Face Of The Earth World Of Nature:

The Face of the Earth SueEllen Campbell, 2011-07-23 This book examines mirages and satellite images swamp dwelling heroes and Tibetan nomads cave paintings and popular movies investigating how we live with the great shaping forces of nature from fire to changing climates and the intricacies of adaptation The book illuminates subjects as diverse as the literary life of hollow Earth theories the links between the Little Ice Age and Frankenstein's monster and the spiritual allure of deserts and their scarce waters

The Face of the Earth J. Donald Hughes, 2015-05-11 Although the organizing principle of virtually every world history text is development the editor of this volume maintains that this traditional approach fails to address the issue of sustainability By adopting the ecological process as their major theme the authors show how the process of human interaction with the natural environment unfolded in the past and offer perspective on the ecological crises in our world at the beginning of the 21st century Topics range from broad regional studies that examine important aspects of the global environment that affect nations to a study of the widespread influence of one important individual on his nation and beyond The authors take different approaches but all share the conviction that world history must take ecological process seriously and they all recognize the ways in which the living and non living systems of the earth have influenced the course of human affairs

The Spirit Renews the Face of the Earth Amos Yong, 2009-04-01 The twelve chapters here represent both Pentecostal reflections responses to the science religion discussion and Pentecostal contributions to the ongoing exchange by biblical studies specialists historians and theologians among those trained in other disciplines Together the essayists model an actual dialogue in which Pentecostal scholarly reflection is impacted by science religion discourses on the one hand while Pentecostals reach deep into their own tradition to explore how their pre understandings and commitments might enable them to speak with their own voice into pre existing conversations on the other hand From publisher's description

The Face of the Sky and Earth Jeremy Puma, 2007-04 This commentary on The Gospel of Thomas originally appeared in a much truncated form between November of 2003 and March of 2005 on the Fantastic Planet weblog Composed as an attempt to provide a cohesive collection of thoughts and meditations on that most prevalent of Gnostic scriptures I wanted to produce something that would be useful instead of merely interesting something that addressed modern concerns within a Gnostic context by a Gnostic for people interested in Gnosticism

Minding the Earth, Mending the World Susan Murphy, 2014-05-13 Shunryu Suzuki Roshi founded the San Francisco Zen Center in 1962 and after fifty years we have seen a fine group of Zen masters trained in the west take up the mantle and extend the practice of Zen in ways that might have been hard to imagine in those first early years Susan Murphy one of Robert Aitken's students and dharma heirs is one of the finest in this group of young Zen teachers She is also a fine writer and following on the teaching of her Roshi she has engaged her spiritual work in the ordinary world dealing with the practice of daily life and with the struggles of all beings We know that our earth is in crisis but is the situation beyond repair Are we on a path of planetary disaster where the only proper response

is to prepare for our melancholic dystopian future Is there a way out of our suspicious cynicism In the tradition of Thomas Berry using this spiritual opportunity to change the very nature of our crisis Susan Murphy offers a profound message subtly presented with clarity and assurance showing that engaged Buddhism provides a possible path to the necessary repair and healing

Incarnate Earth Matthew Eaton,2023-03-10

Incarnate Earth reimagines the doctrine of Incarnation by extending the unity between Creator and creation beyond Jesus to the entire world In dialogue with contemporary theologies of deep

incarnation and the philosophy of Emmanuel Levinas the author argues that the face of Christ is encountered in the cruciform demand for justice embodied in the creaturely finitude and vulnerability that grounds ethics Central to this vision is a recognition that the religious role functions at the heart of Jesus life the revelation of God and the redemption of the world are performed throughout the physical world irreducible to humanity or one heroic representative of the species Thus the human encounters the divine Christ in and as the face of any vulnerable thing animal vegetal elemental or otherwise not as a transcendent being mediated through humanity The radical nature of this reimagination necessitates renewed discussions of ecological and animal ethics calling for compassionate care for all vulnerable bodies insofar as this is possible It will be of interest to scholars of Christian theology and the philosophy of religion particularly those focused on ecotheology religious naturalism and environmental ethics Human Life and the Natural World Owen Goldin, Patricia Kilroe, 1997-04-07 Human concern over the urgency of current environmental issues increasingly entails wide ranging discussions of how we may rethink the relationship between humans and the rest of the natural world In order to provide a context for such discussions this anthology provides a selection of some of the most important interesting and influential readings on the subject from classical times through to the late nineteenth century Included are such figures as Xenophon Plato Aristotle Hildegard of Bingen St Francis of Assisi Bacon Descartes Kant Mill Emerson and Thoreau As the collection as a whole amply demonstrates the history of western philosophical accounts of nature can help us to better understand current attitudes and problems Human Life and the Natural World may also be of interest to a broad range of philosophers and students of philosophy and more generally to those with a concern for the environment that engages the intellect as well as the heart

Holocaust and Nature Didier Pollefeyt, 2013 This volume makes clear how Nazism was not only an attack on the human species and the Jewish people in particular but also an attack on nature Further it examines the victims of the Holocaust for whom nature was not only a source of supplementary pain but also a source of hope and redemption The book reveals parallels between the attitudes of the bystanders during the Holocaust and us bystanders today watching the ecological disaster with the same passivity The book's unique conclusion will challenge each reader In addition to teaching us to be critical about our concepts of nature as well as to remember the victims the Holocaust also teaches us to become rescuers rather than bystanders in light of the contemporary destruction of nature Series Geschichte des Holocaust Vol 8

Meyer, 1993-01-29 The Earth as Transformed by Human Action is the culmination of a mammoth undertaking involving the examination of the toll our continual strides forward technical and social take on our world The purpose of such a study is to document the changes in the biosphere that have taken place over the last 300 years to contrast global patterns of change to those appearing on a regional level and to explain the major human forces that have driven these changes The first section deals strictly with the major human forces of the past 300
