An in-depth account of the events that occurred in the year 1919 to 1930 is provided. The events that occurred in the year 1930 to 1945 are completely presented. [A History of British Publishing](#) John Feather, 2005-11-14 Thoroughly revised, restructured, and updated. A History of British Publishing covers six centuries of publishing in Britain from before the invention of the printing press to the electronic era of today. John Feather places Britain and her industries in an international marketplace and examines just how British publishing really is. Considering not only the publishing industry itself but also the areas affecting and affected by it, Feather traces the history of publishing books in Britain and examines education, politics, technology, law, religion, custom, class, finance, production, and distribution. The onslaught of global corporations. Specifically designed for publishing and book history courses, this is the only book to give an overall history of British publishing and will be an invaluable resource for all students of this fascinating subject. *The Professional Literary Agent in Britain, 1880-1920* Mary Ann Gillies, 2007-01-01 Breaking new ground in the study of British literary culture during an important transitional period, this new work by Mary Ann Gillies focuses on the professional literary agent whose emergence in Britain around 1880 coincided with and accelerated the transformation of both publishing and authorship. Like other recent studies in book and print culture, *The Professional Literary Agent in Britain 1880-1920* starts from the central premise that the business of authorship is inextricably linked with the aesthetics of literary praxis. Rather than provide a broad overview of the period, however, Gillies focuses on a specific figure, the professional literary agent. She then traces the influence of two prominent agents: A. P. Watt, generally acknowledged as the first professional literary agent, and J. B. Pinker, the leading figure in the second wave of agents focusing on their respective relationships with two key clients. The case studies not only provide insight into the business dynamics of the literary world at this time but also illustrate the shifting definition of literature itself during the period. **The Cambridge Bibliography of English Literature** Joanne Shattock, 1999 *Publishing in the First World War* M. Hammond, S. Towheed, 2007-05-16 This book explores the publishing and reading practices formed and changed by the First World War. From an exploration of British and Australian trench journals to the impact of war on the literary figures of the home front, the essays provide new information about the production, circulation, and reception of reading matter during this
