Essence 1948 and Island 1962 to reveal the extent to which Huxley's prognoses into our possible futures was prophetic. The author assesses each novel to reveal the foresights that define our current educational, social, religious, political, and economic institutions while also exposing our conflicts within those institutions. This volume examines the educational, cultural, and technological changes that have shaped our society since Huxley's work with special reference to the enduring legacy of educational philosopher John Dewey. It offers profound insights into the educational forces and moral foundations of our society that shape us both inside and outside of our schools. It is the first of its kind to focus exclusively on all three of Huxley's visionary novels and detail their relevance to our world today. *The Critical Shusterman* Richard Shusterman, 2025-06-01

Collecting sixteen key texts on a broad range of key philosophical topics enables readers to perceive the scope of Shusterman's philosophy and appreciate its systematic aspects. Richard Shusterman is one of today's foremost philosophers. His influential and widely translated work is distinctive for its originality and its integration of multiple philosophical perspectives: analytic philosophy, phenomenology, hermeneutics, critical theory, and East Asian thought to create a new transcultural pragmatist vision. Although most famous for his groundbreaking writings in aesthetics, somatic philosophy, and philosophy as an art of living, these texts are integrally connected with Shusterman's vital views on ontology, epistemology, and philosophy of mind, ethics, and politics. Collecting sixteen key texts on this broad range of topics, *The Critical Shusterman* enables readers to perceive the scope of Shusterman's philosophy and appreciate its systematic aspects. Editor Crispin Sartwell's superb introduction highlights those aspects in assessing Shusterman's thought in the context of contemporary philosophy while suggesting ways that Shusterman's project could be developed in the future.
