Bignami,2004-07-01 This dictionary contains 10 987 terms in two volumes terms covering the following 14 main fields Architectural Engineering and Buildings Civil Engineering Engineering Geology Geotechnical Engineering Hydraulics Hydrogeology Hydrology Mechanical Engineering Mechanics Mining Engineering Petroleum Engineering Science and Technics Surveying The dictionary has two sections the first one the Basic Table lists the terms in English as well as those which are specifically American in alphabetical order followed by their equivalents in German French Italian Spanish and Portuguese Brazilian In the second section the indexes the German French Italian Spanish and Portuguese Brazilian terms are listed in five separate alphabetical indexes The dictionary is a basic tool for all contractors abroad It will offer the adequate technical support for specialists evolving in an international environment

Using the Engineering Literature Bonnie A. Osif,2016-04-19 With the encroachment of the Internet into nearly all aspects of work and life it seems as though information is everywhere However there is information and then there is correct appropriate and timely information While we might love being able to turn to Wikipedia for encyclopedia like information or search Google for the thousands of links Guide to Information Sources in Engineering Charles Lord,2000-08-15 The only source that focuses exclusively on engineering and technology this important guide maps the dynamic and changing field of information sources published for engineers in recent years Lord highlights basic perspectives access tools and English language resources directories encyclopedias yearbooks dictionaries databases indexes libraries buyer s guides Internet

resources and more Substantial emphasis is placed on digital resources The author also discusses how engineers and scientists use information the culture and generation of scientific information different types of engineering information and the tools and resources you need to locate and access that material Other sections describe regulations standards and specifications government resources professional and trade associations and education and career resources Engineers scientists librarians and other information professionals working with engineering and technology information will welcome this research

Information Sources in Engineering Roderick A. Macleod, Jim Corlett, 2012-04-17 The current thoroughly revised and updated edition of this approved title evaluates information sources in the field of technology It provides the reader not only with information of primary and secondary sources but also analyses the details of information from all the important technical fields including environmental technology biotechnology aviation and defence nanotechnology industrial design material science security and health care in the workplace as well as aspects of the fields of chemistry electro technology and mechanical engineering The sources of information presented also contain publications available in printed and electronic form such as books journals electronic magazines technical reports dissertations scientific reports articles from conferences meetings and symposiums patents and patent information technical standards products electronic full text services abstract and indexing services bibliographies reviews internet sources reference works and publications of professional associations Information Sources in Engineering is aimed at librarians and information scientists in technical fields as well as non professional information specialists who have to provide information about technical issues Furthermore this title is of great value to students and people with technical professions

Scientific and Technical Information Resources Krishina Subramanyam, 2020-07-24 This book focuses on current practices in scientific and technical communication historical aspects and characteristics and bibliographic control of various forms of scientific and technical literature It integrates the inventory approach for scientific and technical communication

Translations from the German Richard Mönnig, 1968

Guide to Sources for Agricultural and Biological Research J. Richard Blanchard, Lois Farrell, 2023-07-28

Bibliography of Publications on the Languages of the World: Europe and USSR United States. Army Map Service. Library. Book and Periodical Branch, 1967

Reference Sources in Science, Engineering, Medicine, and Agriculture Harold Robert Malinowsky, 1994-06-24 Designed to help in locating and evaluating print and non print sci tech information sources this book contains articles covering such topics as channels of communication publishing of information and cost of literature An extensive annotated bibliography of sources completes the text

Elsevier's Dictionary of Soil Science A. Canarache, I.I. Vintila, I. Munteanu, 2006-10-17 This dictionary includes some 9200 terms each with a definition and often and additional descriptive text in English the terms being translated in French German and Spanish It is more complete than similar previously published dictionaries or glossaries and contains all fields of soil science as well as some adjacent fields of other earth sciences agriculture and engineering Present concepts and definitions are

detailed along with earlier concepts not only for historical reasons but also for developing new ideas Concepts terms and definitions usual in literature of various countries are discussed and compared to offer an appropriate exchange of ideas Soil classifications and methodologies for soil investigation coming from a score of European American and other countries and international organisations are presented and correlations between names of soil taxa in different classifications are suggested Readers active in all branches of soil science will find accessible answers to many of their questions either directly referring to procedures used in the organisations where they work or related to way of thinking in other countries Readers active in other branches but needing information on soils will also find answers to this dictionary of great assistance to their research Over 9200 terms with definitions in English and translations in French German Spanish Includes all fields of soil science and many connected sciences All present day terminology with inclusion of earlier classical concepts and terms Terminology in current USDA Soil Taxonomy FAO World Reference Base or Soil Resources and other documents from different countries Granted the N Cernescu award from the Romanian Academy on Agricultural and Forestry Sciences
