Locating Resources for Healthy People 2000 Health Promotion Projects ,1991 **Healthy People 2000** Michael A. Stoto,Ruth Behrens,Connie Rosemont,1990 **National Issues in Science and Technology 1993** National Research Council,National Academy of Engineering,National Academy of Sciences,Institute of Medicine,National Academy of Sciences, National Academy of Engineering, Institute of Medicine,1993-02-01 This volume consists of four white papers prepared for the Clinton administration as it took office on important national policy issues in which science and technology play a central role Topics covered are science and technology leadership climate change policy technology policy and industrial innovation and health care reform Also included are brief summaries of ten potentially high impact reports issued by various committees of the National Research Council *A Foucault for the 21st Century* Sam Binkley,Jorge Capetillo-Ponce,2009-01-23 How relevant is Foucault s social thought to the world we inhabit today This collection comprises several essays considering the contemporary relevance of the work of Michel Foucault While Foucault is best remembered for his historical inquiries into the origins of disciplinary society in a period extending from the 16th to the 19th centuries it seems that today under the conditions of global modernity the relevance of his ideas are called into question With the increasing ubiquity of markets the break up of centralized states and the dissolution of national boundaries together with new scientific and political discourses on biological life the world of today seems far removed from the bounded disciplinary societies Foucault described in his most famous books Yet in recent years it has become apparent that Foucault s thoughts on modern society have not been exhausted and indeed that much remains to be explored Within this volume novel interpretations and thematic developments of key Foucauldian concepts are presented in the works of 24 authors Prominent among them are new forms of neoliberal economic conduct framed by distinct governmentalities new critical concepts of biological life reflected in Foucault s analysis of biopower and new theoretical treatments of the effects of subjectivation Moreover included among these theoretical departures are empirical studies of contemporary formations of religion and spiritual practice consumerism race and racism the discourse of genetics and the life sciences surveillance and incarceration and new social movements Drawn from a conference held at the University of Massachusetts Boston bearing the same title *A Foucault for the 21st Century* Governmentality Biopolitics and Discipline in the New Millennium both expands our understanding of Foucault s central theoretical legacy and applies his ideas to a range of contemporary empirical phenomena **Balancing the Scales of Opportunity** Institute of Medicine,Committee to Increase Minority Participation in the Health Professions,1994-02-01 The underrepresentation of minorities in health and other professions has long cast a shadow over our nation s efforts to develop a more representative and productive society Many programs have been developed to enlarge the presence of minorities in health careers but these efforts have been unable to develop the infrastructure and momentum needed to produce and

sustain an adequate number of minority professionals among the ranks of clinicians researchers and teachers This book looks at the historical significance of this underrepresentation presents data that define the problem and identifies underlying factors that contribute to the failure to achieve fairness in opportunity The volume examines programs that have made successful efforts to decrease underrepresentation and sets forth an action and research agenda for further enhancing the numbers of minorities in the health professions

Improving America's Diet and Health Institute of Medicine, Committee on Dietary Guidelines Implementation, 1991-01-01 Written and organized to be accessible to a wide range of readers Improving America's Diet and Health explores how Americans can be persuaded to adopt healthier eating habits Moving well beyond the pamphlet and public service announcement approach to dietary change this volume investigates current eating patterns in this country consumers beliefs and attitudes about food and nutrition the theory and practice of promoting healthy behaviors and needs for further research The core of the volume consists of strategies and actions targeted to sectors of society government the private sector the health professions the education community that have special responsibilities for encouraging and enabling consumers to eat better These recommendations form the basis for three principal strategies necessary to further the implementation of dietary recommendations in the United States

Broken Promises Edward C Green, 2016-12-05 Ideological blinders have led to millions of preventable AIDS deaths in Africa Dr Edward C Green former director of the Harvard AIDS Prevention Project describes how Western AIDS experts stubbornly pursued ineffective remedies and sabotaged the most successful AIDS prevention program on that ravaged continent Drawing on 30 years of conducting research in Africa Southeast Asia and other parts of the world in international health Green offers a set of evidence based and experience rich solutions to the AIDS crisis He calls for new emphasis on promoting sexual fidelity the only strategy shown by research to work Controversial but important findings for health researchers international development specialists and policy makers

In Her Own Right Institute of Medicine, Beryl Lieff Benderly, 1997-04-19 Right to life Right to choice Masectomy lumpectomy Vitamin therapy hormone therapy aromatherapy Tabloids op eds Phil Sally Oprah Yesterday women confided in their doctors about health problems and received private albeit sometimes paternalistic attention Today women's health issues are headline material Topics that once raised a blush now raise a blare of conflicting medical news and political advocacy Women welcome the new recognition of their health concerns Now women are less often treated as the old saw goes as a uterus with a person attached At the same time they need help in sorting through the flood of reports on scientific studies claims of success for new treatments and just plain myths The Institute of Medicine IOM has responded to this need with *In Her Own Right* Throughout its 25 year history the IOM has provided authoritative views on fast moving developments in medicine bringing accuracy objectivity and balance to the hottest controversies Talented science writer Beryl Lieff Benderly synthesizes this expertise into a readable overview of women's health Why do women live longer than men Why do more women than men suffer vertebral fractures Benderly highlights what we know about the

health differences between men and women and the mysteries that remain to be solved With a frank conversational approach Benderly examines women s health across the life span Issues of female childhood adolescence and sexual maturity including smoking eating behavior teen pregnancy and more The host of issues surrounding the reproductive years contraception infertility abortion pregnancy and birth AIDS and mental health Postmenopausal life and issues of aging as health choices made decades earlier come home to roost Benderly addresses women s experience with the nation s health care establishment and the controversy over the lack of female representation in the world of scientific research Much more than a how to guide *In Her Own Right* translates the finest scholarship on topics of women s health into terms that will help any woman ask the right questions and make the right choices Covering the spectrum from traditional beliefs to cutting edge research this book presents the personal insights of leading investigators along with clear explanations of breakthrough studies written in plain English
