group of international contributors re-evaluates the frequently biased evidence to create a new and rounded portrait of this fascinating and much maligned king They investigate Richard's contemporary reputation and key aspects of his policies covering topics which include the conventions of co-operation between kings and communities discourse on the nature and purpose of rule monarchy as spectacle the cultural expression of royal personality and the fiscal basis of government They highlight the seriousness of the problems affecting the exercise of kingship and show how the traditional and innovative panaceas attempted by a conventionally minded prince resulted in his downfall It is a study which repositions the reign within the evolution of English kingship

Imagining the Human Condition in Medieval Rome Kristin B. Aavitsland, 2017-07-05 The first monograph on the Vita Humana cycle at Tre Fontane this book includes an overview of the medieval history of the Roman Cistercian abbey and its architecture as well as a consideration of the political and cultural standing of the abbey both within Papal Rome and within the Cistercian order Furthermore it considers the commission of the fresco cycle the circumstances of its making and its position within the art historical context of the Roman Duecento Examining the unusual blend of images in the Vita Humana cycle this study offers a more nuanced picture of the iconographic repertoire of medieval art Since the discovery of the frescoes in the 1960s the iconographic programme of the cycle has remained mysterious and an adequate analysis of the Vita Humana cycle as a whole has so far been lacking Kristin

B Aavitsland covers this gap in the scholarship on Roman art circa 1300 and also presents the first interpretative discussion of the frescoes that is up to date with the architectural investigations undertaken in the monastery around 2000 Aavitsland proposes a rationale behind the conception of the fresco cycle thereby providing a key for understanding its iconography and shedding new light on thirteenth century Cistercian culture

Chaucer and Array Laura Fulkerson Hodges, 2014 An analysis of the ways in which Chaucer uses details of costume clothing and fabric enhancing our understanding of and shedding fresh insights into his work The use Chaucer made of costume rhetoric and its function within his body of works are examined here for the first time The study explores Chaucer s knowledge of the conventional imagery of medieval literary genres especially medieval romances and fabliaux and his manipulation of rhetorical conventions through variations and omissions In particular it addresses Chaucer s habit of playing upon his audience s expectations derived from their knowledge of the literary genres involved and why he omits lengthy passages of costume rhetoric in his romances but includes them in some of his comedic works It also discusses the numerous minor facets of costume rhetoric employed in decorating his texts Chaucer and Array responds to the questions posed by medievalists concerning Chaucer s characteristic pattern of apportioning descriptive detail in his characterization by costume It also examines his depiction of clothing and textiles representing contemporary material culture while focusing attention on the literary meaning of clothing and fabrics as well as on their historic economic and religious signification Laura F Hodges blends her interests in medieval literature and the history of costume in her publications specializing in the semiotics of costume and fabrics in literature A teacher of English literature for a number of years she holds a doctorate in literature from Rice University
