*Handbook of Special Education* James M. Kauffman, Daniel P. Hallahan, 2011-05-15 Special education is now an established part of public education in the United States by law and by custom. However, it is still widely misunderstood and continues to be dogged by controversies related to such things as categorization, grouping, assessment, placement, funding, instruction, and a variety of legal issues. The purpose of this 13-part, 57-chapter handbook is to help profile and bring greater clarity to this sprawling and growing field. To ensure consistency across the volume, chapter authors review and integrate existing research, identify strengths and weaknesses, note gaps in the literature, and discuss implications for practice and future research. Key features include Comprehensive Coverage: Fifty-seven chapters cover all aspects of special education in the United States, including cultural and international comparisons. Issues/Trends: In addition to synthesizing empirical findings and providing a critical analysis of the status and direction of current research, chapter authors discuss issues related to practice and reflect on trends in thinking. Categorical Chapters: In order to provide a comprehensive and comparative treatment of the twelve categorical chapters in section IV, chapter authors were asked to follow a consistent outline: Definition, Causal Factors, Identification, Behavioral Characteristics, Assessment, Educational Programming, and Trends and Issues. Expertise: Edited by two of the most accomplished scholars in special education, chapter authors include a carefully chosen mixture of established and rising young stars in the field. This book is an appropriate reference volume for anyone: researchers, scholars, graduate students, practitioners, policy makers, and parents interested in the state of special education today, its research base, current issues and practices, and future trends. It is also appropriate as a textbook for graduate-level courses in special education.

*Handbook of Anti-Discriminatory Education* Ardavan Eizadirad, Peter Pericles Trifonas, 2025-05-29 This comprehensive handbook addresses issues related to anti-discriminatory education as it relates to children, youth, young adults, families, and practitioners across a series of age groups, sectors, communities, and countries. It seeks to map a holistic interdisciplinary overview of the field, examining how policies, practices, and initiatives within unique social, political, and cultural contexts have been enacted to advance anti-discriminatory education for improved equity, diversity, and inclusion outcomes, leading to thriving school community ecosystems. The work draws on a range of theoretical frameworks, hybrid perspectives, and research projects to provide multiple examples about the challenges, complexities, and nuances involved in theorizing and doing the work of anti-discriminatory education in local communities and on a macro-institutional level. With intentionality, authors from various backgrounds, identities, fields, and positionalities describe and discuss various social justice and equity issues and how they strategize, mobilize, and navigate unique micro and macro dynamics affiliated with power and privilege for the purpose of advancing the field of anti-discriminatory education. Overall, the chapters cover a range of topics and issues from various practitioners and community perspectives around the intersectionality and divergence of navigating micro-lived experiences and macro-institutional policies and practices to

bridge the gap between theory and action with respect to anti discriminatory education The book is divided into 4 sub sections Early Childhood Education Early years up to approx 10 years old Elementary and Middle School Years approx 11 to 14 years old Secondary Schools approx 15 to 19 years old and Higher Education Post Secondary Handbook of Research-Based Practices for Educating Students with Intellectual Disability Karrie A.
