Eyewitness Accounts Of The Thirty Years War 1618 48:

Eyewitness Accounts of the Thirty Years War 1618-48 G. Mortimer, 2002-04-19 The Thirty Years War the first great pan European war and until the twentieth century the most terrible ravaged Germany but myth propaganda and historical controversy have obscured its true nature Another perspective is provided by the private diaries memoirs and chronicles of soldiers and citizens who recorded their own experiences War at the individual level is discussed and described using these sources which are extensively quoted in their own words *The Thirty Years War, 1618-1648* John Pike, 2023-02-16 The Defenestration of Prague the coup d etat staged by Protestant Bohemian nobles against officials of the Hapsburg Emperor triggered the Thirty Years War When Habsburg Spain intervened in support of their Holy Roman Emperor relative what had started as a localised political and religious dispute in Germany transformed into a European and global conflict In seeking to exploit the Bohemian revolt Spanish Habsburg revanchist ambitions directed by the Spanish Count of Olivarez at the economically powerful Dutch Republic were allied with the Habsburg Emperor s counter reformation ambitions After the Bohemian defeat at the White Mountain in 1620 the war widened as the Dutch Republic England Transylvania Denmark Sweden and Richelieu s France all intervened to roll back Habsburg hegemony and restore the balance power There was extensive fighting across the globe as the Dutch and English sought to challenge the Spanish Habsburg global monopoly These colonial wars were a major factor in the Iberian revolutions with brought down the Habsburg Imperium Professor Charles Boxer called it the first world war It was a tragic war of attrition but also an epic story of remarkable individuals including the titans of the era Imperial General Wallenstein warrior King Gustavus sinister Count Olivarez and the masters of international intrigue realpolitik and diplomacy Cardinals Richelieu and Mazarin Above all there were the decisive victories of the under sung military genius of the era Lennart Torstensson The Treaties of Westphalia followed a war which not only changed the global balance of power but accelerated over thirty years the transformation of the European continent from a world characterized by dynasties and the medieval concept of United Christendom to a European order that was recognisably modern **The Thirty Years War** Peter H. Wilson, 2010-10-26 An edited and annotated collection of translated documents on the Thirty Years War providing students with accessible source material on this destructive conflict Covering all aspects of the war from a variety of contemporary perspectives it brings together an exciting range of material from treaties to literature to eyewitness accounts The Thirty Years War , 2009-03-15 The Thirty Years War A Documentary History fills a gap in recent studies of the great pan European conflict providing fresh translations of thirty eight primary documents for the student and general reader The selections are drawn from the standard political documents from the Apology of the Bohemian Estates for the Defenestration of Prague to the text of the Treaty of Westphalia as well as from imperial edicts trial records letters diary entries and satirical broadsheets all directly translated from the Early New High German French Swedish and Latin The volume contains some ten illustrations and one map and on the whole is well organized and well

presented with a judicious amount of footnotes and a slim For Further Reading section A succinct introduction introduces the four sections each with its own substantial introduction 1 Outbreak of the Thirty Years War 1618 1623 2 The Intervention of Denmark and Sweden 1623 1635 and 3 The Long War 1635 1648 The concluding section 4 Two Wartime Lives 1618 1648 interestingly juxtaposes the journals of a wandering mercenary and a settled townsman The first is the diary of Peter Hagendorf kept between the years 1624 and 1649 and only rediscovered in 1993 Hagendorf experienced the war as a common mercenary from the Baltic to Italy from France to Pomerania His counterpart is Hans Heberle a shoemaker from a small town in the territory of the free imperial city of Ulm whose Zeytregister chronicled happenings both in the neighborhood and further afield The engrossing accounts of their shifting fortunes over the three decades of the war really help to give this collection of texts and the troublesome period itself a human face They are the stuff from which Grimmelshausen would craft his great novel of the war The Adventuresome Simplicissimus 1668 Tryntje Helfferich is to be applauded for this consistently interesting and eminently useful volume Martin W Walsh University of Michigan in Sixteenth Century Journal **The Essential Thirty Years War** Tryntje Helfferich, 2015-03-05 This abridgment of Tryntje Helfferich's acclaimed 2009 anthology The Thirty Years War features an expanded General Introduction and annotation designed to support student readings in swift moving surveys of European and World history The Age of Firepower John Pike, 2025-07-02 An immersive account of 17th century warfare during the Thirty Years War A graphic study of military and military revolution in the pivotal 17th century in the context of the Thirty Years War shown by dramatic battle scenes personal heroic and tragic for all levels of society and all strikingly brought to life The first world war in Europe was a global conflict showing that early modern war despite the Enlightenment argument which contrasts medieval military brutality with modern mores early modern warfare was full of horror and innocent suffering reinforced modern weaponry and state support With striking quotes from commanders to foot soldiers readers feel involved and the story moves from battle field tactics to strategy Grand Strategy and international relations Here is the modern military state at the heart of the 17th century military evolution and revolution leading to modern and contemporary international warfare **The Story of War** Anna Maria Forssberg, 2017-03-15 O God we thank thee was sung in the churches of France and Sweden after military victories in the seventeenth century To celebrate Thanksgiving was a way of thanking God but also a way for the rulers to legitimize the ever ongoing wars For the inhabitants it was both an occasion for festivity and a way of getting information about what happened in the battlefield Yet the image given was selective Bloody defeats and uneventful everyday life was replaced by spectacular victories and royal glory Even though the rituals in the two countries were similar in some ways there were also substantial differences The propaganda formulated a narrative about what war actually was and what role the rulers and their subjects should play In the crisis of 1709 this narrative was profoundly challenged The book investigates how war events were communicated to the inhabitants of France and Sweden in the seventeenth century by the Church and especially through

days of thanksgiving called Te Deum in France [A Concise History of Germany](#) Mary Fulbrook,2019-01-03 This third edition of Mary Fulbrook's much admired and popular introduction to German history provides a clear and informative guide to the twists and turns of the story of the German lands and peoples from the early middle ages to the present day Crisply synthesising a vast array of historical material Fulbrook explores the interrelationships between social political and cultural factors in the light of scholarly controversies Since the second edition in 2004 there have been important changes in Germany Europe and the wider world This new edition features a significantly expanded chapter on Germany since 1990 encapsulating recent and dramatic developments that have transformed Germany's character and international standing This single volume history of Germany offers broad and accessible coverage and provides a useful guide for students general readers travellers to Germany and anyone with an interest in German history **Beyond the Battlefield** Tryntje Helfferich,Howard Louthan,2023-12-22 This volume draws together an international team of scholars to explore the experience and significance of early modern European continental warfare from an interdisciplinary perspective Individual essays add to the lively fields of War and Society and the New Military History by combining the history of war with political and diplomatic history the history of religion social history economic history the history of ideas the history of emotions environmental history art history musicology and the history of science and medicine The contributors address how warfare was entwined with European learning culture and the arts but also examine the ties between warfare and ideas or ideologies and offer new ways of thinking about the costs and consequences of war In addition to its interdisciplinarity the volume is distinctive in including chapters focused not only on Western and Central Europe but also the often ignored European peripheries such as the Baltics and the Russian frontier Scandinavia and the Habsburg Ottoman borderlands of Southeastern Europe As a whole the volume offers readers interesting alternatives and threads for reconsidering the place and meaning of warfare within the larger history of early modern continental Europe This book will be valuable for general readers undergraduate and graduate students and scholars interested in military early modern and European history [The Business of War](#) David Parrott,2012-03-08 This book offers a substantial reconsideration of early modern warfare and its relationship to the power of the state *Female Monasticism in Early Modern Europe* Cordula van Wyhe,2017-03-02 This volume of twelve interdisciplinary essays addresses the multifaceted nature of female religious identity in early modern Europe By dismantling the boundaries between the academic disciplines of history art history musicology and literary studies it offers new cross cultural readings essential to a more comprehensive understanding of the complexity of female spirituality in the sixteenth and seventeenth centuries Utilising a wide range of archival material encompassing art architecture writings and music commissioned or produced by nuns the volume's main emphasis is on the limitations and potentials created by the boundaries of the convent Each chapter explores how the personal and national circumstances in which the women lived affected the formation of their spirituality and the assertion of their social and political authority Consisting of four sections

each dealing with different parts of Europe and discussing issues of spiritual and social identity such as Femininity and Sanctity Convent Theatre and Music Making Spiritual Directorship and Community and Conflict this compelling collection offers a significant addition to a thriving new field of study Witnessing the Revolutionary and Napoleonic Wars in German Central Europe L. James, 2013-10-31 Drawing on a wide range of primary sources this volume argues that although the Revolutionary and Napoleonic Wars are often understood as laying the foundations for total war many eyewitnesses continued to draw upon older interpretative frameworks to make sense of the armed struggle and attendant political and social upheaval The Internationalists Oona Anne Hathaway, Scott J. Shapiro, 2017-09-12 A bold and provocative history of how an overlooked 1923 treaty was among the most transformative events in modern history On a hot summer afternoon in 1928 the leaders of the world assembled in Paris to outlaw war Within the year the treaty signed that day known as the Peace Pact had been ratified by nearly every state in the world War for the first time in history had become illegal the world over But the promise of that summer day was fleeting Within a decade of the signing of the Pact each state that had gathered in Paris to renounce war was at war And in the century that followed the Peace Pact was dismissed as an act of folly and an unmistakable failure This book argues that that understanding is inaccurate and that the Peace Pact ushered in a sustained march toward peace that lasts to this day This book tells the story of the Peace Pact by placing it in the long history of international law from the seventeenth century through the present It details the brutal world of conflict the Peace Pact helped extinguish and the subsequent era where tariffs took the place of tanks Accessible and gripping this hook will change the way we view the history of the twentieth century and show how we must work together to protect the global order the internationalists fought to make possible Jacket **Renaissance Mass Murder** Stephen D. Bowd, 2018 Renaissance Mass Murder explores the devastating impact of war on the men and women of the Renaissance In contrast to the picture of balance and harmony usually associated with the Renaissance it uncovers in forensic detail a world in which sacks of Italian cities and massacres of civilians at the hands of French German Spanish Swiss and Italian troops were regular occurrences The arguments presented are based on a wealth of evidence histories and chronicles poetry and paintings sculpture and other objects which together provide a new and startling history of sixteenth century Italy and a social history of the Italian Wars It outlines how massacres happened how princes soldiers lawyers and writers justified and explained such events and how they were represented in contemporary culture On this basis Renaissance Mass Murder reconstructs the terrifying individual experiences of civilians in the face of war and in doing so offers a story of human tragedy which redresses the balance of the history of the Italian Wars and of Renaissance warfare in favour of the civilian and away from the din of battle This volume also places mass murder in a broader historical context and challenges claims that such violence was unusual or in decline in early modern Europe Finally it shows that women often suffered disproportionately from this violence and that immunity for them as for their children was often partially developed or poorly respected **Violence and War in Culture**

and the Media Athina Karatzogianni, 2013-06-17 This edited volume examines theoretical and empirical issues relating to violence and war and its implications for media culture and society Over the last two decades there has been a proliferation of books films and art on the subject of violence and war However this is the first volume that offers a varied analysis which has wider implications for several disciplines thus providing the reader with a text that is both multi faceted and accessible This book introduces the current debates surrounding this topic through five particular lenses the historical involves an examination of historical patterns of the communication of violence and war through a variety sources the cultural utilises the cultural studies perspective to engage with issues of violence visibility and spectatorship the sociological focuses on how terrorism violence and war are remembered and negotiated in the public sphere the political offers an exploration into the politics of assigning blame for war the influence of psychology on media actors and new media political communication issues in relation to the state and the media the gender studies perspective provides an analysis of violence and war from a gender studies viewpoint Violence and War in Culture and the Media will be of much interest to students of war and conflict studies media and communications studies sociology security studies and political science *Ireland: 1641* Micheál Ó Siochrú, Jane Ohlmeyer, 2016-05-16 The 1641 rebellion is one of the seminal events in early modern Irish and British history Its divisive legacy based primarily on the sharply contested allegation that the rebellion began with a general massacre of Protestant settlers is still evident in Ireland today Indeed the 1641 massacres like the battles at the Boyne 1690 and Somme 1916 played a key role in creating and sustaining a collective Protestant British identity in Ulster in much the same way that the subsequent Cromwellian conquest in the 1650s helped forge a new Irish Catholic national identity Following a successful hardback edition Siochr and Ohlmeyer s popular title is now available in paperback The original and wide ranging themes chosen by leading international scholars for this volume will ensure that this edited collection becomes required reading for all those interested in the history of early modern Europe It will also appeal to those engaged in early colonial studies in the Atlantic world and beyond as the volume adopts a genuinely comparative approach throughout examining developments in a broad global context **Furies** Lauro Martines, 2014-09-23 A forefront Italian Renaissance historian and author of *Fire in the City* evaluates darker aspects of the Renaissance including the military forces that ravaged Europe and shaped the transition from the Middle Ages to modernity exploring how massive mobile armies consumed resources spread disease and innovated violent new weapons *War Stories* Philip Dwyer, 2016-11-01 Although war memoirs constitute a rich varied literary form they are often dismissed by historians as unreliable This collection of essays is one of the first to explore the modern war memoir revealing the genre s surprising capacity for breadth and sophistication while remaining sensitive to the challenges it poses for scholars Covering conflicts from the Napoleonic era to today the studies gathered here consider how memoirs have been used to transmit particular views of war even as they have emerged within specific social and political contexts Faith in War Nikolas M. Funke, 2024-08-01 While the social and cultural history of the early modern military has

greatly advanced in the last few decades the religious dimension of the military life in the Holy Roman Empire between 1500 and 1650 has hardly been explored The Reformation brought profound political social and cultural upheavals but the religiosity of the men and women who followed the Christian life in the chaos of war still represents a large gap in the historiography Faith in War shows that confessional antagonisms lost much of their meaning during war and coexistence became a fact of army life Connecting military and civilian social and cultural history in these ways Nikolas Funke's case study on this period brings new life to important current historiographical discussions in a military context including stereotyping confessionalization social discipline deviance toleration religious violence and the culture of death

History of Law and Other Humanities.Views of the legal world across the time Valerio Massimo Minale, Virginia Amorosi, 2019-07-09 The collection of essays presented here examines the links forged through the ages between the realm of law and the expressions of the humanistic culture We collected thirty five essays by international scholars and organized them into sections of ten chapters based around ten different themes Two main perspectives emerged in some articles the topic relates to the conventional approach of law and in humanities iconography literature architecture cinema music other articles are about more traditional connections between fields of knowledge in particular philosophy political experiences didactics We decided not to confine authors to one particular methodological framework preferring instead to promote historiographical openness Our intention was to create a patchwork of different approaches with each article drawing on a different area of culture to provide a new angle to the history being told The variety of authorial nationalities gives the collection a multicultural character and the breadth of the chronological period it deals with from antiquity to the contemporary age adds further depth of insight As the element that unites the collection is historiographical interpretation we wanted to bring to the fore its historical depth Thus for every chapter we organized the articles in chronological order according to the historical context covered Looking at the final outcome it was interesting to learn that more often than not the connection between law and humanities is not simply a relation between a specific branch of the law and a single field of the humanities but rather a relation that could be developed in many directions at once involving different fields of knowledge and of arts and popular culture We are grateful to Luigi Lacch for his contribution to this collection His essay outlines the coordinates of the law and humanities world laying out the instruments necessary for an understanding of the origins of a complex methodology and the different approaches that exist within it This project is the result of discussions that took place during the XXIII Forum of the Association of Young Legal Historians held in Naples in the spring of 2017 The book was made possible thanks to the advice and support of Cristina Vano The Editors

Embark on a breathtaking journey through nature and adventure with is mesmerizing ebook, **Eyewitness Accounts Of The Thirty Years War 1618 48** .
