Neonatal Heart Disease Robert M. Freedom, Leland N. Benson, Jeffrey F. Smallhorn, 2012-12-06 As pediatric cardiology becomes more and more neonatal cardiology and even fetal cardiology Neonatal Heart Disease by Robert M Freedom MD Leland N Benson MD and Jeffrey F Smallhorn MB is extraordinarily timely Neonatal Heart Disease consists of 50 chapters by 25 distinguished contributors and is a worthy successor to The Neonate With Congenital Heart Disease by Richard D Rowe MD and his colleagues 1968 and 1981 The first edition of this book in 1968 established Richard D Rowe MD as the father of neonatal cardiology As most pediatric cardiologists now know Dick Rowe died on January 18 1988 after a brief illness It will therefore come as no surprise that the present volume is dedicated to this great and gentle man Nor will it come as a surprise that I have been asked to devote this Foreword to Richard D Rowe MD pioneering neonatal cardiologist and incomparable personal friend What can one say about Dick Rowe Well there are at least two very different tales There is Dick Rowe the public man the factual account of Dick Rowe s achievements as a physician educator and research man the Dick Rowe that virtually everyone knows And then there is Dick Rowe the private man the extraordinary human being who only his personal friends were privileged to know I shall try to tell something of both stories First the public man the factual account is really quite amazing
