Goldberger's keen observations and sharp wit make him one of the most insightful and passionate architectural voices of our time. In this collection of fifty-seven essays, the critic Tracy Kidder called America's foremost interpreter of public architecture, ranges from Havana to Beijing, from Chicago to Las Vegas, dissecting everything from skyscrapers by Norman Foster and museums by Tadao Ando to airports, monuments, suburban shopping malls, and white brick apartment houses. This is a comprehensive account of the best and the worst of the age of architecture.

**On Norman Foster** Norman Foster is the Mozart of modernism. He is nimble and prolific, and his buildings are marked by lightness and grace. He works very hard, but his designs don't show the effort. He brings an air of unnerving aplomb to everything he creates, from skyscrapers to airports, research laboratories to art galleries, chairs to doorknobs. His ability to produce surprising work that doesn't feel labored must drive his competitors crazy.

**On the Westin Hotel** The forty-five-story Westin is the most garish tall building that has gone up in New York in as long as I can remember. It is fascinating if only because it makes Times Square vulgar in a whole new way, extending up into the sky. It is not easy these days to go beyond the bounds of taste. If the architects, the Miami-based firm Arquitectonica, had been trying to allude to bad taste, one could perhaps respect what they came up with. But they simply wanted, like most architects today, to entertain us.

**On Mies van der Rohe** Mies's buildings look like the simplest things you could imagine, yet they are among the richest works of architecture ever created. Modern architecture was supposed to remake the world, and Mies was at the center of the revolution, but he was also a counterrevolutionary who designed beautiful things. His spare minimalist objects are exquisite. He is the only modernist who created a language that ranks with the architectural languages of the past, and while this has sometimes been troubling for his reputation, his architectural forms become more astonishing as time goes on.

**Neon Metropolis** Hal Rothman, 2002. First Published in 2003. Routledge is an imprint of Taylor Francis, an informal company.

**Dream City** Douglas Unger, 2024-10-08. In this unconventional tale of Las Vegas during the two delirious boom decades before the bust of the Great Recession, failed actor C. D. Reinhart, who has launched a new career in hotel marketing, is gradually losing his moral and existential compass. Working on The Strip during an era when Sin City's population growth was outpacing any other place in America, C. D. climbs the industry ladder while modeling himself after a Pyramid Resorts top executive, Lance Sheperd. C. D.'s professional choices lead him down a tumultuous road, as Sheperd, a complex and at times visionary figure, pilots his ventures through the tangled wheeling and dealing of finance and corporate politics straight into catastrophe. As the story progresses, C. D. comes to understand how his personal losses and the losses of his cohort of hard-driving executives, on the one hand, and especially the tragic life of his work partner Greta Olsson, the only woman to break through into their male-dominated world, are a result of the make-believe environment he has helped to create, a world where representation replaces reality. Hoping to piece together his faltering marriage and family relationships, C. D. must find a new path as he struggles to hold onto his dreams. In this fictionalized version of the city of glittering lights, author Douglas Unger pits the ideologies of marketing and consumerism in the casino

economy of America against the erosion of individual and humane values that success in that world demands Unger reveals the hard truth that Las Vegas a blue collar town considered by many to be the most honest city can be a temple for self deceptions emblematic of a service economy that knows the price of everything and too often the value of little else Dream City becomes both a love song and an elegy for Las Vegas that sets it apart from any other literary novel previously written about this global entertainment attraction that in so many ways represents postmodern America Sooner or later the challenge that faces everyone is to discover what matters most and to learn how to bet on the better angels of our natures

*Sky-High* Eric P.
