Public Health Policies in the

European Union Walter Holland, Elias Mossialos, Bernard Merkel, 2018-10-26 First published in 1999 this volume recognises that the role and status of public health in Europe has again become increasingly recognized and features contributions on various nations within the European Community This is not only in individual countries but also in the policies of the European Union as exemplified in the Maastricht and Amsterdam Treaties This book is a critical account of the present structures and policies of member countries and how policies have evolved within the European Commission It describes both possible models and needs and contrasts these with the current legislative framework It thus serves the needs of both practitioners policy makers policy analysts and students interested in public health and social policy developments

Epidemics and Genocide in Eastern Europe, 1890-1945 Paul Weindling, 2000 How did typhus come to be viewed as a Jewish disease and what was the connection between the anti typhus measures during the First World War and the Nazi gas chambers and other genocidal medical practices in the Second World War This powerful book provides valuable new insight into the history of German medicine in its reaction to the international fight against typhus and the perceived threat of epidemics from the East in the early part of this century Paul Weindling examines how German bacteriology became increasingly racialized and how it sought to eradicate the disease by the eradication of the perceived carriers Delousing became a key feature of Nazi preventive medicine during the Holocaust and gassing a favored means of eliminating typhus
