,1991 A Dialectical Journey through Fashion and Philosophy Eun Jung Kang,2020-01-01 This book takes an in depth look at the integration of fashion and philosophy It challenges the deeply rooted prejudice or misconception that fashion is a field limited to body oriented and appearance related themes and practices It also reveals that fashion is intermeshed with distinctively modern issues that belong to the realm of the mind as well as the body In doing so it refashions philosophy and philosophizes fashion which ultimately amount to the same thing The book argues that while the philosophization of fashion can give a clearer understanding of some esoteric areas of philosophy and fashion s close connection to modern societies and politics it also shows that philosophy can assist in redeeming fashion from the objective bodily world positioning it as an indispensable part of the humanities This is because fashion manifests critical aspects of human culture in our time and is an expression of the zeitgeist which is interwoven with the unfolding of history This book will be highly relevant to students and researchers in fashion studies who are looking for the theoretical underpinnings and insights for their own work It will also be of keen interest to scholars in the field of philosophy who are seeking to apply philosophical concepts to both everyday life and our empirical world 1900s-2020s Women's Hairstyles Through the Decades: 65 Women's Hairstyles and Their
