Cultural Anthropology John H. Bodley,2011-04-16 This introductory text introduces basic concepts in cultural anthropology by comparing cultures of increasing scale and focusing on specific universal issues throughout human history Cultural materials are presented in integrated ethnographic case studies organized by cultural and geographic areas to show how ideological social organization and material features fit together in specific sociocultural systems John H Bodley explicitly seeks a balance between ecological materialist and cultural ideological explanations of sociocultural systems while stressing the importance of individual power seeking and human agency Part One examines domestic scale autonomous tribal cultures Part Two presents politically organized class based civilizations and ancient empires in the imperial world Part Three surveys global industrial market based civilizations in the contemporary commercial world Cultural Anthropology uniquely challenges students to consider the big questions about the nature of cultural systems

Europeanization, Integration and Identity Gamze Tanil,2012 This book analyses how domestic and European structures impact on national actors identities interests and foreign policy practices Employing Norway as the case study area the author uses this nation as an example to assess Europeanization and identity politics across the European Union EU Utilising an original and innovative approach called social constructivist fusion perspective the author addresses Europeanization across several key factors The author assesses the influence of the EU on half way member countries and the impact of identity politics and domestic structures which factors contribute to or hinder Europeanization and attempts to empirically measure Europeanization at the actor level It analyses the impact of domestic and European structures on the identities interests attitudes and foreign policy practices of the Norwegian policy makers Whilst contributing to knowledge and literature on how constructivist approaches can be utilized in empirical studies of political elites this book goes beyond theory to demonstrate that Europeanization is not only institutional and provides evidence of the influence of identity politics Europeanization Integration and Identitywill be of interest to students scholars and policy makers in the field of European Union politics international relations social constructivism and Scandinavian politics

The Privileged Few Clive

Hamilton, Myra Hamilton, 2024-05-09 Male and white privilege are on the decline yet elite privilege has gone from strength to strength The privileges enjoyed by the rich and powerful are not only unfair but cause widespread harm from the everyday slights and humiliations visited on those lower down the scale to the distortions in the labour market when elites use their networks to secure plum jobs not least in new domains such as professional sports In this book Clive Hamilton and Myra Hamilton show that elite privilege is not a mere by product of wealth but an organising principle for society as a whole They explore the practices and processes that sustain legitimise and reproduce elite privilege and show how we are all implicated in the system both facilitating it and tolerating its harmful effects Building on their original fieldwork and a wide range of other sources the authors paint a vivid picture of the micropolitics of elite privilege highlighting in particular the vital role played by exclusive private schools Ranging across topics as diverse as glamour suburbs philanthropy Rhodes scholarships and super yachts *The Privileged Few* delves beneath attempts at concealment to expose how the elites keep getting away with it

The Contested Status of Political Elites Lars Vogel, Ronald Gebauer, Axel Salheiser, 2018-07-17 Contemporary Western societies are witnessing ground breaking social economic and political changes at an accelerating pace These changes are challenging the way democracy works and the role that political elites play in this system of government Using a theoretical and empirical approach this volume argues that political elites are urged to develop new strategies in order to achieve interest aggregation to safeguard collective action and to maintain elite autonomy and stability The adaptive capacities of political elites are assessed through case studies comparative and longitudinal analyses of their social structure their recruitment patterns and their attitudes The book includes contributions from reputable scholars in the field of elite research and specialists on individual political systems across Europe and the US It provides an analytical framework demonstrating that political elites are inevitable and potentially able to respond successfully to varying challenges The book will be of key interest to scholars and students of political elites democracy comparative politics political participation and European Politics

Modern African Elite of South Africa Lynette Dreyer, 1989-06-18 A profile of the lives of 60 eminent Black Africans who have reached the top of their professions and social hierarchy in South African society despite the political system It argues that White fears of a Black government destroying the economy of South Africa are unfounded

The Decline of Political Leadership in Australia? Jan Pakulski, B. Tranter, 2015-12-11 This book analyses the changing political recruitment of the Australian federal parliamentary elite It argues that the elite's quality has been reduced to a worrisome degree especially since the 1990s It suggests that the declining quality of the Australian political class is a major factor behind the declining public trust in politicians

Historical Role Analysis in the Study of Religious Change John T. Flint, 1990-03-22 This 1990 study explores the relationship between educational development and religious change in Norwegian society from 1740 1891 John Flint traces the processes whereby the laity radically reduced clerical control over religious institutions He examines census materials reports to the Ministries of the Church and Education and information

from organizational histories using historical role analysis to describe the changing relationships A Family Business? Jane Marceau, 1989-04-13 Professor Marceau traces the processes of social change and development of an international elite in Europe *Foreign Investments and Political Regimes* Oksan Bayulgen, 2010 Political democratization and economic globalization have been two of the most important global trends of the past few decades But how are they connected Do the domestic political institutions affect a country's attractiveness to foreign investors Can countries that democratize attract relatively more foreign investments Drawing on three in depth case studies of oil rich countries and statistical analyses of 132 countries over three decades Oksan Bayulgen demonstrates that the link between democratization and FDI is nonlinear Both authoritarian regimes and consolidated democracies have institutional capabilities that though different are attractive to foreign investors Democracies can provide long term stability and authoritarian regimes can offer considerable flexibility The regimes that have started on the road to democracy but have not yet completed it tend to have political institutions that provide neither flexibility nor stability These hybrid regimes then also find it relatively more difficult to construct a policy environment that is attractive to foreign investments These findings have deep implications for the link between democratization and globalization but also how globalization may affect political social and economic development Provided by publisher **Local Heroes** Kathryn Stoner-Weiss, 2021-04-13 In *Local Heroes* Kathryn Stoner Weiss analyzes a crucial aspect of one of the great dramas of modern times the reconstitution of the Russian polity and economy after more than seventy years of communist rule This is the first book to look comprehensively and systematically at Russia's democratic transition at the local level Its goal is to explain why some of the new political institutions in the Russian provinces weathered the monumental changes of the early 1990s better than others Using newly available economic political and sociological data to test various theories of democratization and institutional performance Stoner Weiss finds that traditional theories are unable to explain variations in regional government performance in Russia *Local Heroes* argues that the legacy of the former economic system influenced the operation of new political institutions in important and often unexpected ways Past institutional structures specifically the concentration of the regional economy promoted the formation of political and economic coalitions within a new proto democratic institutional framework These coalitions have had positive effects on governmental performance For democratic theorists this may be a surprising conclusion However it is possible as Stoner Weiss suggests that the needs of democratic development may be different in the short run than in the long run The local heroes of today may be impediments to the further development of democracy tomorrow This provocative work solidly grounded in research and theory will interest anyone concerned with issues of economic and political transition
