**History of the Far East** Hutton Webster, 1923      **The Far East** F. C. Jones, 2014-05-16 The Far East A Concise History summarizes the history of three Far East or East Asian countries China Japan and Korea This book begins with an introduction to the three Asian countries geographical features climatic conditions agricultural features racial affinities heritage common linguistic features and common political features The rest of the chapters discuss the Far East in ancient and medieval times Far Eastern civilization at its zenith era of Western domination Japan as the great power of the Far East and growth of Chinese nationalism The greater East Asia war triumph of communism in China and recovery of Japan are also deliberated A list of maps illustrated throughout this text is likewise provided This publication is intended primarily for use in schools colleges and universities as an introductory textbook on East Asian countries      **The Russian Far East** Susan F. Davis, 2003-08-29 This book is a comprehensive introduction to the contemporary Russian Far East RFE and offers an argument about federal relations and power in the state It is the only easily available single volume book to examine the RFE in such depth      *The New America and the Far East* George Waldo Browne, 1907      **The New America and the Far East** George Waldo Browne, Nathan Haskell Dale, 1910      The Far East in the Modern World Franz H. Michael, George Edward Taylor, 1964      **The Far East and Australasia 2003** Europa Publications, 2002 A unique survey of each country in the region It includes an extensive collection of facts statistics analysis and directory information in one accessible volume

The Far East Nathaniel Peffer, 1968 The history of modern Eastern Asia is the story of the intrusion of Western forces This interference is at the heart of today's upheavals Resolved to compete with and to imitate the West the nations of the Far East today challenge the world leadership of the United States and Russia      **A Glossary of Reference on Subjects Connected with the Far East** Herbert Allen Giles, 1900      The Far East Frank Elias, 1913      A History of the Far East in Modern Times Harold Monk Vinacke, 1959 Surveys the histories of China Japan and Korea in detail while also providing information on Russian Siberia Indo China Vietnam and Cambodia Thailand Siam Burma Maylaya The Philippines and Indonesia      *Warships of the Soviet Fleets 1939-1945* Przemyslaw Budzbon, Jan Radziemski, Marek Twardowski, 2022-12-12 Seventy five years after the end of the Second World War the details of Soviet ships their activities and fates remain an enigma to the West In wartime such information was classified and after a brief period of glasnost openness the Russian state has again restricted access to historical archives Therefore the value and originality of this work is difficult to exaggerate It sees the first publication of reliable data on both the seagoing fleets and riverine flotillas of the Soviet Navy listing over 6200 vessels from battleships to river gunboats and mercantile conversions as well as purpose built warships This second part of the three volume series includes all the remaining fighting vessels not already covered in Volume I Beginning with the Uragan class rated as Escort Ships and the first seagoing warships designed by the Soviet Union the book then moves on to Submarine Hunters both large and small Patrol craft Minelayers and Minesweepers and unusual types like Floating Artillery

Batteries and Anti Aircraft Defense Ships concluding with Landing Ships and Craft Many of these vessels have hitherto been poorly documented but given the nature of the land centered Soviet war against Germany their contribution should not be underestimated The details of their service and not least the circumstances of their loss constitute a major addition to Western understanding of the Soviet Navy s war effort This is undoubtedly one of the most important naval reference works of recent years and will be welcomed by anyone with an interest in warships the Soviet Navy or wider maritime aspects of the Second World War Furthermore as recent Russian actions appear to revive Soviet era aspirations this book offers both new insights and valuable background of contemporary relevance     *The New America and the Far East* George Waldo Browne,Nathan Haskell Dole,1907     **Hearings** United States.
