

DECISION-MAKING SKILLS

DEFINITION

Decision-making is the process of selecting a course of action among several available options. It involves evaluating and analyzing the benefits and risks of each choice. This cognitive process is vital for problem-solving, planning, and achieving desired outcomes. Effective decision-making often requires gathering information and assessing potential impacts.

EXAMPLES

- **Critical Thinking:** This aids decision-making by allowing you to analyze, evaluate, and interpret information objectively, leading to more informed choices.
- **Cost-Benefit Analysis:** This assists in decision-making by quantifying and comparing the anticipated costs and benefits of an action.

Education A Time For Decisions:

The Role of Leaders in Educational Decision-Making Nancy H. Matthews, 2023-07-21 This book presents insights into the experiences and perspectives of educators in formal positions of leadership involved in decision making processes in an education system Drawing on qualitative research conducted in the New Brunswick education system the author identifies factors in the decision making process which influence whether or not a decision is implemented Probing what is required for effective decision making defined as decision making that results in implementation the book examines not only the role of formal educational leaders of schools administrators but also the roles played by district and department of education formal leaders It uses five central themes that surfaced from research to develop a novel leadership model for ensuring implantation of decisions These include knowledge and skill collaboration and communication balance of autonomy accountability and direction political and bureaucratic considerations and strong moral imperative The newfound model is presented in the form of antecedent steps to the decision making process Extending the literature by offering new empirically grounded insights for influencing the likelihood of implementation following a decision making process it will appeal to leaders scholars and students of educational leadership and reform

Supporting Real Time Decision-Making

Frada Burstein,Patrick Brézillon,Arkady Zaslavsky,2010-11-12 This volume of Annals of Information Systems will acknowledge the twentieth anniversary of the founding of the International Society for Decision Support Systems ISDSS by documenting some of the current best practices in teaching and research and envisioning the next twenty years in the decision support systems field The volume is intended to complement existing DSS literature by offering an outlet for thoughts and research particularly suited to the theme of describing the next twenty years in the area of decision support Several subthemes are planned for the volume One subtheme draws on the assessments of internationally known DSS researchers to evaluate where the field has been and what has been accomplished A second subtheme of the volume will be describing the current best practices of DSS research and teaching efforts A third subtheme will be an assessment by top DSS scholars on where the DSS discipline needs to focus in the future The tone of this volume is one of enthusiasm for the potential contributions to come in the area of DSS contributions that must incorporate an understanding of what has been accomplished in the past build on the best practices of today and be integrated into future decision making practices

Decision Sciences and Technology for Globalisation (ISDSI_2008) B.S. Sahaye,Jeet N.D. Gupta,Surinder Batra,Sanjay

Kumar, Sushil Kumar, 2008-11-05 It is not uncommon to find books and other publications in the literature dealing individually with the subjects of decision sciences technology and globalisation However there are very few instances of books which integrate these three dimensions in an umbrella framework This publication is one such attempt This book comprises of 58 papers contributed by leading academia from universities and management institutes in India and abroad Many of the contributions have come from USA Canada UK Japan Australia New Zealand UAE Bahrain Taiwan Brazil and Mexico adding to the rich diversity of the thought processes explored in the papers Some of these papers are country specific while some others provide a transnational perspective Also while some papers provide enriched conceptual frameworks in specific disciplines building upon existing frameworks several other papers provide application oriented coverage focused at select organizations or industries further adding unique value to this book There are eight sections in the book namely Supply Chain Management Operations Management Information Systems ICT IT E Business Strategies Business Modeling Global Business Issues Challenges Marketing and Globalisation New Paradigms in Education and Globalisation The issues touched upon by various papers within each section are diverse and yet highly relevant and contemporary We believe this book would be useful not only to academia research scholars and students of various disciplines of management but also to those in the industry in India and abroad who are seeking conceptual inputs and experience sharing in their respective positions
