## **Emergence Of Modern America 186519:**

**The Possibility of America** David Dark, 2019-04-09 Published in the years following 9 11 David Dark's book *The Gospel according to America* warned American Christianity about the false worship that conflates love of country with love of God. It delved deeply into the political divide that had gripped the country and the cultural captivity into which so many American churches had fallen. In our current political season the problems Dark identified have blossomed. The assessment he brought to these problems and the creative resources for resisting them are now more important than ever. Into this new political landscape and expanding on the analysis of *The Gospel according to America* Dark offers *The Possibility of America: How the Gospel Can Mend Our God-Blessed God-Forsaken Land*. Dark expands his vision of a fractured yet redeemable American Christianity bringing his signature mix of theological, cultural, and political analysis to white supremacy, evangelical surrender, and other problems of the Trump era. *Was America Founded as a Christian Nation? Revised Edition* John Fea, 2016-10-01 John Fea offers a thoroughly researched, evenhanded primer on whether America was founded to be a Christian nation as many evangelicals assert or a secular state as others contend. He approaches the title's question from a historical perspective, helping readers see past the emotional rhetoric of today to the recorded facts of our past. This updated edition reports on the many issues that have arisen in recent years concerning religion's place in American society, including the Supreme Court decision on same-sex marriage, contraception, and the Affordable Care Act, and state-level restrictions on abortion, and demonstrates how they lead us to the question of whether the United States was or is a Christian nation. Fea relates the history of these and other developments, pointing to the underlying questions of national religious identity inherent in each. We live in a sound-bite culture that makes it difficult to have any sustained dialogue on these historical issues. Fea writes in his preface: It is easy for those who argue that America is a Christian nation and those who do not to appear on radio or television programs, quote from one of the founders or one of the nation's founding documents, and sway people to their positions. These kinds of arguments, which can often be contentious, do nothing to help us unravel a very complicated historical puzzle about the relationship between Christianity and America's founding. **Catalogue** Dartmouth College, 1954

Bonner, 2009-04-27 Mastering America recounts efforts of proslavery nationalists to navigate the nineteenth century geopolitics of imperialism federalism and nationalism and to articulate themes of American mission in overtly proslavery terms At the heart of this study are spokesmen of the Southern Master Class who crafted a vision of American destiny that put chattel slavery at its center Looking beyond previous studies of the links between these proslavery nationalists and secession the book sheds new light on the relationship between the conservative Unionism of the 1850s and the key formulations of Confederate nationalism that arose during war in the 1860s Bonner s innovative research charts the crucial role these men and women played in the development of American imperialism constitutionalism evangelicalism and popular patriotism     Performing Authorship in the Nineteenth-Century Transatlantic Lecture Tour Amanda Adams, 2016-05-13 Expanding our understanding of what it meant to be a nineteenth century author Amanda Adams takes up the concept of performative embodied authorship in relationship to the transatlantic lecture tour Adams argues that these tours were a central aspect of nineteenth century authorship at a time when authors were becoming celebrities and celebrities were international Spanning the years from 1834 to 1904 Adams s book examines the British lecture tours of American authors such as Frederick Douglass Harriet Beecher Stowe and Mark Twain and the American lecture tours of British writers that include Harriet Martineau Charles Dickens Oscar Wilde and Matthew Arnold Adams concludes her study with a discussion of Henry James whose American lecture tour took place after a decades long absence In highlighting the wide range of authors who participated in this phenomenon Adams makes a case for the lecture tour as a microcosm for nineteenth century authorship in all its contradictions and complexity     **New England Journal of Education** ,1911     **The Encyclopædia Britannica** ,1911     **Recording for the Blind & Dyslexic, ...
