Health Promotion In Midwifery A Resource For Health Professionals:

Health Promotion in Midwifery Jacqueline Dunkley,2000 **The New Midwifery** Lesley Ann Page,Rona McCandlish,2006-12-05 Practicing as a midwife today requires not only good clinical skills but also a broad understanding of the social and emotional changes a woman experiences before and after birth This book combines scientific knowledge with the more intangible skills needed for sensitive communication to provide the best possible care to the mother and her family The second edition of this celebrated text vividly explores the various skills and approaches that lead to successful midwifery practice and uses care stories to bring these to life Provides a refreshingly new approach to key areas of midwifery practice in a way that brings practice to life Illustrates and supports the fundamental changes currently taking place in midwifery around the world Builds on the most up to date evidence based research to suggest guidelines for best practices Explores the impact of parenthood and offers strategies for effectively supporting individuals during this period of transition Includes care stories case studies that highlight positive midwifery care and successful childbirth experiences Offers contrasting stories from around the world illustrating how maternity care in industrialized society differs from that in a non industrial or third world environment Provides up to date research and reference material

Health Promotion in Midwifery : Principles and practice Jan Bowden,Vicky Manning,2017-07-27 An expanded and updated new edition of Health Promotion in

Midwifery this book explores the principles of health promotion within the practical context of midwifery Health Promotion in Midwifery Jan Bowden,Sam Bassett,2024-11-29 The fourth edition of Health Promotion in Midwifery explores the principles of health promotion within the practical context of midwifery It clearly outlines and discusses the midwife s role in health promotion linking theory and practice This thoroughly updated new edition considers recent changes and developments in midwifery practice and public health It explores essential topics such as infant feeding smoking mental health behaviour change models for health promotion violence and abuse and sexual health promotion and includes seven entirely new chapters These new additions reflect the need to improve inequalities in care for service users from a range of backgrounds such as for clients from racially diverse communities clients from the LGBT communities and migrant and displaced clients Further chapters such as those looking at public health in a global world vaccinations in pregnancy and self care for midwives meet needs highlighted by the recent pandemic and its aftermath Text boxes throughout ensure the text is accessible and user friendly and case studies and summaries put the material in a practical context Further reading sections encourage readers to further research and reflect on their own practice This textbook is essential reading for all midwives student midwives health visitors and other health care professionals in maternity care education and practice
