how and why this change took place in the United States scholars have most often focused on Midwestern family farmers who experienced the change during the first half of the twentieth century and southern sharecroppers swept off the land by forces beyond their control Departing from the conventional story this book focuses on small farm owners in North Carolina from the post Civil War era to the post Civil Rights era It reveals that the transformation was more protracted and more contested than historians have understood it to be Even though the number of farm owners gradually declined over the course of the century the desire to farm endured among landless farmers who became landowners during key moments of opportunity Moreover this book departs from other studies by considering all farm owners as a single class rejecting the widespread approach of segregating black farm owners The violent and restrictive political culture of Jim Crow regime far from only affecting black farmers limited the ability of all farmers to resist changes in agriculture By the 1970s the vast reduction in the number of small farm owners had simultaneously destroyed a Southern yeomanry that had been the symbol of American democracy since the time of Thomas Jefferson rolled back gains in landownership that families achieved during the first half century after the Civil War and remade the rural South from an agrarian society to a site of global agribusiness

*Habits of Industry* Allen Tullos, 2017-10-01 *Habits of Industry* provides a richly descriptive social historical and cultural account of the Carolina Piedmont the area between the Blue Ridge Mountains and the Coastal Plain over the course of 150 years By examining the social and religious culture of the region Allen Tullos illuminates the lives of the working men and women whose habits of industry shaped their world Tullos combines archival research with an extensive collection of oral histories to shed new light on the essentially all white textile industry in the era before World War II He examines such topics as workers transition from an agrarian folk culture to an industrial working class the changing patterns of employers paternalistic relations and the contrasting and complimentary meanings of industry Using biographies and autobiographies of both mill owners and mill workers Tullos juxtaposes the entrepreneurial narratives of the Belks Hammetts Tompkinses Dukes and Loves with the equally remarkable stories of such workers as Ethel Hillard Alice and Grover Hardin and Nigel League **North Carolina Libraries** ,1983
