Howe, 2023-05-03 Where the Waves Fall 1984 centres the stories of the Pacific Islanders and how they were affected by

European explorers and colonisers in this unique account of human settlement and cultural interchange in the Pacific islands. It follows the fortunes of the seafarers who discovered island after island in the world's largest ocean, traces the development of their civilisations and examines in depth the interaction between them and the newcomers: European explorers, traders, beachcombers, missionaries, merchants who from the sixteenth century came in an increasing series of waves. The book's framework enables the author to throw new light on hitherto isolated events. Novel suggestions are advanced as to why some islands became kingdoms in the earlier years of European contact and why others did not, and of how and why missionaries were accepted on some islands but not on others. Nor does Professor Howe shrink from provocative and at times controversial arguments concerning the ambitions and strategies of island leaders and indeed the overall nature and extent of the initiatives taken by the islanders.

The Boardman, 1947 *European Perceptions of Terra Australis* Alfred Hiatt, Christopher Wortham, 2016-04-22

Terra Australis, the southern land, was one of the most widespread concepts in European geography from the sixteenth to the eighteenth centuries, although the notion of a land mass in the southern seas had been prevalent since classical antiquity. Despite this fact, there has been relatively little sustained scholarly work on European concepts of Terra Australis or the intellectual background to European voyages of discovery and exploration to Australia in the eighteenth and nineteenth centuries. Through interdisciplinary scholarly contributions ranging across history, the visual arts, literature and popular culture, this volume considers the continuities and discontinuities between the imagined space of Terra Australis and its subsequent manifestation. It will shed new light on familiar texts, people and events such as the Dutch and French explorations of Australia, the Batavia shipwreck and the Baudin expedition by setting them in unexpected contexts and alongside unfamiliar texts and people. The book will be of interest to, among others, intellectual and cultural historians, literary scholars, historians of cartography, the visual arts, women's and post-colonial studies.

Tales of Nomadic Adventures Hseham Amrahs, 2023-12-31

The stories encapsulated in this anthology are windows into the nomadic world, a realm where every step is a dance with the unpredictable, every encounter is a brush with the extraordinary, and every horizon is an invitation to explore the unknown. Each tale is a thread in the grand tapestry of nomadic lore, weaving together the experiences of those who have roamed the earth in search of freedom, wisdom, and the thrill of the undiscovered. As you delve into these narratives, you will traverse scorching deserts with Mirage Nomads, witness audacious archery challenges with Thunder striders, and join the rebellion with Liberation Nomads in the Unbridled Wastes. The nomads you encounter will be both familiar and foreign, embodying the diversity of cultures, landscapes, and challenges that define the nomadic way of life. The allure of nomadism lies not only in the physical landscapes explored but also in the internal odysseys undertaken by these wanderers. Nomads navigate not only the external terrains of mountains, jungles, and oceans but also the vast landscapes within themselves: their fears, aspirations, and the eternal pursuit of freedom.
