Exultant Destinys Children 2:

Exultant Stephen Baxter, 2010-06-10 Twenty five thousand years in the future mankind is still locked in its twenty thousand year long war for survival with the Xeelee Billions die every day and mankind's best soldiers are children bred to fight and die The war has gone well but has now stalled at the galaxy's core the Xeelee stronghold And as we fight what we cannot believe will be the final battle the consequences of a war fought in the first few nano seconds after the big bang are coming to fruition Exultant Stephen Baxter, 2004-10-26 Baxter has an uncanny gift for mixing a punchy cyberpunk cynicism with his resolutely hard SF story base *Exultant* rivals Asimov in its boundless vision for the future evolution of humanity Kirkus Reviews starred review For more than twenty thousand years humans have been at war with the alien race of Xeelee Faced with certain death a young pilot Pirius disobeys orders and travels into the future Upon his return Pirius is court martialed and sentenced to penal servitude But it is not only Pirius who pays the price In flying into the future and back again Pirius returned to a time before he'd left a time inhabited by his younger self who also receives punishment Commissary Nilis believes that the elder Pirius whom he dubs Pirius Blue may know how to defeat the Xeelee But Nilis can do nothing for Pirius Blue Instead he takes the younger Pirius Pirius Red back to Earth There Pirius Red will discover truths that shatter his preconceived notions of all that he is fighting for while Pirius Blue will learn even harsher truths But the most shocking revelation of all is still to come Absurdly ambitious technically brilliant and downright exciting SFX Magazine Striking chilling with a triumphant conclusion Starburst Talking Book Topics, 2008 *Searching for Extraterrestrial Intelligence* H. Paul Shuch, 2011-02-14 This book is a collection of essays written by the very scientists and engineers who have led and continue to lead the scientific quest known as SETI the search for extraterrestrial intelligence Divided into three parts the first section The Spirit of SETI Past written by the surviving pioneers of this then emerging discipline reviews the major projects undertaken during the first 50 years of SETI science and the results of that research In the second section The Spirit of SETI Present the present day science and technology is discussed in detail providing the technical background to contemporary SETI instruments experiments and analytical techniques including the processing of the received signals to extract potential alien communications In the third and final section The Spirit of SETI Future the book looks ahead to the possible directions that SETI will take in the next 50 years addressing such important topics as interstellar message construction the risks and assumptions of interstellar communications when we might make contact what aliens might look like and what is likely to happen in the aftermath of such a contact **American Book Publishing Record**, 2005
