Postcolonial Gateways and Walls Daria Tunca, Janet Wilson, 2016-11-07 Metaphors are ubiquitously used in the humanities to bring the tangibility of the concrete world to the elaboration of abstract thought Drawing on this cognitive function of metaphors this collection of essays focuses on the evocative figures of the gateway and the wall to reflect on the state of postcolonial studies Some chapters on such topics as maze making in Canada and the Berlin Wall in the writings of New Zealand authors foreground the modes of articulation between literal borders and emotional disconnections while others examine how artefacts ranging from personal letters to clothes may be conceptualized as metaphorical gateways and walls that lead or conversely regulate access to specific forms of cultural expression and knowledge Following this line of metaphorical thought postcolonial studies itself may be said to function as either barrier or pathway to further modes of enquiry This much is suggested by two complementary sets of contributions on the one hand those that contend that the canonical centre periphery paradigm and the related writing back model have prevented scholars from recognizing the depth and magnitude of cross cultural influences between civilizations on the other those that argue that the scope of traditional postcolonial models may be fruitfully widened to include territories such as post imperial Turkey a geographical and cultural gateway between East and West that features in several of the essays included in this collection Ultimately all of the contributions testify to the fact that postcolonial studies is a field whose borders must be constantly redrawn and whose paradigms need to be continually reshaped and rebuilt to remain relevant in the contemporary world in other words the collection s varied approaches suggest that the discipline itself is permanently under construction Readers are therefore invited to perform a critical inspection of the postcolonial construction site

Critical Approaches to Joseph Conrad Agata Szczeszak-Brewer, 2015-08-31 Critical

Approaches to Joseph Conrad is a collection of essays directed to both new and experienced readers of Conrad. The book takes into account recent developments in literary theory including the prominence of ecocriticism, ecopostcolonial approaches and gender studies. Editor Agata Szczeszak Brewer offers a comprehensive and comprehensible introduction to Conrad's most popular texts, also addressing the most recent academic debates as well as the conversations about narrative and genre in Conrad's canon. Students and scholars of Conrad, twentieth-century literature and modernism will appreciate the clear, accessible prose by nineteen internationally recognized contributors who approach Conrad in different ways from postcolonial and ecocritical perspectives through explorations of gender to psychoanalysis, narrative theory and political analysis. Beginning with a biographical introduction by Szczeszak Brewer, the collection offers an essay outlining the cultural and historical contexts that influenced Conrad's fiction and an essay on reception of Conrad's work. Following that, contributors provide critical approaches to *Heart of Darkness*, *Lord Jim*, *Typhoon*, *Nostromo*, *The Secret Agent*, *The Secret Sharer* and *Under Western Eyes*. In these sections, scholars offer insights about complex issues in Conrad's fiction ranging from the study of specific literary tools and narrative development in his books to the political theories in Conrad's portrayal of the threat of terrorism and violent revolutions.

Hitler's Black Victims Clarence Lusane, 2004-11-23 Drawing on interviews with the black survivors of Nazi concentration camps and archival research in North America, Europe and Africa, this book documents and analyzes the meaning of Nazism's racial policies towards people of African descent, specifically those born in Germany, England, France, the United States and Africa, and the impact of that legacy on contemporary race relations in Germany and more generally in Europe. The book also specifically addresses the concerns of those surviving Afro-Germans who were victims of Nazism but have not generally been included in or benefited from the compensation agreements that have been developed in recent years.

The Cultural Memory of Africa in African American and Black British Fiction, 1970-2000 Leila Kamali, 2016-12-10 This book offers a new approach to reading the cultural memory of Africa in African American fiction from the post-Civil Rights era and in Black British fiction emerging in the wake of Thatcherism. The critical period between the decline of the Civil Rights Movement and the dawn of the twenty-first century saw a deep contrast in the distinctive narrative approaches displayed by diverse African diaspora literatures in negotiating the crisis of representing the past. Through a series of close readings of literary fiction, this work examines how the cultural memory of Africa is employed in diverse and specific negotiations of narrative time in order to engage and shape contemporary identity and citizenship. By addressing the practice of remembering Africa, the book argues for the signal importance of the African diaspora's literary interventions and locates new paradigms for cultural identity in contemporary times.

A Practical Reader in Contemporary Literary Theory Peter Brooker, Peter Widdowson, 2014-05-22 This introduction to practicing literary theory is a reader consisting of extracts from critical analyses, largely by 20th-century Anglo-American literary critics, set around major literary texts that undergraduate students are known to be familiar with. It is specifically targeted to

present literary criticism through practical examples of essays by literary theorists themselves on texts both within and outside the literary canon Four example essays are included for each author text presented Drawn from the Classics Stephen E. Tabachnick, Esther Bendit Saltzman, 2015-06-01 The graphic novel is the most exciting literary format to emerge in the past thirty years Among its more inspired uses has been the superlative adaptation of literary classics Unlike the comic book abridgments aimed at young readers of an earlier era today's graphic novel adaptations are created for an adult audience and capture the subtleties of sophisticated written works This first ever collection of essays focusing on graphic novel adaptations of various literary classics demonstrates how graphic narrative offers new ways of understanding the classics including the works of Homer Poe Flaubert Conrad and Kafka among many others **Vietnam and Beyond** Stefania Ciocia, 2012-05-08 Vietnam and Beyond is a comprehensive in depth study of Tim O'Brien one of the most thought provoking writers of the Vietnam war generation It is the first major new study of this important writer in over ten years

Dangerous Edges of Graham Greene Dermot Gilvary, Darren J. N. Middleton, 2011-11-17 Informative broad ranging this title sheds new light on the life and literary art of one of the last century's most celebrated authors The first volume to be authorized by the Graham Greene Birthplace Trust Dangerous Edges of Graham Greene brings together writers journalists and scholars to investigate as well as to assess Greene's prolific oeuvre and intense personal interests Here the reader may

explore everything from Greene's Vienna at the time of the filming of *The Third Man* to his sometimes fraught relationship with Evelyn Waugh from Greene's unconventional fictional treatment of women to his believing skepticism While Greene often informed friends that a ruling passion gives to a shelf of novels the unity of a system critics of his literary art have found it extraordinarily difficult to define the content of this ruling passion Perhaps this is because Greene's own character seems so paradoxical ironic even Moreover in believing that sin contains within itself the seeds of saintliness he consistently loiters on what Robert Browning calls the dangerous edge of things In exploring this dangerous edge this book covers the full breadth of Greene's life and literary career
