women in society *The Foster-child Fantasy* Edmund Smith Conklin,1920 Black Female Sexualities Trimiko Melancon,Joanne M. Braxton,2015-01-26 Western culture has long regarded black female sexuality with a strange mix of fascination and condemnation associating it with everything from desirability hypersexuality and liberation to vulgarity recklessness and disease Yet even as their bodies and sexualities have been the subject of countless public discourses black women s voices have been largely marginalized in these discussions In this groundbreaking collection feminist scholars from across the academy come together to correct this omission illuminating black female sexual desires marked by agency and empowerment as well as pleasure and pain to reveal the ways black women regulate their sexual lives The twelve original essays in *Black Female Sexualities* reveal the diverse ways black women perceive experience and represent sexuality The contributors highlight the range of tactics that black women use to express their sexual desires and identities Yet they do not shy away from exploring the complex ways in which black women negotiate the more traumatic aspects of sexuality and grapple with the legacy of negative stereotypes *Black Female Sexualities* takes not only an interdisciplinary approach drawing from critical race theory sociology and performance studies but also an intergenerational one in conversation with the foremothers of black feminist studies In addition it explores a diverse archive of representations covering everything from blues to hip hop from Crash to Precious from Sister Souljah to Edwidge Danticat Revealing that black female sexuality is anything but a black and white issue this collection demonstrates how to appreciate a whole spectrum of subjectivities experiences and desires **A Midnight Fantasy** Katherine E. Barr,2008 *Afro Future Females* Black Writers Chart Science Fiction s Newest New Wave Trajectory edited by Marleen S Barr is the first combined science fiction critical anthology and short story collection to focus upon black women via written and visual texts The volume creates a dialogue with existing theories of Afro Futurism in order to generate fresh ideas about how to apply race to science fiction studies in terms of gender The contributors including Hortense Spillers Samuel R Delany Octavia E Butler and Steven Barnes formulate a woman centered Afro Futurism by repositioning previously excluded fiction to redefine science fiction as a broader fantastic endeavor They articulate a platform for scholars to mount a vigorous argument in favor of redefining science fiction to encompass varieties of fantastic writing and therefore to include a

range of black women's writing that would otherwise be excluded *Afro Future Females* builds upon Barr's previous work in black science fiction and fills a gap in the literature. It is the first critical anthology to address the blackness of outer space fiction in terms of feminism, emphasizing that it is necessary to revise the very nature of a genre that has been constructed in such a way as to exclude its new black participants. Black science fiction writers alter genre conventions to change how we read and define science fiction itself. The work's main point: black science fiction is the most exciting literature of the nascent twenty-first century.
