

External Danger and Democracy

*Old Nordic Lessons and
New European Challenges*

Hans Mouritzen

External Danger And Democracy

Yijin Wang

External Danger And Democracy:

External Danger and Democracy Hans Mouritzen, 1997 Nordic democracies have been impressively able to survive and cope with external danger during and after World War II paradoxically through the curtailment of democracy According to sociological theory external danger typically leads to internal cohesion and centralization This book investigates how far the general theory reaches beyond the classic Nordic cases Is the theory also relevant in the face of dangers prevailing in post Cold War Europe What about the danger to the basic autonomy of EU members from the European Union that they have chosen to join voluntarily Although the EU including its Commission is a peculiar entity in a historical perspective it actually tends to encourage a good deal of conventional danger responses at the national level top level centralization of decision making bureaucratic centralization and party cohesion Not least the Nordic countries seem to apply their classic danger lessons a bit uncritically during the new circumstances

Existential Threats and Civil-security Relations Oren Barak, Gabriel Sheffer, 2009-01-01 At the onset of the twenty first century a substantial portion of politicians and citizens throughout the world believe and declare that their states are facing existential threats whether domestic external or both This perception is discerned in states categorized widely from not democratic and partially democratic states to small states and greater powers that are considered to be democratic such as the United States Britain and France The chapters in this book present and further develop the major theoretical approaches to existential threats structural cultural and rational The authors also conceptualize existential threats and distinguish them from other types of threats discussing some of the most important actors that promote the perception of an existential threat the security sector especially the military and the other security agencies but also the media Existential Threats and Civil Security Relations provides fresh comparative perspectives on a number of relevant cases including small states that have faced or still face similar predicaments These include effective democracies such as the United States in its formative period and Switzerland formal democracies such as Israel and Finland authoritarian or partially free states that have transformed into formal democracies such as South Korea Taiwan South Africa and the East European and Baltic states after the Cold War and states that have remained partially free like Singapore and some formerly Soviet states

Democracy Under Threat Surendra Munshi, 2017-02-11 Much seems to be going wrong with democracy at present The global advance of democracy is stalled and what is worse cynicism about democracy is growing Recent events in such diverse places as Turkey and the Philippines the Brexit vote and the election rhetoric of Donald Trump raise questions about the future of democracy Presenting papers by academics diplomats journalists political leaders and other thought leaders from different parts of the world Democracy under Threat considers challenges to functioning democracies from within and outside It highlights deficiencies of leadership and institutions and the threats posed not only by populism caudillism and dynastic rule but also by the spread of authoritarianism and its spirit

Puzzles of the Democratic Peace K. Rasler, W. Thompson, 2016-01-26 Ever since the revival of Kant's Perpetual Peace thesis the linkages

between democracy and peace has been a central topic in international relations research with sustained debate over whether it exists and if it does why it does In this stimulating volume two leading IR scholars place the democratic peace debate within a broader context including the extent of threats in international relations degree of satisfaction with the status quo the diffusion of democracy and the rise of the trading state Step by step Thompson and Rasler examine the democratic peace through a series of puzzles concerning arguments at the dyadic systemic and individual state levels Synthesizing a broad range of knowledge and linking islands of theory *Puzzles of the Democratic Peace* provides a distinctive look at the state of the field and paths forward **Civil-Military Relations and Democracy** Larry Diamond, Marc F. Plattner, 1996-10-17 Based on a conference held in Washington DC 13-14 Mar 1995 *Democracy in Danger* Jake Braun, 2019-09-15 Protecting the Vote When cybersecurity expert Jake Braun challenged hackers at DEFCON the largest hacking conference in the world to breach the security of an American voting machine a hacker in Europe conquered the task in less than 2 minutes From hacking into voting machines to more mundane but no less serious problems our democracy faces unprecedented tests from without and within In *Democracy In Danger* Braun a veteran of 3 presidential campaigns and former White House Liaison to the Department of Homeland Security reveals what the national security apparatus local election administrators and political parties have gotten wrong about election security and what America needs to do to protect the ballot box in 2020 and beyond *Democracy and Economic Openness in an Interconnected System* Quan Li, Rafael Reuveny, 2009-07-31 Li and Reuveny use an interdisciplinary social scientific approach to investigate today's key political economic and environmental issues *Militarization, Democracy, and Development* Kirk S. Bowman, 2010-11-01 Do Third World countries benefit from having large militaries or does this impede their development Kirk Bowman uses statistical analysis to demonstrate that militarization has had a particularly malignant impact in this region For his quantitative comparison he draws on longitudinal data for a sample of 76 developing countries and for 18 Latin American nations To illuminate the causal mechanisms at work Bowman offers a detailed comparison of Costa Rica and Honduras between 1948 and 1998 The case studies not only serve to bolster his general argument about the harmful effects of militarization but also provide many new insights into the processes of democratic consolidation and economic transformation in these two Central American countries **A Pure Theory of Democracy** Antonio García-Trevijano, 2009 This is not a democracy Antonio García-Trevijano denounces in the first pages of this book To confront the great lie that Europe does have democratic regimes a lie rooted in people's confounding of the liberties they enjoy with the political freedom that they lack the author builds a realistic theory of democracy to end the false idea that corruption state crime and public immorality are democracy's undesirable products and not the natural and inevitable fruits of oligarchic regimes Thanks to a superb review of the events that mark the history of democracy the author reveals the obstacles that from the 17th century English revolution the United States War of Independence and the French Revolution opposed political freedom

deviating old Europe's democratic possibilities toward the current parties state. There exist important theories of the state and of constitution but none that can be called a theory of democracy. Antonio García Trevijano's original theory, a modern synthesis of Rousseau's pure democracy and Montesquieu's political freedom, responds to European need for a theory of democracy as a real alternative to the corrupted parties regime that was engendered by Western pragmatism during the Cold War. *Constitutional Democracy in a Multicultural and Globalised World* Thomas Fleiner, Lidija Basta Fleiner, 2009-01-31. After World War II states transformed into collective fortresses in order to protect competing ideological systems. The debate on post modern statehood heavily built on ideological disputes between liberalism and communism over the nature of the economic and social system and the state and government that could sustain such a system. What is an ideologically acceptable state concept which tasks and functions should the state fulfil and how to legitimate not only democratic but also authoritarian and even totalitarian regimes. These questions were at the very centre of state theory. However after the fall of communism in Europe and the former Soviet Union the discourse of state and government scholarship radically changed. The need for a profound shift in the state paradigm was emerging. The time after 1989 seemed to proclaim that the nation state had lost its raison d'être as an island of undisputed and unlimited sovereignty. A globalised world order broke open the fortress state that developed within the tradition of European constitutionalism. Given the simultaneous structural changes to the nation state's foundations socio economic and political reforms going hand in hand with new constitutional designs the state in transition started paving the way towards a new state paradigm and not only with regard to the states in the process of democratic transformation from socialist into liberal constitutional democracies.

General Housing Legislation, Hearings Before a Subcommittee of ..., 81-1 on S. 138, S. 685, S.686 ..., February 3 .. 212, 1949 United States. Congress. Senate. Committee on Banking and Currency, 1949. *The Waning of Major War* Raimo Vayrynen, 2013-10-31. This book is a systematic effort by leading international scholars to map the trends in major power warfare and explore whether it is waxing or waning. The main point of departure is that major power war as a historical institution is in decline. This does not mean though that wars between states are in general disappearing. While there is some convergence in the conclusions by individual authors they are by no means unanimous about the trend. The articles explore different causes and correlates of the declining trend in major power warfare including the impact of the international structure, nuclear weapons, international law, multilateral institutions, sovereignty and value changes. **The Challenges of European Governance in the Age of Economic Stagnation, Immigration, and Refugees** Henry F. Carey, 2016-12-20. This book examines the political and legal challenges of regional governance of the 28 countries of the European Union and the 48 in the Council of Europe. The contributions' dilemmas and moral hazards from this record of nearly seven decades of regional inter governmental institutions has kept the peace but produced episodes of crisis from overstretching jurisdictions thematically and geographically. Polarization between nationalist and integrative forces has

displaced the idealistic aspirations of prior decades to build the rule of law and deter violence. Academics and policy makers will learn from the various legal and political efforts to integrate supranational and inter governmental agencies with national political systems. The Crisis of Liberal Democracy and the Path Ahead Bernd Reiter, 2017-08-24. Political representation and democracy are at odds and we need new models to organize politics without relying so heavily on elected representatives. Similarly, capitalism undermines markets as the rich and wealthy shield their assets and make them untenable for average earners. Elitism thus undermines both democracy and markets and we need to devise ways to limit the power of professional politicians as well as the asset holdings of the rich so that the goods they hold can re-enter general markets. A broad array of institutions and laws have been enacted in different places and at different times to block economic elitism and protect democratic self-rule. This book presents a number of such cases, historical as well as contemporary, where solutions to the problem of political and economic elitism have successfully been practiced. It then compares these cases systematically to determine the common factors and hence the necessary conditions for ensuring and protecting self-rule and equal opportunity. This book encourages the idea that alternatives to representative capitalist democracy are possible and can be put to practice. **Problems of Independent Small Business, Lustron Dealers** United States. Congress. Senate. Committee on Banking and Currency. Subcommittee on Small Business, 1950.

Democracy at Risk Yvette M. Alex-Assensoh, 2005-08-26. Documents how recent trends in civic engagement have been shaped by political institutions and public policies and recommends ways to increase the amount, quality, and distribution of civic engagement, focusing on elections, the metropolis, and the nonpr. St. Thomas' Political Doctrine and Democracy Edward Francis Murphy, 1921.

Taiwan's Democracy Robert Ash, John W. Garver, Penelope Prime, 2013-07-03. Taiwan's rapid industrialization during the 1960s and 1970s combined with the democratic revolution that began with the lifting of martial law in 1987 were of deep historic importance. Over the next decade, Taiwan's political miracle matched its earlier economic miracle, creating a vibrant liberal democracy complete with freedom of speech, association, and assembly, rule of law, and competitive and fair multi-party elections. The continuation of these achievements and the new challenges that have surfaced are addressed in rich detail in the chapters of this volume by an international team of experts. One of the biggest such challenges is Mainland China's economic success, which has added to the complexity of Taiwan's economic and political policy options. A number of the contributors to this volume consider Taiwan's response to China's economic rise and show how Taiwanese companies have strategically taken advantage of the changing economic environment by moving up the value chain of production within Taiwan while also taking the opportunity to invest overseas. With chapters covering a wealth of topics including Constitutional reform, National identity, Party politics, Taiwan's development model, Industrial policy, Trade and investment, Globalization, Sustainable development, Taiwan's Democracy will be of huge interest to students and scholars of Taiwan studies, Chinese politics and economics, international politics and economics, and development studies. **Security in 21st**

Century Europe Andrew Cottey, 2025-05-01 The nature of security in Europe has been transformed in recent years Security in 21st Century Europe argues that the defining feature of contemporary European security is the existence of a security community underpinned by the twin institutions of the EU and NATO but that today the European security community NATO and the EU face a growing array of external challenges and their ability to respond to those challenges is increasingly being called into question Offering a systematic assessment of security in contemporary Europe this third edition examines the changing character of European security and assesses the extent of the threats posed by recent challenges as well as the policy dilemmas involved in responding to these challenges It explores Europe's engagement with core thematic issues in European security including military intervention nuclear weapons terrorism and non military security Providing both a substantive contribution to academic thinking on European security and a overview of debates on contemporary European security this new edition offers 3 new chapters on migration climate change and cybersecurity Coverage of all recent major developments related to European security including the Syrian civil war and the regional destabilization arising from it Russia Ukraine crisis the rise of populism the migration crisis the acceleration of China's rise Security in 21st Century Europe combines theory and detailed empirical analysis exploring both how different theoretical perspectives can help us think about European security and concrete empirical developments in European security policies and institutions This text is the perfect companion for advanced undergraduate and Master's level courses on European security whether within courses in Security studies European studies or International Relations

External Danger And Democracy Introduction

In the digital age, access to information has become easier than ever before. The ability to download External Danger And Democracy has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download External Danger And Democracy has opened up a world of possibilities. Downloading External Danger And Democracy provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading External Danger And Democracy has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download External Danger And Democracy. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading External Danger And Democracy. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading External Danger And Democracy, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to

download External Danger And Democracy has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About External Danger And Democracy Books

1. Where can I buy External Danger And Democracy books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a External Danger And Democracy book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of External Danger And Democracy books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are External Danger And Democracy audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores.

Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.

9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read External Danger And Democracy books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
