Ellerman Lines John Clarkson,R. S. Fenton,1993 *The Ships That Came to the Pool of London* Nick Robins,2017-07-15 Nick Robins explores the ships that came to the Pool of London throughout history **Marine News** ,1997 *A Postcard History of the Passenger Liner* Christopher Deakes,2023-10-01 From around 1880 for almost a hundred years shipowners commissioned a wealth of paintings that depicted their magnificent liners as well as the routes they travelled their exotic destinations and life onboard These paintings rich in imagination and atmosphere appeared on postcards and posters of the day and were used to advertise the companies and their ships and so was born a whole genre that produced tens of thousands of paintings which formed a wonderful record of the great era of the passenger liner In 1900 there were over thirty shipping companies operating passenger liners across the North Atlantic Other oceans were similarly served But now with just a few exceptions the companies and their liners have disappeared along with the art they once inspired Little remains to recall this aspect of our maritime past except the postcards and they tell an evocative story of the vanished world of elegant ships and leisurely travel of social and political times much changed by the history of the past century Here brought vividly to life in more than 500 colourful postcards are the ships on which so many of our predecessors sailed as emigrants soldiers administrators or simply as tourists in days long past These cards which are now highly collectable show how steamships developed over the years but they are also a fine tribute to the artists who painted them This volume also includes a glossary of some 170 illustrators which forms an important reference section and advice on collecting **Log of Logs** Ian Hawkins Nicholson,1990 **Snow in the Tropics** Thomas Taro Lennerfors,Peter Birch,2019-03-27 *Snow in the Tropics* by Thomas Taro Lennerfors and Peter Birch offers the first comprehensive history of the independent reefer operators These shipping companies such as Lauritzen Sal n Seatrade Star Reefers and NYK Reefer developed the dedicated transport of refrigerated products like meat fish and fruit by ship from the early 20th century to the present *Snow in the Tropics* describes how the history of the reefer operators has been formed in relation to shippers such as Dole and Chiquita in a constant struggle with the liner companies such as Maersk and in relation to global economic and political trends It also covers how the industry is discursively constructed and the psychological drivers of the business decisions in it *The East Yorkshire Local History Society Bulletin* ,1991 **Shipbuilding & Shipping Record** ,1958

Shipbuilding and Shipping Record ,1958 Includes special issues *Lloyd's Ship Manager* ,1985-04 *The Motor Ship* ,1982 **Fairplay Weekly Shipping Journal** ,1955 **Ellermans** James Arnold Taylor,1976 **Syren and Shipping Illustrated** ,1949 *Preparing for Blockade 1885-1914* Stephen Cobb,2016-04-08 Today the First World War is

remembered chiefly for the carnage of the Western Front but at the time the Royal Navy's blockade of Germany was a more frequent source of debate. For even at a time of war there were influential voices in Britain who balked at a concept of economic warfare that hindered the free passage of goods on the high seas and brought German society to the brink of famine. To further our understanding of these issues this book looks at the background to the blockade and the effects of its implementation in 1914. It argues that there was a widely shared but largely unwritten strategic culture within British naval circles which accepted that in a war with a major maritime power the British response would be to attack enemy trade. This is demonstrated by the fact that from at least the late 1880s the Royal Navy planned for the use of armed merchantmen to enforce an economic blockade of an enemy. This it did by entering into detailed arrangements with major British shipping companies for the design and subsidy of liners with the potential for use as merchant cruisers and stockpiling their prospective armament. In line with the contemporary Corbettian view that seapower depends upon free communications the book concludes by asserting that the primary role of the Grand Fleet in the First World War was to guarantee the ability of the merchant cruisers on the Northern Patrol to interdict German seaborne trade rather than to engage in large set piece battles.
