Elsewhere Community:

The Elsewhere Community Hugh Kenner, 1998-01-01 Acclaimed literary critic Hugh Kenner examines Western culture's insatiable need for stimulation encountered elsewhere from the eighteenth century's Grand Tour to the self-imposed exile of modernist writers to the disembodied global journeys the Internet avails us today Kenner brings to this fascinating study knowledge of a wide array of disciplines Hugh Kenner has written on topics ranging from geodesic domes to Bugs Bunny but is perhaps best known for *The Pound Era* his definitive study of Ezra Pound's life and work Agency, Contingency and Census Process Frances Morphy, 2007-12-01 The Indigenous Enumeration Strategy IES of the Australian National Census of Population and Housing has evolved over the years in response to the perceived difference of the Aboriginal and Torres Strait Islander populations Its defining characteristics are the use of locally recruited mostly Indigenous collector interviewers and the administration of a modified collection instrument in discrete Indigenous communities mostly in remote Australia The research reported here is unique The authors with the assistance of the Australian Bureau of Statistics were able to follow the workings of the IES in the 2006 Census from the design of the collection instrument to the training of temporary census field staff at the Northern Territory's Census Management Unit in Darwin to the enumeration in four remote locations through to the processing stage at the Data Processing Centre in Melbourne This allowed the tracking of data from collection to processing and an assessment of the effects of information flows on the quality of the data both as input and output This study of the enumeration involved four very different locations a group of small outstation communities Arnhem Land a large Aboriginal township Wadeye an open town with a majority Aboriginal population Fitzroy Crossing and the minority Aboriginal population of a major regional centre Alice Springs A comparison between these contexts reveals differences that reflect the diversity of remote Aboriginal Australia but also commonalities that exert a powerful influence on the effectiveness of the IES in particular very high levels of short term mobility The selection of sites also allowed a comparison between the enumeration process in the Northern Territory where a time extended rolling count was explicitly planned for and Western Australia where a modified form of the standard count had been envisaged The findings suggest that the IES has reached a point in its development where the injection of ever increasing resources into essentially the same generic set and structure of activities may be producing diminishing returns There is a need for a new kind of engagement between the Australian Bureau of Statistics and local government and Indigenous community sector organisations in remote Australia The agency and local knowledge of Indigenous people could be harnessed more effectively through an ongoing relationship with such organisations to better address the complex contingencies confronting the census process in remote Indigenous Australia

Saint Paul and Philosophy Gert Jan van der Heiden,George Henry van Kooten,Antonio Cimino,2017-08-07 The much acclaimed present day philosophical turn to the letters of Saint Paul points to a profound consonance between ancient and modern thought Such is the bold claim of this study in which scholars from contemporary continental philosophy new testamentary studies and ancient philosophy discuss with each other the meaning Paul s terms pistis faith In this volume this theme discusses in detail the threefold relation between Paul and 1 continental thought 2 the Graeco Roman world and 3 political theology It is shown that pistis does not only concern a mode of knowing but rather concerns the human ethos or mode of existence as a whole Moreover it is shown that the present day political theological interest in Paul can be seen as an attempt to recuperate Paul s pistis in this comprehensive sense Finally an important discussion concerning the specific ontological implications and background of this

reinterpretation of pistis is examined by comparing the ancient ontological commitments to those of the present day philosophers Thus the volume offers an insight in a crucial consonance of ancient and modern thought concerning the question of pistis in Paul while not forgetting to stipulate important differences *A Companion to Urban Anthropology* Donald M. Migration and Poverty Edmundo Murrugarra, Jennica Larrison, Marcin Sasin, 2010-11-24 This volume uses recent research from the World Bank to document and analyze the bidirectional relationship between poverty and migration in developing countries The case studies chapters compiled in this book from Tanzania Nepal Albania and Nicaragua as well as the last policy oriented chapter illustrate the diversity of migration experience and tackle the complicated nexus between migration and poverty reduction Two main messages

emerge Although evidence indicates that migration reduces poverty it also shows that migration opportunities of the poor differ from that of the rest In general the evidence suggests that the poor either migrate less or migrate to low return destinations As a consequence many developing countries are not maximizing the poverty reducing potential of migration The main reason behind this outcome is difficulties in access to remunerative migration opportunities and the high costs associated with migrating It is shown for example that reducing migration costs makes migration more pro poor The volume shows that developing countries governments are not without means to improve this situation Several of the country examples offer a few policy recommendations towards this end
