Wakeman's authoritative biography of the ruthlessly powerful man who led the Chinese Secret Service during the violent and tumultuous period after the fall of the Imperial system Asia First Joyce Mao, 2015-06-09 After Japanese bombs hit Pearl Harbor the American right stood at a crossroads Generally isolationist conservatives needed to forge their own foreign policy agenda if they wanted to remain politically viable When Mao Zedong established the People's Republic of China in 1949 with the Cold War just underway they had a new object of foreign policy and as Joyce Mao reveals in this fascinating new look at twentieth century Pacific affairs that change would provide vital ingredients for American conservatism as we know it today Mao explores the deep resonance American conservatives felt with the defeat of Chiang Kai Shek and his exile to Taiwan which they lamented as the loss of China to communism and the corrosion of traditional values In response they fomented aggressive anti communist positions that urged greater action in the Pacific a policy known as Asia First While this policy would do nothing to oust the communists from China it was powerfully effective at home Asia First provided American conservatives a set of ideals American sovereignty selective military intervention strident anti communism and the promotion of a technological defense state that would bring them into the global era with the positions that are now their hallmark

Paths to Development in Asia Tuong Vu, 2010-03-22 Why have some states in the developing world been more successful at facilitating industrialization than others Challenging theories that privilege industrial policy and colonial legacies this book focuses on state structure and the politics of state formation arguing that a cohesive state structure is as important to developmental success as effective industrial policy Based on a comparison of six Asian cases including both capitalist and socialist states with varying structural cohesion Tuong Vu proves that it is state formation politics rather than colonial legacies that have had decisive and lasting impacts on the structures of emerging states His cross national comparison of South Korea Vietnam Republican and Maoist China and Sukarno's and Suharto's Indonesia which is augmented by in depth analyses of state formation processes in Vietnam and Indonesia is an important contribution to understanding the dynamics of state formation and economic development in Asia *Encyclopedia of Chinese History* Michael Dillon, 2016-12-01 China has become accessible to the west in the last twenty years in a way that was not possible in the previous thirty The number of westerners travelling to China to study for business or for tourism has increased dramatically and there has been a corresponding increase in interest in Chinese culture society and economy and increasing coverage of contemporary China in the media Our understanding of China's history has also been evolving The study of history in the People's Republic of China during the Mao Zedong period was strictly regulated and primary sources were rarely available to westerners or even to most Chinese historians Now that the Chinese archives are open to researchers there is a growing body of academic expertise on history in China that is open to western analysis and historical methods This has in many ways changed the way that Chinese history particularly the modern period is viewed The Encyclopedia of Chinese History covers the entire span of Chinese history from the period known primarily through archaeology to the

present day Treating Chinese history in the broadest sense the Encyclopedia includes coverage of the frontier regions of Manchuria Mongolia Xinjiang and Tibet that have played such an important role in the history of China Proper and will also include material on Taiwan and on the Chinese diaspora In A Z format with entries written by experts in the field of Chinese Studies the Encyclopedia will be an invaluable resource for students of Chinese history politics and culture *Individual Choice and State-Led Nationalist Mobilization in China* Wen Zha,2015-05-11 This book presents a comparative historical analysis of state led nationalist movements in Chinese history which counters current claims that popular nationalism in present day China is strong enough to sustain costly expansionist wars Popular nationalism in China has been on the rise since the early 1990s to the concern of many observers Some have even asked whether China will become another Germany A comparative historical analysis of pre war and wartime nationalist mobilization helps us better understand how individuals formulate their opinions under extreme conditions It concludes that the public s weak perception of foreign threats taken together with pro minority domestic institutions may significantly undermine the state s efforts at nationalist mobilization and thus limit its capability to pursue external expansion or other strategic goals *Shanghai Sanctuary* Bei Gao,2013-02-14 This book assesses the plight of the European Jewish refugees who fled to Japanese occupied China during the Second World War It examines the Nationalist government s policy towards the Jewish refugee issue and the most thorough and subtle analysis of Japanese diplomacy concerning this matter The story of the wartime Shanghai Jews is not merely a side bar to the history of modern China or modern Japan It is a story that illuminates how the Jewish issue complicated the relationships among China Japan Germany and the United States before and during World War Two Both the Chinese Nationalist government and the Japanese occupation authorities thought very carefully about the Shanghai Jews and how they could be used to win international financial and political support in their war against one another Thus the Holocaust had complicated repercussions that extended far beyond Europe The diaspora of Jews to East Asia in the era of the Second World War is a rich and complex story that deserves our attention as well Firmly grounded in archival sources from the People s Republic of China Taiwan Japan the United States Britain and Israel this book is comparative and transnational in scope and makes an important contribution to the international history of the period *Sino-Italian Political and Economic Relations* Orazio Coco,2024-02-14 This book presents a comprehensive narrative and historical analysis of the political and economic relations between China and Italy from the Treaty of Friendship and Commerce signed in October 1866 to the Second World War Utilizing primary sources found in public and private archives the volume acknowledges the relevance of eminent figures and their roles and contributions in developing the relations between Italy and China It provides an extensive presentation of the close relations between the Chinese nationalist and Italian fascist regimes and their interaction in the interwar period The Italian and Chinese governments had a prolonged political and economic dialogue which lasted for almost a decade and involved the active mediation of politicians economists academics and professionals at different levels and in diverse fields

International historiography mostly neglects the relevance of this period in broader historical contexts This work overcomes the unjustified oversight and examines with reliable primary sources the relevance of this extraordinary season of international relations With a valuable exploration of a wealth of sources this book provides a new opportunity of reflection for scholars and students interested in Sino European relations and international history

Y F Johnson History Storyteller History Storyteller A re-evaluation of Chiang Kaishek's blueshirts Dooeum Chung,1997 **Building a New China in Cinema** Laikwan Pang,2002 Building a New China in Cinema introduces English readers for the first time to one of the most exciting left wing cinema traditions in the world This unique book explores the history ideology and aesthetics of China s left wing cinema movement a quixotic film culture that was as political as commercial as militant as sensationalist Originating in the 1930s it marked the first systematic intellectual involvement in Chinese cinema In this era of turmoil and idealism the movement s films were characterized by fantasies of heroism intertwined with the inescapable spell of impotency thus exposing the contradictions of the filmmakers underlying ideology as their political and artistic agendas alternately fought against or catered to the taste and viewing habits of a popular audience Political cinema became a commercially successful industry resulting in a film culture that has never been replicated Drawing on detailed archival research Pang demonstrates that this cinema movement was a product of the era s social economic and political discourses The author offers a close analysis of many rarely seen
