

Choice upon a time you could live in three  
times—the past, the present, and the future.  
There was time to consult history, there was  
time to plan for what to ahead.

The present sense was spent managing the  
transfer of the past into the future and  
imagining what that future might be.  
Today, under the pressure of accelerating  
change, the past and future have been fused  
into a single sense: the present.

The present is **real time**  
and real time is the only **real time**
