**Globalization, Women, and Health in the Twenty-First Century** I. Kickbusch, K. Hartwig, J. List, 2005-12-10 We are still only beginning to understand the increasingly complex set of interdependencies among gender, health, and globalization. This book brings together a diverse group of distinguished scholars and activists to explore the new risks and freedoms for men and women in a global society and their health determinants. They map the gendered impact of these processes and present a health landscape that takes us beyond nation states into trans-border flows of capital, people, goods, and services. Each chapter begins with a global analysis of specific trends followed by two 'In Perspective' pieces by authors from contrasting disciplines and geographies.

**Simon Gray Unbound** Peter Wolfe, 2014-01-10 The work of English playwright Simon Gray (1936-2008) has always resisted ideological and stylistic labels. His artistic independence has also had an unwelcome side effect: it cost him the critical attention garnered by his peers. This book, the first monograph on Gray, examines his oeuvre from the early plays which hack away at the formalism and humanism of traditional English satire to the later ones in which he explores English professionals and their problems connecting with each other. If Gray remains the least known major English dramatist of his day, he's also one of the boldest and best.

**The Federal Nation** I. Morgan, P. Davies, 2008-12-08 This volume gathers contributors from both the US and UK to provide a comparative examination of federalism in the Bush era, a period of huge change in national politics but also one of significant shifts in US federalism in relation to social and socioeconomic issues.

**Pinter's World** William Baker, 2018-09-15 *Pinter's World* is not a full-scale biography but a series of illuminating chapters about Pinter's life, character, and thought, employing new information found in his Appointment Diaries, recent biographical sources such as Simon Gray's memoirs and Henry Woolf's reminiscences, in addition to personal discussions with several in Pinter's world. This book provides a fresh illumination of Pinter's life and art: his friendships, obsessions, and concerns. Material is arranged around themes: key concerns, Pinter's activities, Pinter's meetings and endeavors, for instance, with whom he met and when, when he wrote what and when, and his perspective at the time are documented. This work explores Pinter's writing.

drama poetry prose journalism and letters which are here regarded as part of his aesthetic achievement Pinter's World Pinter and Company presents a pointillist portrait of him through examining central concerns in his life These encompass an obsession with the theater and games delight in restaurants demonstrating that Pinter is far removed from the socially awkward isolated figures populating his early work and the women in Pinter's world Other areas examined include Pinter's political engagement from his adolescence to his last years and the literary and other creative influences upon him This work draws upon consultation of his papers at the British Library including letters to others especially close friends with whom he kept close contact for over half a century These letters should be regarded on par with his other creative accomplishments Pinter was a fascinating letter writer whose letters reveal thoughts at the time of writing often in abrupt most colorful idiomatic language His Appointment Diaries cannot reveal what actually occurred during his meetings but they do provide a guide to what he did on a daily basis and whom he met Memories from his friends his professional colleagues cricket players and his second wife Antonia Fraser illuminate Pinter's personality and actions Pinter's first literary love was poetry and unlike most other Pinter studies this one gives attention to his neglected poetic output that often reveals the real Pinter and the enigma that is at the heart of every great artist

Anthropology of Tobacco Andrew Russell, 2019-03-04 Tobacco has become one of the most widely used and traded commodities on the planet Reflecting contemporary anthropological interest in material culture studies Anthropology of Tobacco makes the plant the centre of its own contentious global story in which instead of a passive commodity tobacco becomes a powerful player in a global adventure involving people corporations and public health Bringing together a range of perspectives from the social and natural sciences as well as the arts and humanities Anthropology of Tobacco weaves stories together from a range of historical cross cultural and literary sources and empirical research These combine with contemporary anthropological theories of agency and cross species relationships to offer fresh perspectives on how an apparently humble plant has progressed to world domination and the consequences of it having done so It also considers what needs to happen if as some public health advocates would have it we are seriously to imagine a world without tobacco This book presents students scholars and practitioners in anthropology public health and social policy with unique and multiple perspectives on tobacco human relations

**Learning to Smoke** Jason Hughes, 2003-02-15 Why do people smoke Taking a unique approach to this question Jason Hughes moves beyond the usual focus on biological addiction that dominates news coverage and public health studies and invites us to reconsider how social and personal understandings of smoking crucially affect the way people experience it Learning to Smoke examines the diverse sociological and cultural processes that have compelled people to smoke since the practice was first introduced to the West during the sixteenth century Hughes traces the transformations of tobacco and its use over time from its role as a hallucinogen in Native American shamanistic ritual to

its use as a prophylactic against the plague and a cure for cancer by early Europeans and finally to the current view of smoking as a global pandemic He then analyzes tobacco from the perspective of the individual user exploring how its consumption relates to issues of identity and life changes Comparing sociocultural and personal experiences Hughes ultimately asks what the patterns of tobacco use mean for the clinical treatment of smokers and for public policy on smoking Pointing the way then to a more learned and sophisticated understanding of tobacco use this study will prove to be essential reading for anyone interested in the history of smoking and the sociology of addiction *The Tobacco Atlas* Judith Mackay, Michael P.
