Eye Of The Needle Museum Of Jurassic Te:

The Exhibition and Experience Design Handbook Timothy J. McNeil, 2023-04-04 Today's multi-modal participatory exhibitions and attractions are bound by a desire to convey information, excite the viewer and create social and narrative experiences. Without design at the helm and employed effectively, these experiential moments would not become lasting memories that inform and inspire an increasingly sophisticated audience. This full-color illustrated handbook, based on the author's research and expertise as an exhibition designer, educator and critic, is the first title to simultaneously explain how to design exhibitions and attractions successfully, contextualize contemporary exhibition design practice through its historical and theoretical underpinnings, elevate understanding of one of the most rapidly evolving and trans-disciplinary creative disciplines, illuminate exhibition design's contributions to the expanding global market for civic, cultural, commercial and entertainment experiences, and reframe the exhibition design process using a set of recurring tropes and the methods they employ, making this book distinct from other practice-based museological or commercially driven titles. This full-color book with over 250 photographs and drawings uses real-world examples, museum and exhibition design studio profiles, historical and contemporary voices, and draws on the author's own creative practice and exhibition-making experience, as well as contributions from his extensive network of international museum, attraction and design professionals. The author introduces a new methodology for understanding exhibition and experience design, one that elevates understanding of one of the most rapidly evolving and trans-disciplinary creative disciplines. Twelve easy-to-follow illustrated chapters introduce a set of reoccurring exhibition design conventions or tropes that are omnipresent in exhibition-making and can be used to chart a new methodology for understanding exhibition design and its process. **Il museo verso una nuova identità** AA.

VV., 2011-10-21T00:00:00+02:00 I Esperienze museali di nuova concezione in Italia e nel mondo. Questo volume raccoglie gli atti del convegno internazionale di studi "Il museo verso una nuova identità" promosso dall'Assessorato alla Cultura della Regione Lazio e organizzato dalla Scuola di Specializzazione in Storia dell'arte della Sapienza Università di Roma. Nel primo incontro, 31 maggio-2 giugno 2007, sono state discusse alcune tra le esperienze museali più innovative, anche se poco conosciute del nostro tempo, misurate non sulla pietra di paragone della spettacolarità ma sugli indizi di una profonda trasformazione in corso nel rapporto tra il museo, la memoria collettiva affidata al patrimonio culturale delle comunità territoriali e, d'altro lato, la creatività poetica della contemporaneità. Archeologi, storici dell'arte, etnoantropologi, educatori, responsabili istituzionali e politico-amministrativi hanno aperto un confronto con architetti e artisti di diverse discipline impegnati anche nell'uso delle nuove tecnologie per ridisegnare forma e fini del museo di oggi e di domani.
