

An aerial, painterly illustration of a city, likely Ljubljana, Slovenia. The city is built on a hillside, with a river flowing through it. A large, multi-arched bridge spans the river. The architecture is a mix of traditional European styles. The sky is filled with soft, white clouds. The overall color palette is dominated by earthy tones like browns, tans, and greys, with some greenery visible in the parks and along the riverbanks.

Embers And Earth Selected Poems:

Embers and Earth Gaston Miron, Douglas Gordon Jones, Marc Plourde, 1984 Poems by Gaston Miron **The European Avant-Garde** Selena Daly, Monica Insinga, 2013-02-21 The European Avant Garde Text and Image is an interdisciplinary collection of thirteen essays relating to the study of European Avant Garde movements between 1900 and 1940 The essays cover both literary and artistic subjects across geographical linguistic and disciplinary boundaries Various aspects of the English Irish German French Italian Spanish and Polish avant gardes are explored examining both diverse literary genres such as prose poetry and drama and specific avant garde movements such as Futurism and Surrealism The volume includes a lengthy introductory essay by Prof John J White Emeritus Professor of German and Comparative Literature at King's College London Avant garde studies can be enhanced and developed through dialogue with other disciplines such as translation gender exile and comparative studies Thus the volume is divided into four sections Representations of the Body Translating the Avant Garde Identity and Exile and Comparative Perspectives and the Legacy of the Avant Garde Quebec Identity Jocelyn Maclure, 2003 Jocelyn Maclure provides a critical reflection on the ways in which Quebec's identity has been articulated since the 1960s Quiet Revolution He shows how neither the melancholic nationalism of the Montreal school Hubert Aquin Pierre Vallières Fernand Dumont and their followers nor the individualist anti nationalism of Pierre Trudeau and his followers provide identity stories and political projects adequate for contemporary Quebec In articulating an alternative narrative Maclure reframes the debate detaching the question of Quebec's identity from the question of sovereignty versus federalism and linking it closely to Quebec's cultural diversity and to the consolidation of its democratic sphere In so doing he rethinks the conditions of authenticity leaves space for First Nations self determination and takes account of globalization This edition has been expanded for English Canadians with additional references as well as a glossary of names institutions and concepts Toward a Catholic Theology of Nationality Dorian Llywelyn, 2010-06-28 Nationality continues to be an important part of how people identify themselves and others Who am I is inseparable from the question Who and what are we Historically many nations have made use of the Bible and Christian notions to understand themselves and to justify their political ambitions Catholic theology however has never elaborated on a systematic treatment of nationality Dorian Llywelyn forges a new approach treating the nation as a form of culture He addresses some key questions How are the religious and national aspects of human identity connected What does Catholic doctrine have to say about nationality and nationalism Is there really such a thing as a Christian nation Is Catholicism compatible with patriotism Llywelyn's wide ranging book introduces the reader to contemporary approaches to nationality nationality national identity nationalism and patriotism Drawing from the insights of sociology history and anthropology he investigates the many ways in which nations and Christianity have intertwined and explores what scripture and twentieth century papal teaching have to say on the matter He provides an original Catholic theology of national belonging one which is based on the implications of

the Incarnation Examining popular devotions to the Virgin Mary as national patroness and drawing from the metaphysical acumen of the medieval thinker John Duns Scotus Llywelyn argues for the theological value of nationality and proposes that global community and cultural and national diversity are mutually necessary values

National Poetry, Empires and War David Aberbach, 2016-09-13 Nationalism has given the world a genre of poetry bright with ideals of justice freedom and the brotherhood of man but also at times burning with humiliation and grievance hatred and lust for revenge driving human kind as the Austrian poet Grillparzer put it From humanity via nationality to bestiality National Poetry Empires and War considers national poetry and its glorification of war from ancient to modern times in a series of historical social and political perspectives Starting with the Hebrew Bible and Homer and moving through the Crusades and examples of subsequent empires this book has much on pre modern national poetry but focuses chiefly on post 1789 poetry which emerged from the weakening and collapse of empires as the idealistic liberalism of nationalism in the age of Byron Whitman D Annunzio Yeats Bialik and Kipling was replaced by darker purposes culminating in World War I and the rise of fascism Many national poets are the subject of countless critical and biographical studies but this book aims to give a panoramic view of national poetry as a whole It will be of great interest to any scholars of nationalism Jewish Studies history comparative literature and general cultural studies
