Education Re Formed Guide To The Education Reform Act 1988 Headways:

Liberty and Education Geoffrey Hinchliffe, 2014-08-13 This book takes the thinking of Quentin Skinner Philip Pettit and J G A Pocock on republican liberty and explores the way in which this idea of liberty can be used to illuminate educational practice It argues that republican liberty is distinct from both positive and negative liberty and its emphasis on liberty as non dependency gives the concept of liberty a particularly critical role in contemporary society Each chapter formulates and expounds the idea that an empire of liberty requires the existence of what are termed liberty bearing agents and shows how education with a particular emphasis on knowledge is needed to foster the human powers which allow people to become liberty bearing It is also emphasised however that republican liberty is non perfectionist and non eudaimonic the core values enshrined in an empire of liberty centre on non dependency rather than the promulgation of a certain way of life Drawing on prominent seventeenth century contract theorists the link between liberty and authority is explained suggesting that appropriate authoritative structures need to underpin the provision of education and especially schooling if educational practice devoted to the pursuit of liberty is to flourish Liberty and Education will be of value to both educational theorists unfamiliar with republican theory as well as republican theorists interested in how their theory might play out in education It will also be of interest to researchers and students from the fields of politics and the philosophy of education *Education Re-formed* Stuart Maclure, 1988 **The Encyclopedia of Higher Education: Analytical perspectives** Burton R.

Towards a New Primary Curriculum for South Africa Carol A. Macdonald, 1993 Since 1979 Act 90 The Education and Training Act South Africa's law has stated that an official language i e English or Afrikaans could be used as the medium of instruction after Std 2 fourth grade in black education Almost without exception English was chosen by the primary schools This means that most children are introduced to the new subjects of history science and geography through the medium of English These subjects are encapsulated in textbooks that children find unusable and teachers have difficulty in understanding In 1990 the legislation was amended so that medium of instruction now becomes a matter of negotiation between the Minister of Education and the parents This negotiation is currently under way in many Department of Education and Training schools This change of legislation came as a direct result of research carried out over a period of five years on the Threshold Project 1985 1990 The overt cause of difficulties within the education system would have seemed to be a language policy that traumatises both teachers and pupils Inadequate time and materials are spent preparing children for a change in the medium of learning and the curriculum is not developed carefully enough to lead children to an understanding to a large number of abstract concepts by the fifth year of schooling *Whitaker's Book List* , 1991 **Local Government Review** , 1989 *The British National Bibliography* Arthur James Wells, 1968 *The Custody and Courtship of Experience* Padraig Hogan, 1995 Throughout most of the history of Western civilization Christianity and Classical ideals played a

dominant part in education In most western countries however this is no longer the case In modern pluralist Democracies church influence struggles with pervasive influences from elsewhere for the hearts and minds of the public Educational policy remains however an instrument to be used by major power groups and in many countries has become to a greater or lesser extent an active or unwitting accomplice in furthering acquisitiveness and the accumulation of material advantage
