**Health Through New Thought and Fasting** Wallace Wattles, 2016-06-17 Food is to the body what raw material is to the builder The power which receives food dissolves and changes it and builds it into muscle and tissue nerves and brain is the Life Power which flows into us from the Infinite while we sleep If we give this Life Power the right food materials and the right amount of it it builds beautifully intelligently ever

improving and refining it work If we give too little food material this Life Power builder within us is hampered in its work just as any carpenter would be if the mill failed to deliver the necessary lumber for the work planned The body stores enough material for a forty or fifty or sixty day famine but not enough for eternal famine Not yet at least If we give too much food material or not the right kind it is at if the lumber dealer kept delivering loads of all kinds of lumber until the premises were covered with it Imagine carpenters trying to build a house in the center of a lumber yard with all kinds of timber piled about and more coming in with every revolution of the saw and you will get a faint idea of the difficulties under which labors the builder which is you when you pour in more food material than he needs And the danger of pouring in too much food is far greater than that of delivering too little For the reason that too much food sets up a state of general inflammation throughout the body which you interpret as a call for more food when in reality it means there is already too much on hand A baby suffering from indigestion acts ravenous A grown up stomach that is generating ferments calls for more more And soother meal piled in gives temporary relief just as kneading more flour into a batch of bread dough gives temporary relief from ferment What would happen to the dough if you kept on kneading it down with more flour a dozen a hundred yes thousands of times The result would be unwieldiness and poison The same thing happens in the continuously overloaded stomach and throughout the overloaded body And no amount of mental or spiritual science will stop it though it may retard the process as cold retards the rising of your bread dough In this way you may put off the day of reckoning with an overloaded stomach and body but that is all you can do The death poison will get you sooner or later Elizabeth Towne CONTENTS Commentary by Elizabeth Towne Chapter 1 The Source of Work Power Chapter 2 Sleep Chapter 3 To Use Sleep Chapter 4 Scientific Living Healing Chapter 5 Mind Cures Chapter 6 Nature and Development of Will Power Chapter 7 The Living One Chapter 8 New Light on Immortality Chapter 9 Suffering in Sickness *Health Through New Thought and Fasting* Wallace D.
