Health Policy And The Disadvantaged:

Health Policy and the Disadvantaged Lawrence David Brown, 1991 This important collection of essays originating in a 1989 conference on the disadvantaged in American health care provides incisive commentary on U S health care policy and politics Examining public responses to health crises and analyzing the political logic of the American community this volume charts the immobility of U S health policy in recent years and points to its disastrous consequences for the 1990s Focusing on the particular needs of disadvantaged groups the elderly children people with AIDS the mentally ill the chemically dependent the homeless the hungry the medically uninsured these essays develop strong policy statements The authors describe the growth in U S health care programs from Kerr Mills to Medicare Medicaid and subsequent revisions and stress the serious omissions resulting from incremental policy expansion both in identifying disadvantaged groups and in implementing programs They report the weakness of the U S health care system compared to systems of other technologically developed countries Contributors Deborah A Stone and Theodore R Marmor Judith Feder Alice Sardell Bruce C Vladeck Michael Lipsky and Marc A Thibodeau Daniel M Fox William E McAuliffe M Gregg Bloche and Francine Cournos Lawrence D Brown James A Morrone

DISADVANTAGED GROUPS: A SOCIAL POLICY PERSPECTIVE Deniz SAY ŞAHİN, Sevinç PEHLİVAN SÜTLÜ, 2022-01-19 Universal Declaration of Human Rights begins as All human beings are born free and equal in dignity and rights and Everyone is entitled to all the rights and freedoms set forth in this Declaration without distinction of any kind such as race colour sex language religion political or other opinion national or social origin property birth or other status But some segments of the society have more rights and freedoms than others Although the Others have been given names such as Groups that Need Special Protection they are now called Disadvantaged Groups and include children young people addicts the elderly the disabled immigrants minorities ex convicts women single parent families the poor Considering that the majority of the world s population consists of children young people women and the elderly it is obvious that the problems of disadvantaged groups are actually the problems of society Although the groups are counted individually a person is in more than one group The disadvantaged poor child can grow up to be a woman who becomes a single parent Special Issue on Health Policy and the Disadvantaged ,1990 **Healthy Voices, Unhealthy Silence** Colleen M. Grogan, 2007-09-11 Public silence in policymaking can be deafening When advocates for a disadvantaged group decline to speak up not only are their concerns not recorded or acted upon but also the collective strength of the unspoken argument is lessened a situation that undermines the workings of deliberative democracy by reflecting only the concerns of more powerful interests But why do so many advocates remain silent on key issues they care about and how does that silence contribute to narrowly defined policies What can individuals and organizations do to amplify their privately expressed concerns for policy change In Healthy Voices Unhealthy Silence Colleen M Grogan and Michael K Gusmano address these questions through the lens of state level health care advocacy for the poor They examine how representatives for the poor participate in an advisory board process by tying

together existing studies extensive interviews with key players and an in depth first hand look at the Connecticut Medicaid advisory board s deliberations during the managed care debate Drawing on the concepts of deliberative democracy agenda setting and nonprofit advocacy Grogan and Gusmano reveal the reasons behind advocates often unexpected silence on major issues assess how capable nonprofits are at affecting policy debates and provide prescriptive advice for creating a participatory process that adequately addresses the health care concerns of the poor and dispossessed Though exploring specifically state level health care advocacy for the poor the lessons Grogan and Gusmano offer here are transferable across issue areas and levels of government Public policy scholars advocacy organizations government workers and students of government administration will be well served by this significant study

Decentralization and Health Policy in South Asia Nisha Bellinger, 2024-09-02

This ambitious and insightful book provides a unique regional perspective on health policy across South Asia focusing on how the decentralization of policy and governance leads to differing health outcomes across different countries in the region Comparing the contexts and outcomes in Sri Lanka Pakistan India Nepal and Bangladesh the book asks how power sharing arrangements between central and subnational layers of government nevertheless result in varying levels of success across issues such as infant and under five mortality rates The book argues that it is the role of central government in formulating policy and how this feeds into regional implementation that partly explains the disparities in health outcomes across the region The book will interest students and scholars of South Asia politics global health and health policy more generally

Regional Comparisons in Comparative Policy Analysis Studies Iris Geva-May, B. Guy Peters, Joselyn Muhleisen, 2020-06-29

Volume Three of the Classics of Comparative Policy Analysis contains chapters concerned with Regional Comparisons and Policy Analysis one of the most prevailing approaches in comparative public policy Through the prism of inter jurisdiction comparisons of similarities and variations they address comparisons in specific policy sectors governance or institutional constructs and political regimes The foci are nevertheless on those comparisons between countries or regions which help to lesson draw by identifying and understanding the variation in policy analysis and policy making that exists within or across regions One benefit of regional comparisons is that it often allows studies to hold constant many variables ranging from colonial legacy to federal systems or from language to specific traditions and more effectively isolate dependent variables Regional organizations like the Organization for Economic Co operation and Development OECD or European Union are also considered as catalysts for regional policy approaches and harmonization and occupy a major role in this volume The chapters address a broad and diverse number of countries and geographical

areas Latin America North America East Asia Southeast Asia Southern Africa the Baltic states the Nordic states Western Europe Central Europe Eastern Europe and Europe as a whole Regional Comparisons and Policy Analysis will be of great interest to scholars and learners of public policy and social sciences as well as to practitioners considering what can be learned or facilitated through methodologically and theoretically sound approaches The chapters were originally published as articles in the Journal of Comparative Policy Analysis which in the last two decades has pioneered the development of comparative public policy The volume is part of a four volume series the Classics of Comparative Policy Analysis including Theories and Methods Institutions and Governance Regional Comparisons and Policy Sectors Each volume showcases a different new chapter comparing domains of study interrelated with comparative public policy political science public administration governance and policy design authored by the JCPA co editors Giliberto Capano Iris Geva May Michael Howlett Leslie A Pal and B Guy Peters
