Embodied Lives: Rosemary A. Joyce, Lynn M. Meskell, 2014-02-25 Examining a wide range of archaeological data and using it to explore issues such as the sexual body mind body dualism body modification and magical practices Lynn Meskell and Rosemary Joyce offer a new approach to the Ancient Egyptian and Mayan understanding of embodiment Drawing on insights from feminist theory art history phenomenology anthropology and psychoanalysis the book takes bodily materiality as a crucial starting point to the understanding and formation of self in any society and sheds new light on Ancient Egyptian and Maya cultures The book shows how a comparative project can open up new lines of inquiry by raising questions about accepted assumptions as the authors draw attention to the long term histories and specificities of embodiment and make the case for the importance of ancient materials for contemporary theorization of the body For students new to the subject and scholars already familiar with it this will offer fresh and exciting insights into these ancient cultures *embodied Lives*

Journeys of Embodiment at the Intersection of Body and Culture Niva Piran, 2017-09-15 *Journeys of Embodiment at the Intersection of Body and Culture* The Developmental Theory of Embodiment describes an innovative developmental and feminist theory understanding embodiment to provide a new perspective on the interactions between the social environment of girls and young women of different social locations and their embodied experience of engagement with the world around them The book proposes that the multitude of social experiences described by girls and women shape their body experiences via three core pathways

experiences in the physical domain experiences in the mental domain and experiences related directly to social power The book is structured around each developmental stage in the body journey of girls and young women as influenced by their experience of embodiment The theory builds on the emergent constructs of embodiment and body journey and the key social experiences which shape embodiment throughout development and adolescence from agency functionality and passion during early childhood to restriction shame and varied expressions of self harm during and following puberty By addressing not only adverse experiences at the intersection of gender social class ethnocultural grouping resilience and facilitative social factors the theory outlines constructive pathways toward transformation It contends that both protective and risk factors are organized along these three pathways with the positive and negative aspects conceptualized as Physical Freedom vs Corseting Mental Freedom vs Corseting and Social Power vs Disempowerment and Disconnection Examines the construct of embodiment and its theoretical development Explores the social experiences that shape girls throughout development Recognizes the importance of the body and sexuality Includes narratives by girls and young women on how they inhabit their bodies Invites scholars and health professionals to critically reflect on the body journeys of diverse girls and women Addresses the advancement of feminist social critical and psychological theory as well as implications to practice both therapy and health promotion

Epistemology: The Key Thinkers Stephen Hetherington, Stephen Cade Hetherington, 2012-04-26 From Plato through Descartes to W V Quine and Edmund Gettier this concise introduction and reference guide explores the history of thinking about knowledge

Longing and Letting Go Holly Hillgardner, 2017 Can we love God and others without our desires eclipsing the very beauty integrity and diversity toward which we are drawn that is can we love without trying to possess Spanning centuries continents and religious traditions Longing and Letting Go looks to Christian writer Hadewijch and Hindu songstress Mirabai to explore their inextricable practices of longing and letting go and more particularly the interreligious possibilities of passionate non attachment for an interconnected pluralistic world

The Ascetic Ideal Stephen Mulhall, 2021-08-12 In The Ascetic Ideal Stephen Mulhall shows how areas of cultural life that seem to be either essentially unconnected to evaluative commitments science and philosophy or to involve non moral values aesthetics are in fact deeply informed by ethico religious commitments for better and for worse The book develops a reading of Nietzsche's concept of the ascetic ideal which he used to track the evolution mutation and expansion of the system of slave moral values associated primarily with Judaeo Christian religious belief through diverse fields of Western European culture not just religion and morality but aesthetics science and philosophy

Mulhall also offers an interpretation of Nietzsche's genealogical method that aims to rebut standard criticisms of its nature and to emphasize its potential for enhancing philosophical understanding more generally. The focus throughout is on developments in those fields which occurred after the end of Nietzsche's intellectual career and in particular on influential modes of thought and practice that have a contemporary significance. The goal is not simply to argue that Nietzsche's diagnosis and critique retains considerable merit but also to show that Nietzsche is himself significantly indebted to the ideals he criticizes and that this opens up a possibility of synthesizing elements of his approach with those drawn from its target. Hence the book also tracks various ways in which the object of Nietzsche's criticism has undergone further mutations just as his genealogical method would suggest and in doing so has generated ways of pursuing the values central to asceticism that avoid Nietzsche's criticisms and might even further his own goals.

Living Faithfully in a Fragmented World, Second Edition Jonathan R. Wilson, 2010-01-01 The first edition of *Living Faithfully in a Fragmented World* became one of the founding and guiding texts for new monastic communities. In this revised edition Jonathan Wilson focuses more directly on lessons for these communities from Alasdair MacIntyre's *After Virtue*. In the midst of the unsettling cultural shifts from modernity to postmodernity a new monastic movement is arising that strives to be a faithful witness to the gospel. These new monastic communities seek to participate in Christ's life in the world and bear witness by learning to live intentionally as the church in Western culture. This movement is about finding the church's center in Christ in the midst of a fragmented world, overcoming the failure of the Enlightenment project and our complicity with it, resisting the temptation to Nietzschean power and building communities of disciples. This new edition is greatly enlarged from the original volume. It includes responses to critics of the new monasticism such as D. A. Carson, an entirely new chapter on the Nietzschean temptation, an afterword on properly understanding the new monastic movement, the dangers it faces and the work yet to be done, as well as an appendix on the supposed postmodern agenda of Jonathan Wilson and Brian McLaren. For those striving to understand the path the church should take in this fragmented world, this book is essential reading.
