rethinking occurs in Heidegger's own laterwork. In particular the crossing out of the earlier work in the turn to the later allows us to think being with as essential to a Heideggerian ethics and to rethink the relationship between ethics and politics which previously issued in Heidegger's engagement with Nazism. This rethinking of ethics and politics in light of the originality of being with brings us before a hitherto unnoticed proximity between Heidegger's later work and the Lacanian political thought of Slavoj Žižek; among others it thereby opens up the possibility of a politically progressive Heideggerianism and many unexpected encounters with thinkers generally considered to be separated from Heidegger by an abyss.
