Touch, Sexuality, and Hands in British Literature, 1740-1901 Kimberly Cox, 2021-09-05 From Robert Lovelace's uninvited hand grasps in Samuel Richardson's *Clarissa* to Basil Hallward's first encounter with Dorian Gray literary depictions of touching hands in British literature from the 1740s to the 1890s communicate emotional dimensions of sexual experience that reflect shifting cultural norms associated with gender roles sexuality and sexual expression But what is the relationship between hands tactility and sexuality in Victorian literature And how do we best interpret what those touches communicate between characters This volume addresses these questions by asserting a connection between the prevalence of violent sexually charged touches in eighteenth century novels such as those by Eliza Haywood Samuel Richardson and Frances Burney and growing public concern over handshake etiquette in the nineteenth century evident in works by Jane Austen the Brontës George Eliot Elizabeth Gaskell Thomas Hardy Oscar Wilde and Flora Annie Steel This book takes an interdisciplinary approach that combines literary analysis with close analyses of paintings musical compositions and nonfictional texts such as etiquette books and scientific treatises to make a case for the significance of tactility to eighteenth and nineteenth century perceptions of selfhood and sexuality In doing so it draws attention to the communicative nature of skin to skin contact as represented in literature and traces a trajectory of meaning from the forceful grips that violate female characters in eighteenth century novels to the consensual embraces common in Victorian and neo Victorian literature

Serial Revolutions 1848 Clare Pettitt, 2022-02-10 1848 was a pivotal moment not only in Europe but in much of the rest of the world too Marx's scornful dismissal of the revolutions created a historiography for 1848 that has persisted for more than 150 years Serial Revolutions 1848 shows how far from being the failure that Karl Marx claimed them to be the revolutions of 1848 were a powerful response to the political failure of governments across Europe to care for their people Crucially this revolutionary response was the result of new forms of representation and mediation until the ragged and the angry could see themselves represented and represented as a serial phenomenon such a political consciousness was impossible By the 1840s the developments in printing transport and distribution discussed in Clare Pettitt's Serial Forms The Unfinished Project of Modernity 1815 1848 Oxford University Press 2020 had made the social visible in an unprecedented way This print revolution led to a series of real and bloody revolutions in the streets of European cities The revolutionaries of 1848 had the temerity to imagine universal human rights and a world in which everyone could live without fear hunger or humiliation If looked at like this the events of 1848 do not seem such poor incidents as Marx described them nor such an embarrassing failure after all Returning to 1848 we can choose to look back on that springtime of the peoples as a moment of tragicomic failure obliterated by the brutalities that followed or we can look again and see it as a proleptic moment of stored potential an extraordinary series of events that generated long distance and sustainable ideas about global citizenship international cooperation and a shared and common humanity which have not yet been fully understood or realised
