Time Travel Nikk Effingham,2020-02-20 There are various arguments for the metaphysical impossibility of time travel Is it impossible because objects could then be in two places at once Or is it impossible because some objects could bring about their own existence In this book Nikk Effingham contends that no such argument is sound and that time travel is metaphysically possible His main focus is on the Grandfather Paradox the position that time travel is impossible because someone could not go back in time and kill their own grandfather before he met their grandmother In such a case Effingham argues that the time traveller would have the ability to do the impossible so they could kill their grandfather even though those impossibilities will never come about so they won't kill their grandfather He then explores the ramifications of this view discussing issues in probability and decision theory The book ends by laying out the dangers of time travel and why even though no time machines currently exist we should pay extra special care ensuring that nothing no matter how small or microscopic ever travels in time

The Magic of Self-Respect Osho,2010-05-10 So much of the experience of everyday life says Osho in this insightful guide is shaped by religious and social conditioning and we are not even aware of the fact We are constantly being pulled away from the unique nature that is our birthright In place of that original and unique self a false self called the ego is constructed that eventually gains control of our creativity our ideas about what it means to be successful our relationships and our very experience of who we are At the same time he argues the collection of egos known as society shapes our political educational and religious institutions which in turn combine to force the same old patterns onto new

generations In this book Osho shows how to discard these old patterns in favor of a new and nurturing trinity of watchfulness awareness and alertness The bundled DVD lets readers directly experience the insights of this important modern mystic
