Educacion De Los Aztecas **The Aztecs Education:**

Non-Western Educational Traditions Timothy G. Reagan, 2004-09-22 This text provides a brief yet comprehensive overview of a number of non Western approaches to educational thought and practice Its premise is that understanding the ways that other people educate their children as well as what counts for them as education may help us think more clearly about some of our own assumptions and values and to become more open to alternative viewpoints about important educational matters The value of this informative mind opening text for preservice and in service teacher education courses is enhanced by Questions for Discussion and Reflection and Recommended Further Readings included in each chapter New in the Third Edition Chapter 2 Conceptualizing Culture I We and The Other is new to this edition It is a response to feedback about the problems inherent in our general discourse about culture and in addition provides an example of a culture that is near to us but nevertheless alien the culture of the Deaf World Chapter 9 which deals with Islam and traditional Muslim education has been substantially revised The subtitle of the Third Edition has been changed to Indigenous Approaches to Educational Thought and Practice reflecting not so much a change in the emphases found in the book but rather a recognition of the growing scholarly interest in indigenous peoples their languages cultures and histories Various points throughout the text have been expanded and clarified and chapters have been updated as needed **The Aztecs** ,1987

Education beyond Europe Cristiano Casalini, Edward Choi, Ayenachew A. Woldegiyorgis, 2021-02-15 The focus of this volume is on illuminating how local educational traditions developed in particular contexts around the world before or during the encounter with European early modern culture In this vein this volume breaks from the common narrative of educational historiography privileging the imposition of European structures and its consequences on local educational traditions Such a narrative lends to historiographical prejudice that fosters a distorted image of indigenous educational cultures as historyless as if history was brought to them merely through the influence of European models Fifteen multi disciplinary scholars globally have contributed with surveys and perspectives on the history of local traditions in countries from around the globe before their own modernities Contributors include Guochang Shen Yongyan Wang Xia Shen Ga tan Rappo Sunghwan Hwang Jan S Arintonang Mere Skerrett Saiyid Zaheer Husain Jafri Zackery M Heern Judith Francis Zeitlin Layla Jorge Teixeira Cesar Mustafa G nd z Igor Fedyukin Edit Szegedi Inese Runce Sigur ur Gylfi Magn sson and Dav lafsson Subject Guide to Books
