Robert R. Redfield

Health Insurance In Developing Countries The Social Security Approach:

Health Insurance in Developing Countries Aviva Ron, Brian Abel-Smith, Giovanni Tamburi, 1990 This volume describes the evolution of the social security approach to health insurance from the first initiatives in Europe to the adaptation of the concept in other parts of the world It then focuses on benefits and financing and on the inter relationship between the social security system and government agencies particularly those dealing with health A concise review of the mechanisms involved in both the delivery of health services and providing payment is followed by an analysis of current administrative issues The second part contains country profiles of health care programmes in **Health Insurance in Developing Countries**, 1993

An Introduction to Health Planning for Developing Health Systems Andrew Green, 2007-01-11 Health planning is a critical component when responding to the health needs of low and middle income countries characterised by particularly stringent resource constraints The major communicable diseases such as AIDS TB and malaria often appear in parallel with growing non communicable diseases including heart disease and diabetes and yet resources are often less than the levels recommended by the World Health Organisation for basic health care The new edition of this well respected text explains the importance of health planning in both developing regions such as Africa and those in transition such as Central and Eastern Europe It stresses the importance of understanding the national and international context in which planning occurs and provides an up to date analysis of the major current policy issues including health reforms Separate chapters are dedicated to the distinct issues of finance for health care and human resource planning The various techniques used at each stage of the planning process are explained starting with the situational analysis and then looking in turn at priority setting option appraisal programming implementation monitoring and evaluation The book ends by examining the challenges facing planners in the 21st century particularly in the light of growing globalisation A major theme of the book is the need to recognise and reconcile the inevitable tension that lies between value judgements and rational decision making As such in addition to introducing techniques such as costing and economic appraisal it also outlines techniques such as stakeholder analysis for understanding the relative attitudes and power of different groups in planning decisions Each chapter includes a comprehensive bibliography including key websites a summary and exercises to help the reader practise techniques and better understand the content The book argues that all health professionals and community groups should be involved in the planning process for it to be effective and will therefore appeal to anyone involved in planning **Recent Health Policy**

Innovations in Social Security Xenia Scheil-Adlung, 2018-04-24 The debate about health care reform has gone on for many years The debate has generated often innovative ideas for reform that transcend national boundaries For example proposals have been made for an extension of health insurance with a framework of social protection progressive development of funding methods controls on expenditure bringing benefits into line with what is actually needed and the application of technological advances The book concentrates on health insurance policy innovations in selected countries in Africa the

Americas Asia and Europe In addition this book addresses recent institutional economic findings with regard to application of information technology in health insurance systems Topics discussed include new approaches in extending coverage in a health insurance system confronting resource scarcity innovative strategies refining benefits to meet current needs new institutional and administrative frameworks and transformation through information technology systems Many of the innovations presented here have already been integrated into existing reforms and the authors refer to concrete developments in individual countries and regions This book presents those important innovations to social health insurance systems in industrialized and developing countries that have been brought forward in recent years and as far as possible already evaluated In doing so the intention is to show developments that are valid for more than one country and could have long term impact on health insurance systems This book is intended to promote deeper exchanges of experience between differing regions countries and health insurance systems In this way it will stimulate ideas for politicians and practitioners scientists and other experts

Tamanaha, 2023-11-27 The citations listed in this bibliography were published between 1975 and mid 1993 Substantial legal developments have occurred since 1975 and the vast bulk of materials on the subject has been produced since that time The citations are grouped under 53 different subject headings Some subjects are further divided into subcategories Audience Lawyers legal scholars social scientists and civil servants involved in development issues

Health Care Systems in Europe and Asia Christian Aspalter, Yasuo Uchida, Robin Gauld, 2012-06-25 This book addresses the global need for more comparative studies on health policy and health care systems given the rise in recent decades of societal aging modern mass diseases economic globalization and resulting permanent fiscal austerity of governments which have fundamentally altered the status quo of health care systems The book examines the healthcare experiences of the most developed countries in Asia Japan South Korea Taiwan and Singapore and compares these with four of the most important health care systems in Europe UK France Germany and Italy Focusing on the public health care systems the contributors discuss the rising need for reforms in health care and health insurance administration delivery systems financing and overall health care policy strategies particularly in fast aging societies in Asia and highly aged societies in Europe This book will appeal to students and scholars of health care policy health and social administration social policy public policy and social work It will also provide a reference for professionals who need a view of the trajectory of public health financing in relation to changed and changing demographics and disease patterns

Social Protection in Developing Countries Katja Bender, Markus Kaltenborn, Christian Pfleiderer, 2013-09-02 Providing universal access to social protection and health systems for all members of society including the poor and vulnerable is increasingly considered crucial to international development debates This is the first book to explore from an interdisciplinary and global perspective the reforms of social protection systems introduced in recent years by many governments of low and middle income countries Although a growing body of literature has been concerned with

the design and impact of social protection less attention has been directed towards analyzing and explaining these reform processes themselves Through case studies of African Asian and Latin American countries this book examines the global phenomenon of recent social protection reforms in low and middle income areas and how it differs across countries both in terms of scope and speed of institutional change Exploring the major domestic and international factors affecting the political feasibility of social protection reform the book outlines the successes and failures of recent reform initiatives This invaluable book combines contributions from both academics and practitioner experts to give students researchers and practitioners in the fields of social security economics law and political science an in depth understanding of political reform processes in developing countries

Public Expenditure Reform Under Adjustment Lending Jeff Huther, Sandra Roberts, Anwar Shah, 1997 This paper argues that the World Bank should follow a systemic approach to developing guidance on public expenditure reform Suggested approaches are to determine an appropriate role for government and its various agents and specify their partnership with the civil society and the private sector clarify the goals of reform and specify performance monitoring and evaluation indicators target unproductive and inequitable expenditures from elimination emphasize poverty alleviation and promote equity and adopt general guidelines on policy environment goals for external assistance

Health Insurance for the Poor in Developing Countries Johannes Jütting, 2005 Basing his report on research conducted from 1997 to 2002 Jütting OECD Development Centre France argues that the social security and health of rural populations in developing countries have been under studied compared to production related factors of sustainable development Criticizing the traditional approach that believes that a shift from a

Modelling in Health Care Finance Michael Cichon, 1999 In straightforward non technical language the book demystifies the modelling process and provides step by step guidance demonstrating how managers and policy makers can best make use of models in the formation of health policy goals the identification of options and the analysis and implementation of results

Health Financing in the Developing World Guy Carrin, 2011 A collection of peer reviewed articles and contributions to books this overview of the finance of health insurance concentrates on developing countries The material covers various financing strategies and explains how each can or cannot help improve the transition toward universal coverage The model plans shown here are particularly useful for policy makers and technical advisers who have to decide upon health financing policies or are engaged in a debate about them and the sample forms can be adjusted to the particular economic and political context of the developing countries involved In addition there are reminders that this process varies in some countries universal coverage may take time and require a step by step approach In other developing countries a swift transition to universal coverage may be quite feasible

Report of the Director-General International Labour Office, International Labour Organisation, 1991

Health Insurance Across Worldwide Health Systems Aida Isabel Tavares, 2024-03-13 Health insurance is the mechanism used to respond to uncertainty and risk aversion to illness Health insurance whether private public or mixed serves as the main structural foundation for health systems across countries Its objectives are to minimize the financial burden of medical expenses on people and to enhance population health Globally there is a great diversity of health systems and even greater variation among them There are substantial differences in health systems and health insurance between low and middle income nations The primary explanation for this could be the disparities in the resources available to fund the health system High income countries have the financing ability to fund the provision of health care whereas low and medium

income countries have a harder time funding health care Another challenge health systems face nowadays is the achievement of the United Nations Sustainable Development Goal 3 healthy lives and promoting well being for all To create resilient and sustainable health systems that guarantee healthy lives and foster well being for people of all ages many countries are redesigning their healthcare systems by improving financing access and coverage This book discusses these issues in different health systems around the world in low middle and high income countries *Health Systems Financing* World Health Organization, 2010 This World Health Report was produced under the overall direction of Carissa Etienne and Anarfi Asamoah Baah The principal writers were David B Evans et al t p verso *The Role of Social Security in Economic Development* Everett Malcolm Kassalow, 1968 *World Development Report 2014* World Bank, 2013-10 The World Development Report 2014 examines how improving risk management can lead to larger gains in development and poverty reduction It argues that improving risk management is crucial to reduce the negative impacts of shocks and hazards but also to enable people to pursue new opportunities for growth and prosperity
