**The American State Reports** Abraham Clark Freeman, 1908      Distillations Mari Ruti, 2018-08-23 Distilling into concise and focused formulations many of the main ideas that Mari Ruti has sought to articulate throughout her writing career this book reflects on the general state of contemporary theory as it relates to posthumanist ethics political resistance subjectivity agency desire and bad feelings such as anxiety It offers a critique of progressive theory s tendency to advance extreme models of revolt that have little real life applicability The chapters move fluidly between several theoretical registers the most obvious of these being continental philosophy psychoanalytic theory Butlerian ethics affect theory and queer theory One of the central aims of *Distillations* is to explore the largely uncharted territory between psychoanalysis and affect theory which are frequently pitted against each other as hopelessly incompatible but which Ruti shows can be brought into a productive dialogue
