

EYEWITNESS TO AMERICAN HISTORY

A detailed oil painting depicting a pioneer wagon and a group of riders crossing a wide river. The wagon, with a striped canopy, is being pulled by a team of oxen. Several riders on horseback are accompanying the wagon. In the background, a large, rugged mountain peak rises against a sky filled with soft, orange and yellow clouds, suggesting a sunset or sunrise. The foreground shows the riverbank with some cattle and the river itself reflecting the light from the sky.

Lyon, 2022-08-15 In these times of reckoning at last with America s original sin of slavery and racist policies with police misconduct and with mass incarceration many in our country ask What can we do In this powerful and insightful book Andrea D Lyon explicates what is wrong with the criminal justice system through clients stories and historical perspective and makes the compelling case for the need for reform at the center of the system not just its edges Lyon suggests that we should create an office of the Defender General of the United States and give it the same level of importance as the Attorney General and the Solicitor General Such an office would not be held by someone who represents law enforcement or corporate America but rather by someone who represents and advocates for accused individuals collectively before the powers that be A Defender General would raise his or her voice against injustices like those involving the unnecessary killings of George Floyd and Breonna Taylor or the Texas Supreme Court s refusal to let an innocent man cleared by DNA out of prison The United States needs a Defender General Early Visions and Representations of America M. Carmen Gomez-Galisteo, 2012-11-22 When the Europeans first arrived in America they had a number of preconceptions prejudices expectations and hopes about what life in the New World would be like This

book examines the different visions and representations of America conveyed in the writings of Spanish conquistador Ivar Nez Cabeza de Vaca and the Pilgrim leader William Bradford taking both writers within their respective literary and historical contexts Anthologies of American literature have consistently ignored Spanish language achievements on the grounds of a restrictive interpretation of American literature based on linguistic boundaries Consequently Spanish language texts such as Cabeza de Vaca's or the account by the Hidalgo de Elvas to name but two examples have been marginalized in the narrative of American literary history In seeking to redress this neglect Galisteo contributes to scholarship which seeks to analyze Early America as a whole including not only Anglo American perspectives but also the Spanish American aspect of the colonization process

United States of America Ex Rel. Thomas V. Twomey, 1972 **Armed America** Clayton E. Cramer, 2009-08-24 For many Americans guns seem to be a fundamental part of the American experience and always have been Grand in scope rigorous in research and elegant in presenting the formative years of our country Armed America traces the winding historical trail of United States citizens' passion for firearms Author and historian Clayton E. Cramer goes back to the source unearthing first hand accounts from the colonial times through the Revolutionary War period and into the early years of the American Republic In Armed America Cramer depicts a budding nation dependent on its firearms not only for food and protection but also for recreation and enjoyment Through newspaper clippings official documents and personal diaries he shows that recent grandiose theories claiming that guns were scarce in early America are shaky at best and downright false at worst Above all Cramer allows readers a priceless glimpse of a country literally fighting for its identity For those who think that our citizens' attraction to firearms is a recent phenomenon it's time to think again Armed America proves that the right to bear arms is as American as apple pie

The Rapture 2028: America's Countdown to Apocalypse! David Netherton, 2015-01-02 A Shocking Bible Discovery found in the Dead Sea Scrolls After forty years of research in the Biblical text this book came about while studying Biblical manuscripts in their original Greek I was given a project by my Greek professor to research the Dead Sea Scrolls This research changed my life my belief about time and the books of the Bible While researching the Dead Sea Scrolls I found two historical books that were in the Bible during Jesus time on this Earth So I ask this question Why did man remove these books The deeper I studied I discovered that our Bible should have seventy books instead of sixty six Six is the number of man and a number representing incompleteness Sixty six doubles its meaning and the number 666 needs no explanations Men do resist God's will today 2 Peter 3:9 While researching the subject I encountered extreme opposition The books of the Bible should be divisible by seven So we are missing one New Testament book and three Old Testament books to make a seventy book Bible Have we been deceived by our religious leaders and science community Does all time truly consist in a 7 007 year window This book is written from the complete seventy book Bible which was revealed in the Dead Sea Scrolls Do the scrolls reveal angels mating with the daughters of Adam Where did the giant human originate Have we all been lied to about Genesis 6 and the events during the days of Noah Are angels and demons masquerading as aliens and UFOs in a great end of time deception Will the dollar collapse by 2022 Will the U S be destroyed in one day by 2028 However when He the Spirit of truth has come He will guide you into all truth for He will not speak on His own authority but whatever He hears He will speak and He will tell you things to come John 16:13-14
