project of modernism The sublime re enchantment as in Weber and the aura as in Benjamin have been used to smuggle religious concepts back into academic writing but there is still no direct communication between religionists and scholars Re Enchantment volume 7 in The Art Seminar Series will be the first book to bridge that gap The volume will include an introduction and two final synoptic essays as well as contributions from some of the most prominent thinkers on religion and art including Boris Groys James Elkins Thierry de Duve David Morgan Norman Girardot Sally Promey Brent Plate and Christopher Pinney Connecting with Ambivalent Heritage Tiina Äikäs, Tuuli Matila, 2024-09-05 Exploring the difficult and contested sites of deindustrialized society on the brink of transformation to either heritage or wasteland this volume looks at the creative ways that such sites are re used and suggests that they are not always merely abject or abandoned As a result our understanding of the meanings given to left over spaces is enhanced by an examination of the ways they are used Ambivalent heritage sites are not always recognized for their potential although artists and people from different recreational activities such as industrial sites and parkour use and experience these places in different ways The contributors introduce fresh ideas on how to approach these sites and the people invested in them employing multidisciplinary methodologies from archaeology and heritage studies to ethnography and sociology Through the use of Northern European case studies such as a former sanatorium a prison and the Chornobyl Exclusion Zone the reader gains a new perspective on these sites of contestation which are cherished despite their problematic status The conclusion is that due to the rapid societal change we are experiencing in the contemporary world heritage professionals must start to acknowledge and deal with the difficulties that ambivalent heritage sites pose *Art Now Gallery Guide* ,1997-05 *It's Only Rock and Roll* David S.
