Cold War Country Joseph M. Thompson, 2024-04-02 Country music maintains a special decades long relationship to American military life but these ties didn't just happen This readable history reveals how country music's Nashville based business leaders on Music Row created partnerships with the Pentagon to sell their audiences on military service while selling the music to servicemembers Beginning in the 1950s the military flooded armed forces airwaves with the music hosted tour dates at bases around the world and drew on artists from Johnny Cash to Lee Greenwood to support recruitment programs Over the last half of the twentieth century the close connections between the Defense Department and Music Row gave an economic boost to the white dominated sounds of country while marginalizing Black artists and fueling divisions over the meaning of patriotism This story is filled with familiar stars like Roy Acuff Elvis Presley and George Strait as well as lesser known figures industry executives who worked the halls of Congress country artists who dissented from the stereotypically patriotic trappings of the genre and more Joseph M Thompson argues convincingly that the relationship between Music Row and the Pentagon helped shape not only the evolution of popular music but also race relations partisanship and images of the United States abroad

Globalization and American Popular Culture Lane Crothers, 2007 This concise and insightful book examines the way that American movies music and television—as goods marketed and consumed around the world—are key elements of contemporary globalization Lane Crothers offers a nuanced exploration of these influential cultural products and their contradictory impact in some cases promoting a desire for integration into the broader world community in others generating disgust and outright rejection Concluding with a projection of the future influence of American popular media this book makes a powerful argument for its central role in shaping global politics and economic development
